ADVENTURER IN TROUBLE

American Faces Court-Martial

Naval Officer Grow, Aide to Ousted Peru Dictator, Accused by Junta

New Government Head will Demand Respect from United States

LIMA (Peru) Aug. 29. (AP)—The court-martial of Harold B. Grow, American naval reserve officer who commanded Peru's air forces under ex-President Leguia, tonight was threatened by Lieut.-Col. Luis M. Sanchez Cerro, Peru's new chief of state.

In an interview with the Associated Press correspondent Sanchez Cerro accused Lieutenant-Commander Grow of being a "mercenary who has been violating the rule of public right."

"Following the orders of the overthrown dictator, he intended to fly over Arequipa and bomb the city without caring about the tremendous consequences of his action," Sanchez Cerro said.

"As Grow violated the rules of the military code he will prosecute him before a court-martial."

GROW IN PRISON

Lieutenant-Commander Grow was captured by the southern revolutionists shortly after the outbreak of the rebellion at Arequipa. He has since been held in prison. The American Embassy is understood to have been negotiating for his release.

In the course of the interview, Sanchez Cerro told the correspondent that the junta of which he is head will resign as soon as it finds the country ready to be governed by a civilian leader.

"When we consider the government absolutely free from the vices created by the previous administration we shall have pleasure in inviting the citizens to go to the polls in order to express their will," he said. "We will abide by their decision."

He said the new government will maintain the best possible relations with friendly countries.

DEMANDS EQUALITY

With regard to the United States, he said: "We will maintain the best respect we have always had for the United States, but we must be treated on the same standing as we treat them.

"We are a free nation and should be treated accordingly."

Severe punishment is contemplated for ex-President Augusto B. Leguia and others who, in the opinion of the junta, misused the nation's finances.

Sanchez Cerro loudly condemned the politicians of the Leguia regime. Leguia was taken from the cruiser Almirante Grau in Callao Harbor today and placed in prison on San Lorenzo Isle, where he will await trial for "misdeeds" during his regime. The prison is one he used for his own political prisoners during his eleven years' administration. Juan Leguia, son of the deposed President, was lodged in the same prison with his father.

Plane Tears Up Ship on Field

Noted Aviatrix Has Narrow Escape from Death at Chicago Air Races

Failure of Home-Made Craft Built by Rumanian Laid to Inadequate Power

CURTISS-REYNOLDS AIRPORT (Chicago) Aug. 29. (AP)—A crowd of 40,000 horror-stricken spectators saw the small "home-made" plane of George Fernic, St. George, Staten Island, N. Y., rise from the field, pause in midair then plunge sickeningly downward into a parked plane at the National Air Races today.

Fernic, a Rumanian, was dead when pulled from the cockpit. His plane demolished a ship in which Miss Martie Bowman of Hempstead, L. I., N. Y., had just completed a closed course race. The famous aviatrix missed death by inches as the falling plane cleft through the fuselage of her ship. She and W. S. Allison of Cleveland had just stepped from her plane and were standing near by with a group of mechanics. Members of the group scurried to one side in time to escape injury.

SECOND MAJOR CRASH

It was the second major crash witnessed by air race fans since the beginning of the meet and brought the total fatalities to three. Fernic's craft, of radical design, had taken off successfully. As it soared to the north end of the field at a low altitude it nosed skyward, made one backward loop and fell.

Screaming in horror, thousands of spectators made a concerted rush onto the field, adding to the confusion. Guards were powerless to avert the movement and it was some time before a semblance of order was restored.

HE BUILT CRAFT

Fernic had flown his plane to the air races, arriving Tuesday. He had designed and built the craft himself, placing on it a short, auxiliary wing which he believed gave it additional stability.

In a larger plane of similar design, which he had intended to fly to Rumania, he crashed several months ago at Roosevelt Field, but was unhurt.

The ship derived its energy from a motor of only 70 horsepower. Fernic had told friends he was pleased with the plane's performance, but that it needed a more powerful engine. Witnesses blamed his fatal accident on insufficient power to pull the ship out of the loop.

LINDBERGHS ATTEND

The accident occurred about an hour after Col. and Mrs. Charles A. Lindbergh left the races for Detroit.

Lindbergh arrived yesterday afternoon, spent the night in Chicago, and returned to the races today shortly before noon, seeing more than four hours of the program. He and his wife were again perched in the chief judge's booth above the grand stand, a partial retreat from the public gaze.

Both expressed disappointment because they could not remain for the rest of the meet. Business, the

BROMLEY'S ATTEMPT TO HOP FAILS

Tacoma Pilot's Plane Too Heavily Loaded to Fly from Japanese Airport

KASUMIGAURA (Japan) Aug. 30. (Saturday) (AP)—Harold Bromley's projected nonstop flight across the Pacific Ocean to Tacoma, Wash., was postponed again today when his heavily laden monoplane experienced difficulty in leaving the ground.

Carrying 1100 gallons of gasoline the plane City of Tacoma at 5:30 o'clock this morning raced down 1300 meters of the 1900-meter runway and got unsteadily into the air. Bromley, after making a half-circle, emptied 800 gallons of gasoline and landed at the eastern end of the field. The plane was in the air but a few minutes.

Hundreds of sailors of the Japanese naval base and thousands of civilians cheered Bromley and his navigator, Harold Gatty, as the plane started down the short field. The flight had been delayed several times because of unfavorable weather.

Bromley and Gatty were uninjured and the plane undamaged in landing. Another attempt will be made, Bromley said, when there are favorable winds to aid the take-off.

Blind Student Heads His Class

CHICAGO, Aug. 29. (Exclusive)—The most brilliant graduating student of the summer class at the University of Chicago is a blind youth, 24 years of age.

Raymond Dickinson was blinded in an automobile smash-up four years ago, six months before he entered the university. Today he received his degree of bachelor of philosophy. Last spring he was elected to Phi Beta Kappa.

Dickinson, the son of an apartment-house janitor, went through college on scholarships. Now he plans to write.

Drys May Fight Mrs. McCormick

CHICAGO, Aug. 29. (AP)—George B. Safford, superintendent of the Illinois Anti-Saloon League, today said officers of the league will urge support of any worthy independent candidate for the United States Senate who will support the dry cause.

Although the Anti-Saloon League supported Ruth Hanna McCormick in her primary campaign against Senator Deneen, Safford said Mrs. McCormick's prohibition pronouncement at the recent Republican convention was unsatisfactory.

Alabama Vote Fraud Charged

MONTGOMERY (Ala.) Aug. 29. (AP)—The Montgomery Journal today said the forty-two ballot boxes in the recent Democratic primary in Jackson county have been impounded in the vault of the First National Bank of Scottsboro pending a grand jury investigation into reputed frauds in the election.

The fraud charges were said to include allegations that votes were cast for dead persons; that some persons voted three and four times and persons who had not paid poll taxes were permitted to vote.

Paint Company Plants on Full Time Operation

CLEVELAND, Aug. 29. (Exclusive) Full-time operations have been ordered for all plants of the Sherwin Williams Company, thus giving employment to several thousand employees, it was announced today.

Sherwin Williams factories have noticed a decided pick-up in business the last week or two and President George A. Martin is optimistic over the definite turn which seems to be on hand, said a statement issued at the company's office.

American Films Withdrawal Seen as Tax Reprisal

WELLINGTON (N. Z.) Aug. 29. (AP)—Representatives of American motion-picture corporations in New Zealand have been instructed by their home offices to cease selling films in the Dominion as from today.

The action is said here to be an attempt at retaliation against recent increases in taxation on the film industry and particularly against the 25 per cent tax levied against profits from exhibition of films made abroad.

Rum-Runners Slay Officer

ALTUS (Okla.) Aug. 29. (AP)—E. L. Carter, 32 years of age, deputy Sheriff, was killed, and Joe Whitt, night Police Chief of Altus, was critically wounded in a pitched gun battle with bootleggers four and a half miles southwest of here tonight. The four rum-runners escaped.

Two men in a coupe preceding a truck loaded with 700 gallons of whisky opened fire when stopped by the officers.

ARGENTINA ALERT FOR OUTBREAK

Warships and Troops Ready to Meet Attack by Revolutionists

BUENOS AIRES, Aug. 29. (AP) The Divisional Chief of Territorial Police was shot and wounded in the leg in a clash between supporters of President Yrigoyen and rivals here tonight. In another clash earlier in the evening another supporter of the President was seriously wounded.

BUENOS AIRES, Aug. 29. (AP)—With three destroyers anchored in the harbor and troops confined to barracks, the Argentine government for the second successive time alertly waits tonight for a possible revolutionary outbreak or attack against President Hipolito Yrigoyen.

Two high army officers of the capital troops were suddenly placed under arrest in the First Infantry barracks. They are Lieut.-Col. Pedro Rocco and Capt. Luis Jorghensen, attached to the military communications division. No reason for their arrest was announced.

Beyond this and an impressive show of police strength, the day passed without any signs of danger to the state or its chief.

BOYS' 'FUN' COSTS LIFE OF VICTIM

Youngsters Confess to Firing Brush Piled on Sleeping Man

ROCHESTER (N. Y.) Aug. 29. (AP) Three boys, all under 12 years of age, were arrested today in connection with the fatal burning on the 13th inst. of an elderly man in a junk yard.

Police said the lads confessed piling brush over James Wright, 69, as he slept, and setting it on fire. Wright died later.

When the boys, whose names were withheld because of their ages, 8, 9 and 11, were asked why they started the blaze, their only answer was, "Just for fun."

They are held on a charge of juvenile delinquency.

BOY DIES IN CRASH

POLICE TO TEST BICEPS IN TEN-TON BEAM THEFT

PHILADELPHIA, Aug. 29. (AP) The police are not quite certain, but they strongly suspect Ali Baba and his forty thieves had something to do with today's "biggest" robbery.

For some time during the night the beam of a steam shovel, forty feet long and weighing ten tons, was stolen from a sewer construction job in the Drexel Hill section. A steel bucket, weighing three-quarters of a ton, and a cable, weighing about 1000 pounds, also were carted off.

James M. Kohler, an executive of the Delaware County Construction Company, reported the theft to police.

"It would require at least forty men, a truck and trailer to dismantle that shovel and carry off the beam, which is worth about $2500," he said. "It takes six men to put the bucket on a truck."

The shovel stood in a field 300 feet from a road, he added.

BUILDING TO BE PUSHED

Hoover to Speed Public Works

Federal Ten-Year Program will be Expedited as Relief Move

President and Aides to Map New Course at Camp in Virginia

ORANGE (Va.) Aug. 29. (AP)—President Hoover this week-end will confer at his Rapidan River lodge near here with government officials concerning a possible speeding up of the Federal ten-year public construction program.

Like last week's discussion which resulted in a decision to create work on the Lower Mississippi and other waterway projects to relieve unemployment, the object this week will be to determine if similar relief measures can be taken in connection with the building program without disturbing a balanced budget.

PROJECTS INVOLVED

Ferry K. Heath, assistant Secretary of the Treasury in charge of public buildings, and John W. Philp, assistant Postmaster-General having supervision over postoffice sites, will participate in the discussions. Both had reports showing the status of the $550,000,000 building program launched three years ago and were prepared to outline to the President projects they believed should be carried in next year's appropriations. Of the total authorized for public buildings, Congress has appropriated more than $300,000,000, including $165,000,000 for the national capital.

The unemployment situation primarily is back of the conferences. Secretary Hyde, upon leaving the Cabinet meeting in Washington today, estimated farm labor unemployment to have increased roughly about 11 per cent since the drought began.

MANY GUESTS

Besides the government officials, the President and Mrs. Hoover brought a large party of personal friends to the camp to remain until Labor Day. They were J. V. Reynders, New York engineer, and Mrs. Reynders; Henry M. Robinson, Los Angeles banker and member of the Hoover drought relief committee, and Mrs. Robinson; William Starr Myers, professor of politics at Princeton, and Mrs. Myers; George Baldwin, New York engineer, and Mrs. Baldwin; Mark Sullivan, writer, and Mrs. Sullivan; James Rippin, New York, and Mrs. Rippin; Miss Martha Van Rensselaer, professor of home economics at Cornell University; J. N. Darling, the cartoonist; J. P. Goodrich, former Governor of Indiana; Dr. Joel T. Boone, the President's physician; Lawrence Richey, secretary to Mr. Hoover; Mrs. Dare Stark McMullin, Palo Alto; Herbert Hoover, Jr., and Delano Large, nephew of Mrs. Hoover.

The party will return to Washington late on Labor Day.

ANDREE SHIP ENSHROUDED IN FOG BANK

Location of Bratvaag with Explorers' Bodies and Polar Epic Unknown

TROMSOE (Norway) Aug. 29. (AP)—Great banks of white fog descended today on the polar regions, adding to the difficulties of searching for the motor-driven steamer Bratvaag, which, despite its small size, is at the moment probably the world's most famous and most sought-after vessel.

Somewhere in the Arctic wastes the Bratvaag is nosing about in the icy waters—where, no one is certain. Locked away in her stout, oaken sides is one of the greatest exploration epics of all time—the story of the mysterious end of Salomon August Andree and two colleagues thirty-three years ago in their daring effort to be the first to fly over the North Pole in a balloon.

Whether the Bratvaag is pursuing her dangerous but still somewhat prosaic business of catching seals in the region of Fridtjof Nansen Land, or whether she is racing back to Tromsoe with her wonder tale and the bodies of the explorers is not known.

PERIOD OF ANDREE'S SURVIVAL ESTIMATED

OSLO, Aug. 29. (AP)—Dr. Adolf Hoel, head of the Norwegian government research office in Spitzbergen, expressed the opinion today that Salomon Auguste Andree, Swedish balloonist explorer, and his two companions may have lived for as much as two years on White Island after their balloon met disaster.

Dr. Hoel arrived here today preliminary to going north with an expedition to meet the sealer Bratvaag, which has aboard the bodies of Andree and his two companions, who perished after an unsuccessful attempt to reach the North Pole in a balloon in 1897.

CHINESE ASSASSINATED

TAHOE TAVERN, Aug. 29.—[To the Editor of The Times:] Did you read about the nominations in the State of Idaho? You remember Senator Borah used to be quite a favorite up there? Well, I never saw a man going back so fast as he is. Why the other day there was actually half of one county that wasn't for him. The Democrats almost decided not to nominate an opponent against him. They shouldn't, for he is the best Democrat in America. But that half a county being against him just shows you can't be at the top always.

WILL ROGERS.

CHINA HORDE FLEES REDS

Marching Foe 20,000 Strong Ten Miles from Walls of Changsha

Americans Prepare to Take Refuge on Gunboat as Invasion Impends

SHANGHAI, Aug. 29. (AP)—Thousands of terrified Chinese fled from Changsha and Wuchang today as Red armies approached.

Fearing Red vengeance for 1500 comrades executed, the provincial garrison of 8000 was reported planning flight as 20,000 Communists neared Changsha.

The advance body of Reds, only ten miles from the city walls, threatened to attack momentarily. Further wholesale plundering and murder, completing the Communist sacking and burning of Changsha last month, are feared.

The few Americans who returned after the July holocaust are prepared to take refuge aboard the United States gunboat Palos. They had little confidence in ability of the provincial troops to repel attack, and laughed at the stringing of a wire fence about Changsha. The fence was to carry a deadly electric current; a modern device supplementing the ancient walls of the city.

The wavering garrison was without its leader. Accusing Gov. Ho-chien of incompetence when the Reds recently despoiled the city, the troops expelled him recently.

They demanded back pay. It is said some had joined the Communist forces. Many boats were seized by the troops for flight down the Siang River, if necessary.

Frightened by reports Reds are about to attack Wuchang, thousands of Chinese have fled across the Yangtse River to Hankow. In the latter city Nationalist government troops increased precautions.

Foreign warships lay at anchor continuing their watch over the large number of foreigners in Hankow.

FIFTY DEAD FROM HEAT

Sun Unrelenting Over England

Distress Brings Increase in Crimes of Violence; Scores Stricken

Thermometer at 94 Deg.; King and Queen in Scotland Storm

LONDON, Aug. 29. (Exclusive)—The blanket of heat which is smothering England remained a suffering mantle over the country today as the loss of life and property during the four-day siege by the sun mounted increasingly higher.

For the second consecutive day the thermometer reached 94 in the shade in London this afternoon, and remained there several hours. There is no sign of relief yet. Twenty deaths were reported today, bringing the total for three days up to fifty.

There has been a sudden increase in suicides and crimes of violence due to the irritability and depression of the sufferers. There was a horrible scene at Hastings when five polar bears in a circus were driven insane by the heat and attacked their trainer, Rudolph Cosmeyer. He was mauled by the snarling beasts before his father and other men drove them off with spikes.

Relief reached Scotland in the form of a furious thunderstorm early this morning, but it did more damage than good by disrupting communications.

SCORES PROSTRATED

London's suffering from the heat is most acute as the weather record which has been standing for nineteen years is approached by only a fraction of a degree. Scores of prostrations occurred on the streets during the day, and the police, hospital and fire department ambulances spent the day and night aiding the victims. One death terrified the passengers in a crowded subway when a man suddenly slumped in his seat and fell to the floor.

A grocer, harried by poor business, hanged himself and his wife.

The danger of drinking alcohol during intensely high temperatures was stressed in a public warning by the Coroner at the inquest of Mrs. Mary Osborne, 36 years of age, who collapsed in a saloon after a fatal heart attack and did not regain consciousness.

The heat has driven the poor in the crowded East End districts out into the parks. Many have fled to the Thames. Thousands spent the night in the open in bathing suits, hoping to escape the scorching temperatures of the tenements.

ROYALTY IN STORM

King George, Queen Mary and other members of the royal family were in the center of the terrific storm which swept Scotland. The Duke of York was visiting his parents at Balmoral when the storm cut telephone communications with Glamis Castle where the Duchess of York and her week-old baby are staying.

Premier MacDonald was forced by the storm to turn back after he had started by airplane for London from his home at Lossiemouth, Scotland.

The heat has been accompanied by two attempts to swim the English Channel, both of which were abandoned although the water was perfect. Dr. G. B. Brewster was forced to abandon his attempt after seven hours due to the extreme heat. Elsie West failed yesterday.

The forecast for the week-end predicts continued heat in the south and southwest, with more rain in the north.

NEW ROUTE FOR AQUEDUCT

Engineering Society Hears Plan for Gravity Flow of Colorado River Water

SAN DIEGO, Aug. 29. (Exclusive)—A plan for bringing Colorado River water into Southern California and the Los Angeles metropolitan area at a very substantial saving in the pumping lift contemplated in previous aqueduct plans was presented to the local chapter of the American Society of Engineers last night.

C. J. Allison, an engineer who has specialized in Colorado River problems for twenty-eight years, presented the proposal to the society in a paper comprising a comparative study of plans already proposed by engineers for the Metropolitan Water District. It was not to be construed as a finished plan, he explained, but more in the nature of a suggestion for further study and criticism.

The proposal appeared to be of notable interest to the engineers and is given considerable space in local newspapers. It was reported that Mr. Allison will present his plan to engineers of the Metropolitan Water District at Los Angeles for their consideration.

The big problems that confront any proposal to bring Colorado River water into Southern California are the elimination of silt and the heavy rainfall in the middle tributaries to the river the silt content will run as high as 10 per cent, and will probably average around 5 per cent wet silt by volume. Desilting reservoirs are contemplated lifting of the water over the mountains lying between the river and the coastal area, Mr. Allison told his hearers. The silt problem is a tremendous one, for at times of in any Colorado River aqueduct plan, he said, and acceptable sites are scarce.

Mr. Allison's plan is for what he styles a trunk-line aqueduct starting at the head of the Laguna Salada in Mexico, thence by tunnel to San Diego, where it comes out at nearly sea level, then a comparatively small lift and an aqueduct up the coast by gravity into the Los Angeles metropolitan area. From this trunk line the several communities would take what water they need and lift it to whatever local elevation might be necessary. Laguna Salada is a lake forty miles long and thirteen miles wide, its head is about ten miles below the border.

In his brief outline of the plan, which is only in preliminary form as yet, Mr. Allison said that it would eliminate most of the 1300-

(Continued from First Page)

foot lift of all of the 1500 second-feet of water contemplated in aqueduct routes now under consideration by the metropolitan district. He added that the Laguna Salada furnishes an excellent desilting reservoir.

Some of the outstanding engineering features of the plan include bringing the lower end of the Colorado River into the Laguna Salada at an elevation of thirty to forty feet above sea level. The river is under control there at that point now and can be turned into the Laguna by means of a short tunnel under the range of mountains which hem the lake in, according to Mr. Allison. The Laguna area's lowest point is only thirteen feet below sea level, whereas the Salton Sea area in Imperial Valley country is at places 200 feet below sea level.

FOR DESALTING

Allison's plan calls for the desalting of Laguna Salada be the simple expedient of running the river through it for two seasons. All of the salts are soluble in water, he declared, and the plan is feasible because th Laguna has a drainage outlet at the south end. The Salton Sea has no drainage outlet, hence cannot be desalted.

With the de-salting completed the lower end of the outlet would be closed by a levee about ten miles long and thirty to thirty-five feet high. This would give the Laguna a capacity of about 6,000,000 acre feet of desilted and desalted water from the river. From the upper end of the lake the tunnel would take off with an outlet at an elevation above sea of about thiry feet and run for seventy miles to San Diego, furnishing a gravity flow to a sea-level point.

LIFT MUCH REDUCED

This tunnel is no longer than the longest tunnel contemplated in previous aqueduct plans and there is no lift, Mr. Allison said. At San Diego there would be required only sufficient lift to let the water flow by gravity along the coast as a trunk-line aqueduct. Just how much this would be has not been figured out yet, the engineer said, but in any event it would not be nearly so great as the 1300-foot lift contemplated in routes now under consideration.

Another advantage, Mr. Allison pointed out, would be that not all of the water would have to be lifted, as it would be under present plans. Only the communities high up on the coastal plane would have to do any appreciable amount of lifting.

The intermediate storage required between the river and the area to be served would be in the vicinity of San Diego, where plenty of reservoir sites at desired elevations are available, Mr. Allison said.

Mr. Allison declared that his plan is merely an engineering suggestion for study, and that he has not attempted to go into the matter of cost or of international arrangements for handling the project. The engineering details will be worked out further.

His completed paper on the project is to be published in the proceedings of the American Society of Civil Engineers.

SELECTION OF ROUTE FOR AQUEDUCT NEAR

ANAHEIM, Aug. 29. (Exclusive)—Selection of a route for the bringing of water from the Boulder Canyon project to the Los Angeles coastal plain may be expected to be almost if not entirely completed, by next December, and a bond issue upon the Metropolitan Water District for the building of the aqueduct may be expected by April of next year.

This information was given out here last night by speakers before the Metropolitan Water District Advancement Association, meeting at the Elks' Clubhouse with members of the Orange County Engineers' Club and representatives of the Orange County League of Municipalities. One hundred and forty persons attended the dinner meeting. The next meeting of the water district group was announced for Ontario on October 2.

ENTRY URGED

Cities expecting to enter the Metropolitan Water District should do so at once, Judge G. H. Hutton, district director from Santa Monica, urged. Each year of delay, he said, increases the financial impediment to entering the body, since cities applying for entrance must pay their proportionate share of costs already incurred.

Judge Hutton, speaking upon the legal aspects of the act creating the water district, declared that Section 5½, which specifies how water from the aqueduct shall be apportioned to member cities, is one of the most unsatisfactory parts of the act. This section provides that a city member of the district shall receive a share of the total amount of water allotted in proportion to the relation of its assessed valuation to the assessed valuation of the entire district. Thus a city whose assessed valuation should decrease would find its water supply diminishing, it was pointed out. S. C. Evans of Riverside, executive director of the Boulder Dam Association, suggested an amendment to the section which would prevent the diminishing of any large amount of water once received by a city and put to a beneficial use.

REAL DROUGHT ONCE

While Southern California residents may have been under the impression that they have been experiencing dry seasons recently, such actually is not the case, Franklin Thomas of the California Institute of Technology at Pasadena, pointed out. Figures were quoted to show that several years of record have received less than seven inches of rainfall in Southern California, while in one year, 1791, absolutely no rain fell in the district.

Thomas illustrated his remarks with lantern slides, showing details of plans for the dam in Boulder Canyon, the various possible routes over which it is proposed to bring water from the Colorado River, and maps of the terrain drained by the Colorado.

The meeting was presided over by W. J. Sanborn, president of the Los Angeles City Council. Mayor Miller of Anaheim welcomed the visitors and introduced his associates on the Anaheim City Council.

Cities represented at the meeting included Anaheim, Riverside, Ontario, Redlands, Torrance, Long Beach, Glendale, Pasadena, Los Angeles, Fullerton, Santa Ana, Laguna Beach and Santa Monica.

AQUEDUCT SURVEYS DATA BEING STUDIED

In a report received yesterday by the board of directors of the Metropolitan Water District from Chief Engineer Weymouth, it is revealed that all field surveys on the various routes being considered for the metropolitan aqueduct practically have been completed and that the district's engineering forces now are entering the final studies on the gigantic problem.

Weymouth said his engineers are conducting detailed tests and studies on vital sections of the various lines and that special geological examinations also are to be made on various reservoir and tunnel phases of the general project. More than sixty possible routes have been studied by the engineers for the aqueduct that is to bring Colorado River water to the cities in the Metropolitan Water District.

The prospect of a decision some time this fall was made evident at yesterday's session.

I. Eisner, real estate man, yesterday took office as one of the five directors on the Metropolitan District board from Los Angeles. Mr. Eisner was appointed by Mayor Porter to succeed O. T. Johnson, Jr., who resigned to serve as a member of the Board of Water and Power Commissioners for the city of Los Angeles.

FEMININE RIGHTS IN AIR DEMANDED

Fair Pilots Form Club to Win Part in Major Events

They Want Equality in Sky Contests

CHICAGO, Aug. 29. (Exclusive) Rumblings of revolt among women aviators against the rules which bar them from many races in which men participate have been heard with increasing force during the National Air Races here this week.

The cause of women's rights in the air has been made the principal business of the Ninety-nine Club, formed by women pilots.

Rules formulated for the present races have limited the fair flyers to small planes and short races, and have barred them from the main events, they assert, to such an extent as to cast reflection on their skill.

Protest against the restrictions were made to race officials several days before the races began, but were turned down. Now the women intend to see that they get better treatment in future events.

They are not unanimous, however, in their demand for equal rights. Some of the women pilots, notably Amelia Earhart, do not believe women are capable of handling the larger and faster planes with the same skill as men. They should be content to stay in their own class, she said recently.

Probation Won by Professor in 'Agency' Fraud

PHILADELPHIA, Aug. 29. (AP)—Prof. Edward S. Bamford, whose fake "national motion-picture and modeling employment agency" was broken up by police Monday, was placed on three years' probation by the court today after a hard-luck plea by Bamford and a check-up of his record had revealed no previous blemishes. He said he is without funds, has a wife and two children in Kansas City and his wife is ill.

Bamford, a former instructor in Pennsylvania State College, was arrested Monday in a hotel, where he examined more than 100 young women as "prospective motion-picture actresses and artists' models." He admitted today he had received a $1 fee from about twenty-five of the girls. Detective Malone testified Bamford's scheme involved no attempt at immorality.

State Chamber Told Fruit Fly Exterminated

STOCKTON, Aug. 29. (AP)—N. H. Sloane of San Francisco, general manager of the California State Chamber of Commerce, told the Central Valley Regional Council of that body, in session here today, that the Mediterranean fruit fly has been entirely eradicated in Florida and is nowhere in evidence in the United States.

Manager Sloane stated that the Federal government had 650 inspectors make a two-months' search through Florida and that their report, just made, was to the effect that not one trace of the dreaded fruit fly could be found.

colonel said, forced their return to the East.

Mrs. Phoebe Omlie, Memphis, Tenn., won the women's cabin ship event at the races today, maintaining an average speed of 135.20 for the twenty-five miles. Mrs. Martie Bowman of Hempstead, L. I., N. Y., was second at 234.01 miles, and Mrs. Gladys O'Donnell of Long Beach, Cal., third at 131.91 miles.

MRS. O'DONNELL WINS

Mrs. O'Donnell, winner of the Long Beach to Chicago air derby, placed first in the twenty-five-mile race for women pilots flying open ships of 800 cubic inch piston displacement. Her ship, a Waco 10-T averaged 139.88 miles an hour. Margery Doig Danbury, Ct., placed second, and Mildred Morgan, Beverly Hills, Cal., third.

Judges announced today that the model airplanes entered in the national air race competitions by Elmer Lueckerath of Ferguson, Mo., broke the world's record for fuselage models when it flew for 213 seconds. The previous record was 156 seconds.

IMPORTANT RACES

Two races considered among the most important of the meet were run today. They were the air transport and efficiency competition for the Detroit News air transport trophy and the speed and efficiency test for the Aviation Town and Country Club trophy. Both races afforded examples of development in passenger and freight-carrying ships.

A Bellanca Pacemaker, piloted by Howard Young of Wilmington, Del., and carrying 1570 pounds, won the Detroit trophy with 626.02 merit points for efficiency. First in the speed division went to a Lockheed Vega plane, piloted by James Haizlip of St. Louis, who averaged 160.90 miles an hour for the fifty miles. Haizlip carried 1142 pounds of pay load. Young's average speed was 129.59 miles. Both received first prizes of $450.

A Bellanca air bus placed second in the efficiency test with George Haldeman of Wilmington at the helm. He collected 608.45 merit points, and was third in the speed division of the race. A Bellanca freighter piloted by Stewart Chadwick of Wilmington was third in efficiency, making 471.90 merit points.

OTHER WINNERS

Art Chester, Moline, Ill., won the men's dead-stick landing contest when he shut off his motor and glided to within 2ft. 9½in. of the goal flag. Heath was second and J. H. Livingston, Aurora, Ill., third.

The women's dead-stick contest went to Mildred Morgan, Beverly Hills, Cal., distance, 116 feet. Nancy Hopkins, Washington, D. C., was second and Betty Lund, Troy, O., third.

Doug Davis, Atlanta, Ga., won the daily balloon bursting contest in forty seconds. Art Davis, East Lansing, Mich., was next and M. Hershberger, Chicago, third. Joe Crane of Mineola, N. Y., took the daily parachute-jumping contest with Roger Don Rae, East Lansing, Mich., second and Enrique Miles, Cincinnati, O., third.

BALTIMORE, Aug. 29. (AP)—There is no need for an operation to save the sight of Booth Tarkington, Indiana author, who is a patient at the Johns Hopkins Hospital here, officials said today. They said the author made his third entry into the hospital for rest and observation, and the condition of his eyes is not more aggravated than it has been for several months.

OREGON SLAYER ELUDES PURSUIT

Fifty Armed Men Trail Vic Sutherland

Accused as Murderer of Two Dry Raiders

Son May be Forced to Lead Posse to Hide-out

EUGENE (Or.) Aug. 29. (AP)—Vic Sutherland, 67 years of age, asserted moonshiner and slayer of Joe Saunders, 37, deputy game warden, and Oscar Duley, 35, Eugene policeman and deputy Sheriff, killed in a liquor raid, tonight continued to elude a posse of fifty armed men scouring the densely wooded hills near Marcola, Or.

Sheriff's officers expressed the belief that Sutherland is hiding in a secluded backwoods haunt where he might remain undiscovered for several days. They are considering the advisability of attempting to force his son, V. (Stew) Sutherland, 21, who is in the Lake County Jail, to lead them to hide-outs where the older map may have taken refuge.

HOUNDS USED

Members of the posse today discovered a recently operated still in a ravine near Marcola. A quantity of liquor also was found.

Bloodhounds were used throughout the day but failed to pick up a lead of consequence. The hounds did lead the posse to the home of Mrs. Vic Irish, Sutherland's former wife, who said Sutherland had come to her home and she had dressed a hand wound for him. He told her, she said, "They'll never take me alive."

National Guard machine gun crews have been posted about Sutherland's home in Marcola in the event he should appear there.

Sutherland is said to have wounded Duley fatally shortly after midnight Thursday when the deputy halted an automobile containing liquor driven by Sutherland en route to a party. Later when Joe Saunders, Lee Bown and Rodney Roach, deputies, entered the Sutherland home in search of the asserted moonshiner, Sutherland is said to have opened fire from a closet, killing Saunders and wounding Roach and Bown. Roach and Bown reached their car and drove away.

BODY RECOVERED

A short time later Sheriff Harry Bown, police officers and a posse arrived, accompanied by young Sutherland. Chief of Police Hall and some of his men skirted the residence but found no signs of Sutherland. Then Chief Hall returned to the posse in custody of young Sutherland.

"Your father killed one of my men tonight," said the Chief, as he fastened a long rope about Sutherland's waist. "Now you go to the door and call to him: Tell him who you are and bring out that body (referring to Saunders, whose body was still in the house.) Remember, I'm standing behind you with a loaded shotgun, my finger on the trigger."

The youth obeyed and brought out the body. The posse crowded forward into the residence but the elder Sutherland had escaped.

Pair Jailed as Suspects in New Mail Fraud Plan

PHOENIX, Aug. 29. (AP)—Two men are being held in the Phoenix jail on charges of using the mails to defraud through what postoffice inspectors described as "an ingenious plan" to obtain money from the Motor Vehicle Division of the Arizona Highway Department on false claims for exemption from payment of the 4-cents-a-gallon gasoline tax.

Those held are Milton Shumaker of Phoenix, statistician for the Motor Vehicle Division, and Roger H. Swisher of Los Angeles, a former Phoenix resident.

Postal inspectors declined to disclose the amount of money asserted to have been obtained through the plot, but indicated it will run into thousands of dollars.

of China and of the Philippines National Bank. Wilson named them today in testimony before the Senate subcommittee on China's trade conducting an investigation at the Fairmont Hotel under the guidance of Senator Pittman, Nevada, chairman. The major factors for consideration, he said, are international political and military struggles, financial arrangements whereby workers can be given work and the government stabilized. Racial fear of aggression, fear of Japan and fear of Russia.

Father Adolph Baschang of St. Louis, Catholic missionary, declared the continued strife in China is, in his opinion, directly attributable to the circulation of Russian Bolshevist propaganda.

"The Reds of Russia have reached into the schools of China," he asserted, "with the result the Chinese Communist leaders today are, for the most part, young boys and girls of meager education.

"Their bandits no longer fear to attack whites and Christian missions. In my opinion, Christianity is the last remaining bulwark against Bolshevism in China."

day that recognition of new governments will depend on merit and the fact a government was formed through revolution would not be a bar to such recognition.

A clarification of attitude was felt salutory in view of the recent overthrow of the government in Peru and difficulties in other Latin-American countries.

Officials said that among the elements involved is whether the government in question is sufficiently well seated to protect life and property and upon other questions of international law generally governing such situations. It was also added that the United States has not made it a policy in recent years to withhold recognition from new governments by revolts.

EXCEPTION NOTED

One exception to this in the past was noted. When Charles Evans Hughes was Secretary of State five Central-American republics agreed not to recognize any government among their number created by revolution. Through Hughes, the United States expressed its approval of that agreement.

Although an expression on recognition arose in connection with the recent revolt in Peru, it was said authoritatively the question of actual recognition of the new government has not yet arisen.

Enunciation of this government's attitude recalled the attitude of the United States toward other provisional regimes in recent years.

ECUADOR COUP

The government formed by the bloodless coup d'etat in Ecuador in 1925 was not recognized until August 14, 1928. Former Secretary of State Frank B. Kellogg said then he "was confident that the regime" in power represented a majority of the Ecuadorean people.

The case of the recent revolution in Bolivia also was recalled. No recognition as yet has been extended that government, but normal relations, similar to those before the revolution, have been carried on.

CHILD-SLAYING SEARCH FAILS

South Bend (Ind.) Hunts for Murderer in Vain

Little Girl Believed to Have Been Killed in Barn

Playmates Tell of Attempt to Entice Victim

SOUTH BEND (Ind.) Aug. 29. (AP) Police were able today to pick up only a few vague bits of information that may aid in apprehending the slayer of 8-year-old Marverine Appel. Authorities found a barn in which the child is believed to have been attacked and killed a short time before her body was found last night in an alley two blocks from her home. There were bloodstains and also the footprint of a child on the earthen floor.

Little was developed, however, as to the identity of the slayer, who is believed to have been some mentally deficient person. One suspect was arrested here, questioned and released.

REWARDS OFFERED

Another suspect is held at Elkhart, a near-by city, but there is only a flimsy chance, police say, that he is the slayer. He gave his name as Frank B. Shuey, 34, of Greensburg, Pa.

In the hope monetary rewards will develop some clew, the City Council offered $3000 for the capture of the killer. The St. Joseph County Commissioners offered $500 and the South Bend News-Times added $100.

Marverine disappeared Wednesday evening. Playmates said earlier that day a man had attempted to entice her into taking an automobile ride. Their descriptions of the man were vague but they said his car was of the small type recently introduced into this country.

DESCRIPTION GIVEN

The word picture given by the children of this man was completed somewhat by H. J. Jones, a school janitor. Jones, who had called Wednesday at the home of the child's mother, Mrs. Eula Appel, in regard to some laundry work, said he saw a man in a small car parked opposite the Appel home. Jones pictured the man as being about 30 years of age, of heavy stature, smooth of face and wearing a Panama hat.

The child's death inspired neighbors to participate in an organized hunt for her slayer. Some armed themselves and patrolled the railroad yards near her home, searching through box cars and beating through the weeds.

GRAFT INQUIRY WILL GO DEEP

More Tammany Leaders will be Investigated

Bank Accounts Subpoenaed in Judgeship Buying

Additional Jurists Accused in Score of Letters

NEW YORK, Aug. 29. (Exclusive) Acting on the theory that "for every Tammany judge there's a district leader who sponsored him," investigators in the Ewald-Tammany bench-buying case launched upon a new course today that may end with official scrutiny for the private bank account of every district leader in the Tammany organization.

Twelve bank accounts of "politicians, judicial officers and others" will be delivered under Federal subpoena Tuesday to U. S. Atty. Tuttle. Deputy United States marshals started on the hunt through the banks today under instructions from Tuttle's assistants, Alvon McK. Sylvester and Thomas J. Curran.

MANY ACCUSED

Whether the new Federal step was taken with the co-operation of State Attorney-General Ward's inquiry into the Ewald case was not revealed.

Sylvester admitted that much of the information which led to the new inquiry was based on anonymous charges. More than a score of letters, many unsigned, have been received at the Attorney-General's office in the last week. In them Supreme Court justices, general-sessions judges and city magistrates are accused of paying for their appointments sums ranging up to [illegible].

FOUR INVOLVED

One Municipal Court judge, one magistrate and two "judges of higher courts" are involved in the charges which led to the issuance today of the dozen Federal subpoenas.

In the various investigating agencies—federal, State and county—it was indicated this afternoon that they would take things easy over the extended week-end and start the political fireworks anew on Tuesday with a bang.

HER HUNT FOR MAN TO WED FRUITLESS

[P. & A. photo]
Frances A. Weaver

NEWARK (N. J.) Aug. 29. (Exclusive)—Miss Frances A. Weaver's search for a husband has so far proved fruitless. However, it has been pursued under unusual difficulties, because her choice just now is limited to one man whose name is about all she knows about him.

The man in question is a brother of Prof. Daniel P. Brooks, Miss Weaver's fiance, who died last winter leaving his estate to her, provided she marries the brother. She understands he is somewhere in New Jersey, but a week's hunt for him here has failed to bring results.

Miss Weaver's home is in East St. Louis, Ill.

VEIL LIFTED ON FUTURE SKY TRAVEL

President of Automotive Engineers Foresees Fast "Flying Submarines"

CHICAGO, Aug. 29. (AP)—"Flying submarines" to cruise at 250 miles an hour eight miles above the earth were predicted today by Edward B. Warner, president of the Society of Automotive Engineers now in convention.

Cruising speeds of 100 to 150 miles an hour are sufficient for present needs, he declared, except in certain parts of the West and North where travelers wish to fly 1500 miles between dawn and sunset. When more speed is demanded the submarine and the rocket plane, long a dream of Glenn Curtiss, will be developed, Warner said.

"The industry is engrossed in methods of transporting passengers with speed and safety and the reduction of operating costs by economy and efficiency," he said.

"When costs and rates are lowered, I expect to see the air lines take over a large part of the railroad passenger business."

Warner said Americans are not interested in the foreign trend toward giant air liners because they are considered extravagant and unnecessary.

Book Burglar Adds to List in Washington

WASHINGTON, Aug. 29. (AP)—Fifty rare volumes of German prose and poetry have been added to the library of the capital's most discriminating thief.

Four Georgetown homes, left closed for the summer by their owners, have been robbed of their rare books within recent weeks. In each case volumes of little value have been left behind while fine silver and valuable bric-a-brac have been disdained by the collector.

The latest robbery was discovered yesterday. A search of other closed houses in the neighborhood disclosed numbers of books packed and ready to be taken away by the intellectual burglar.

Espee Begins Investigating Train Wreck

SAN LUIS OBISPO, Aug. 29. (AP) An investigation was begun by a Southern Pacific board of inquiry here today of the rear-end collision early yesterday between the passenger trains Lark and Padre in which twenty-four persons were injured. The board recessed tonight and will reconvene tomorrow.

E. R. Anthony, Pacific Coast superintendent of the Southern Pacific, headed the board, which questioned crews of both trains and yard employees.

A railroad official who declined to be quoted termed "man failure" responsible for the collision.

PAN-AMERICAN ROAD INDORSED

Trade Conference will Aid Highway Project

Scores of Proposals Acted Upon by Delegates

Los Angeles May be Picked for Headquarters

BY CHARLES C. COHAN
"Times" Staff Representative

SACRAMENTO, Aug. 29. (Exclusive)—From the Pan-American Reciprocal Trade Conference now concluding its week of sessions here will come hearty support of the Pan-American highway project with expected significant influence in its materialization. This not only is indicated by the freely expressed sentiment of the delegates, but likewise by a resolution being prepared for the consideration of the general conference.

A resolution declaring the projected highway necessary to further the friendship of the American nations came before the general conference today.

PROJECTS INDORSED

The general session this afternoon began consideration of the almost 100 resolutions that have been drafted by round-table conferences and submitted to the resolutions committee which has dealt with about 1000 pages of such resolutions and recommendations. From today's deliberations has come conference indorsement of resolutions embodying the following propositions:

Use of the metric system throughout the American nations.

Port improvements in Central America wherever needed.

Improvement of lines of communication in Central America.

Devotion of greater attention to tourist travel and activities designed to further inter-American tourist travel, including expansion of accommodations and good treatment of tourists.

Dissemination of the conference actions and recommendations through service clubs, chambers of commerce and other agencies.

Increased exchange of information regarding passports and other details as an aid to travel.

Co-operation between the American nations for the control of plant pests, the creation of a board to help control such pests and the handling of quarantine affairs in a way to involve a minimum of cost to all concerned.

Increase of United States credit facilities for Latin America.

CONSTITUTION READ

The proposed constitution of the permanent Pan-American Institute of Reciprocal Trade was read to enable the delegates to consider it before it is brought before tomorrow's general conference for final determination.

A point of special interest to Los Angeles in this draft is that the governing council suggested for the permanent institute shall "determine the city in the State of California which shall be the seat of the institute's general offices." Some of the delegates, speaking outside the conference, have expressed the opinion that Los Angeles by reason of its location and close contact with Latin America is the logical place for these headquarters.

Roads, including Pan-American highways; education involving an exchange of professors and students; tourist travel; arbitration of commercial disagreements, communications by ship, airplane, cable and wireless; and the subject of the compilation and exchange of commercial intelligence, were topics considered by the final round-table conferences today.

DEAD RECLUSE UNMASKED

Nebraska Man of Mystery Declared by Los Angeles Kin to Have Been Escaped Murderer

ST. JOSEPH (Mo.) Aug. 29. (AP)—A Nebraska recluse, who died three years ago, was identified today as Columbus Hayes, who escaped jail and hanging for the murder of his brother-in-law in a dispute over a woman here in 1892.

R. E. Culver, St. Joseph attorney, who was prosecuting attorney here in 1892, viewed photographs of Frank Johnson, aged farmer who died in 1927 near Superior, Neb., leaving a $20,000 estate, and declared Johnson and Hayes were identical.

The investigation developed after Mrs. Alice Parish of Los Angeles visited Superior recently, saying she was a niece of Johnson and that he was the long-sought murderer.

Mrs. Parish exhibited pictures of Hayes which were readily identified by old-timers about Superior as likenesses of the recluse they knew as Johnson. She said relatives had decided to reveal his true identity in an effort to acquire the estate.

In and near Superior, Hayes's desire to live apart from his neighbors was a mystery. Some hinted he had been disappointed in love. The old man offered no denial or explanation. He was known as a good farmer, shrewd business man who lived in comfort but not extravagance. He went to live near Superior in the middle of the 90's, soon after Hayes's second escape from jail while awaiting execution of the second death sentence passed upon him.

F. H. Stubbs of Superior, administrator of the Johnson estate, conferred with Culver today and the two went to Savannah to inspect court records in an unsuccessful attempt to compare the signatures of Johnson and Hayes.

Culver recalled he was opposed in prosecuting Hayes by Willard P. Hall, former Governor of Missouri, and Ben Woodson, brother of a former Governor, defense counsel.

The former prosecutor described Hayes as a vicious defendant and prisoner. Hayes first escaped jail in 1892 but was captured three years later, while managing, incognito, a large ranch near Columbus, Kan. He was returned and sentenced to death again, the date set for the first execution having passed. Then he fled jail again.

After retiring as prosecutor, Culver once met Hayes near Apola, Kan., and the fugitive moved as though to draw a gun. Culver explained hastily he had no power to arrest, whereupon Hayes mounted a horse, directing Culver to remain until he was out of sight. Culver subsequently notified officials but Hayes never was captured.

TEXAN USES DYNAMITE IN JAIL SUICIDE

Lawyer Charged with Murdering Wife in Blast Blows Self Up in Cell

AMARILLO (Tex.) Aug. 29. (AP)—A. D. Payne, Amarillo attorney held here awaiting trial on a charge of having dynamited his family car, killing his wife, last June 12, tonight killed himself in his cell at the Potter County Jail here, apparently with a blast of dynamite.

Sheriff W. N. Thompson and the jailer rushed to the cell after hearing the blast and found Payne's mutilated body. His bed had been set afire. How he procured the dynamite they did not learn.

The noise of the explosion was heard several blocks away from the jail.

The grand jury had returned an indictment against him at noon today, charging murder in connection with his wife's death. His son, A. D., Jr., 11 years of age, was crippled by the explosion which demolished the automobile and killed his mother as they were driving from their home toward town, June 12.

Two of Payne's children, Labell, 14, and the boy, A. D., Jr., visited him in the jail this afternoon and J. W. Graves, the jailer, said Payne collapsed when the children were separated from him.

The attorney made a lengthy confession several weeks ago, admitting the bombing plot against the life of his wife and son, and pleaded that he be given the death penalty as soon as possible.

NORTHCOTT YELLS HE'S POISONED

But Prison Officers Say It's Just Publicity Bid as He Goes to Hospital

SAN QUENTIN PRISON, Aug. 29. (AP)—Gordon Stewart Northcott, Wineville chicken ranch slayer, made what prison officials believed to be a play for publicity today when he screamed from his condemned cell that he had taken poison.

Northcott, condemned to be hanged October 2, was taken to the hospital and a stomach pump applied. Northcott told Dr. L. L. Stanley, prison physician, he had taken poison smuggled into the prison intended for another condemned man.

Dr. Stanley said no trace of poison was found in Northcott's stomach and added he believes the youthful slayer perpetrated a hoax to pass the time.

Department Heads Asked to Line Up Projects

Reports Show Season's Fire Losses $256,375

SACRAMENTO, Aug. 29. (Exclusive)—Directors of the thirteen State departments were requested by Gov. Young at today's session of the Governor's Council to begin at once the preparation of legislation affecting governmental functions.

Gov. Young declared he is anxious to have before him within the next two months a complete program of legislative suggestions so he may present them to James Rolph, Jr., Republican gubernatorial nominee.

"I believe," said the Governor, "that suggestions for administrative changes can be made by the department heads that should prove of value to the new administration. However, before submitting the proposals to the Legislature, I should desire to have the new Governor pass upon them."

SEASON'S FIRES

Forest, brush, grain and grass fires that have occurred this season in territory protected by State rangers totaling 1127 on the 20th inst., burned over 86,570 acres and caused a loss of $256,375, Fred G. Stevenot, State Director of Natural Resources, informed the council.

The losses were classified as follows: Timber, $1118; range, $42,125; hay and grain, $68,079; improvements, $92,335, and watersheds, $52,691.

Stevenot also reported that 19,820,531 trout fry and salmon have been planted in California streams during the 1930 season, and that 21,187,312 fish and eggs were on hand at the hatcheries on the 1st inst.

The code of essential purposes in California public schools was given the council by Vierling Kersey, Superintendent of Public Instruction, as follows:

BANK DEPOSITS

Developed character, attained academic minimums, the urge to accomplish, social adequacy, vocational equipment and mastery of physical well being.

Will C. Wood, State Bank Superintendent and director of investment, informed the council there is evidence of a better tone in business and a more optimistic feeling among business men generally.

During August, he said, bank deposits, particularly of savings banks, continued their upward trend. Building and loan assets have increased $12,113,000, making the grand total $513,102,000. Wood also reported that the general tone of the real-estate business is hopeful.

OFFICIALS SHOT BY INDIA REBELS

Gandhi Followers Abandon Nonviolence Precept

British Police Heads Fall to Rain of Bullets

Events in Bengal Working Up to Catastrophe

(Copyright, 1930, by Chicago Tribune.)

BOMBAY, Aug. 29. (Exclusive)—Bengal revolutionaries, impatient with the results of the nonviolence campaign, drew revolvers and fired on F. J. Lowman, inspector-general of the Bengal police, and Eric Hodson, superintendent of the Dacca police, at Dacca today, seriously wounding both.

The condition of the officials is critical and a special airplane left Calcutta with a surgeon and nurse to tend them. It is hoped an operation will save the men's lives.

FOURTH OUTRAGE

Today's shooting marked the fourth outrage in Bengal this week, a bomb attempt against Sir Charles Tegart, Commissioner of the Calcutta police, failing on Monday. Bombs were thrown in police stations Tuesday and Wednesday, injuring six and killing one.

The spirit of defiance which has swept the country following the government's wholesale arrest and imprisonment of the entire congress working committee on Wednesday is scheduled to come to a head here Sunday when the revolutionaries boast that 100,000 "patriots" will gather in the Esplanade Maidan, the town square, in violation of a police order forbidding them to do so.

WOULD TEMPORIZE

Both British moderate and Indian newspapers tonight appealed to both sides to compromise in order to avert bloodshed. F. W. Wilson, an Englishman, editor of the moderate India Daily Mail, appealed to the Bombay Governor, Sir Frederick Sykes, to come from the summer capital at Poona and settle the disturbance himself, predicting that "the hospitals will again be filled with cracked skulls and broken limbs." Great Britain, he says, "cannot go on alienating a whole people merely to satisfy its pride."

FRONTIER TRIBESMEN AGAIN THREATENING

PESHAWAR (India) Aug. 29. (AP) Fresh activities of threatening nature by tribesmen along the northwestern frontier caused authorities to take new measures of precaution today.

Reports that a hostile force had collected in the Khost district led to the strengthening of a frontier constabulary post there and the distribution of extra rifles for the defense of villages.

In the Kurram area, which has been menaced several weeks, bands of tribesmen have pushed forward and occupied the heights along both sides of the Kurram River, opposite Karlachi.

A force of Khostwalis estimated at 5000 is concentrated in Khost villages seven miles west of Lakha Tioca post.

POSTAL LEASE QUIZ PUSHED

Two Professional Bidders Already Uncovered

Pair Awarded Contracts for About $2,000,000

Senate Committee Hearings Due to Start Soon

WASHINGTON, Aug. 29. (AP)—Preliminary investigation of the government's annual rent bill for leased postoffice stations has disclosed that two professional bidders each held leases totaling about $1,000,000.

Special investigators for the Senate committee named to look into the 6000 leases that last year cost the government more than $17,000,000 have made sufficient analysis of records to enable the Senate committee to begin open hearings whenever it chooses.

INDEPENDENT QUIZ

It is expected the committee—or its chairman, Senator Blaine of Wisconsin, as a subcommittee of one—will start the public investigation early in September.

Meanwhile, it was learned today the Postoffice Department has instituted an independent inquiry into the value of all postoffice stations rented for $6000 or more a year. Postmaster-General Brown in a recent radio address said he would recommend government ownership of such structures.

The two large professional bidders referred to are Jacob Kulp, head of Postoffice, Inc., with offices in Chicago, and Raymond Brown, with headquarters in Indianapolis.

CAUSE OF INQUIRY

Investigators were put to work by the Senate committee last spring following disclosure that an item of $120,000 a year for a St. Paul station covered rent on a building valued at about $300,000.

The committee investigators have made a detailed analysis of some 500 major postoffice leases, including the estimated valuations of the buildings.

One of the first lines of inquiry to be pursued by the Senate committee will be to determine how professional bidding companies financed their operations. Names of prominent individuals are mentioned in the data collected for the committee, but the documents do not show how the companies were financed. The committee will hold extended hearings on leases of buildings in New York, Chicago, Detroit, Los Angeles, San Francisco, Dallas and St. Paul.

VIEWS DIFFER ON RAIL BILL

Leaders in Conflict on Plan of Howell Proposal

Excess Earnings Recapture Clause Assailed

Some Features Favored by Chamber of Commerce

WASHINGTON, Aug. 29. (AP)—Conflicting views of the Howell bill to amend the Transportation Act, submitted by the United States Chamber of Commerce, railroad executives and others, were made public today by the Senate Interstate Commerce Committee.

Ben R. Cain asserted on behalf of the American Short Lines Railroad Association that the Howell proposal for altering the recapture of the excess earnings clause of the act "in its final analysis would seem to open the door to government ownership."

Donald R. Richberg, speaking for the national counsel on valuation of American railroads, said fear of the bill's opening the way to government ownership "seems unwarranted."

BILL'S PROVISIONS

The bill by Senator Howell, Republican, Nebraska, would provide recapture by the government of half the railroads' earnings above 5 per cent, with investment of these funds under a "public investment" account. The measure also would provide for establishment of group rate-bases, distinct from the valuation of roads which is now in progress through the Interstate Commerce Commission.

Chairman Couzens of the Senate committee requested opinions on the bill in anticipation of an extended hearing early this fall.

The United States Chamber of Commerce favored some features of the bill.

"In so far as the provision (for the public investment account) is determined to involve government ownership in the railroad field," the chamber said, however, "it would seem that the membership in our organization, which have repeatedly expressed their opposition to government ownership as well as government operation of railroads, as not in the true public interest, would undoubtedly want the fullest opportunity for presentation of their views in opposition."

OTHER VIEWS

Alfred Thom, president of the National Association of Railway Executives, said the proposed "rate bases" would have a "constitutional weakness." He added that "so long as it is the policy of Congress to authorize the recapture of what are termed excess earnings, it will be necessary that true value be known."

The National Association of Owners of Railroads and Public Utility Securities said the bill seems to be "undertaking to avoid the effect of the Supreme Court decision," in the St. Louis and O'Fallon case.

The National Industrial Traffic League, comprised of shippers, said the bill "would not result in clearing the atmosphere or abating the uncertainties which confront business and shippers today."

Hull Assails G.O.P. Report

WASHINGTON, Aug. 29. (AP)—Representative Hull, Democrat, Tennessee, replied today to the Republican National Committee's comparison of its party platform with administration actions by asserting the statement erroneously magnified a mass of minor acts and routine matters into "so-called Hoover accomplishments."

"Prosperity alone has been, until now, the paramount political preachment of Republican administrations," Hull said, in a statement issued through the Democratic National Committee. He added, "It cannot be a coincidence that in the parallel columns just issued there is no mention of that section which introduced the Kansas City platform."

HIGHER RANK CONFERRED ON MOSELEY

Veteran Army Officer Raised to Major-General; Colonels Promoted

WASHINGTON, Aug. 29. (Exclusive)—Brig.-Gen. George Van Horn Moseley, a veteran of the Philippine insurrection and the World War, was promoted to the rank of major-general in army orders issued today. At the present time he is serving as executive in the office of Assistant Secretary of War Frederick H. Payne. He has had thirty-one years of commissioned experience.

Maj.-Gen. Moseley carries two American and several foreign decorations. He was given the Distinguished Service Cross for his services as assistant chief of staff of the supply department in the A.E.F. during the World War and an oak leaf cluster for his "initiative prompt and forceful action" in restoring peace and quiet along the Mexican border during the 1929 Mexican revolution. On that occasion Maj.-Gen. Moseley negotiated between rival Mexican commanders and arranged for the withdrawal of one of the belligerent groups after a strong force of revolutionists had attempted to attack an inferior Federal force at El Paso, Tex., and Juarez, Mex.

Three colonels were raised to the rank of brigadier-generals today. They are Manus McCloskey of Pittsburgh; Herbert J. Brees of Laramie, Wyo., and James K. Parsons, Rockford, Ala. Gen. Parsons was assigned to command the Ninth Coast Artillery District at San Francisco.

Estate Valued Dustin Farnum's at Only $10,000

NEW YORK, Aug. 29. (Exclusive) Broadwayites who remember the late Dustin Farnum, the two-fisted film and stage hero of the last decade, were amazed today when the probate of the actor's will at Bucksport, Me., disclosed the information that his fortune had unaccountably dwindled from an estimated $500,000 to a small estate in Maine, valued at $10,000. The sole beneficiary named is his widow, Winifred Kingston, motion-picture actress, of Hollywood, according to her attorney, Meyer Kurz of New York City.

Farnum died July 3, 1929.

STATE TO OPEN ITS FAIR TODAY

Nine-Day Exposition will Get Under Way in Capital

Thirty Pioneers of '49 will be Guests of Honor

Many New Exhibits in Place for Public Inspection

SACRAMENTO, Aug. 29. (Exclusive)—Equipped with extensive new construction and larger exhibits than ever before in its history, the California State Fair is in spick-and-span order for the opening of its gates tomorrow. The nine-day exposition this year is dedicated to "eighty years of western progress," for it was four-score years ago that California was admitted to the Union of States and the fair this time is essentially designed to present a vivid cross-section of California achievement in that period of remarkable development. A feature is to be the attendance as honor guests on the final day of the fair of thirty Californians who were in the State in 1849, the venerable pioneers ranging from 81 to 91 years of age.

Along with the fair's educational and cultural phases, a program of entertainment, including a horse show and polo games, has been arranged.

SCOPE WIDENED

The extensive character of the exposition is indicated by the announcement that the entire Southland is represented with large displays, including for the first time an exhibit from the Los Angeles county schools, while New Mexico, Utah and Oregon and a number of Latin-American countries have exhibits. An additional international flavor is imparted by the fact that the first day is Pan-America Day in honor of the Pan-American Reciprocal Trade Conference delegates who have been meeting here during the last week and who are to be special State fair guests today and on subsequent occasions.

The dedication of a new livestock building housing one of the most complete displays ever prepared in the State, will be an outstanding feature of the opening day. This structure, costing about $160,000 and covering four acres, is the first unit of a building ultimately to be erected representing an approximate cost of $500,000 and occupying from ten to twelve acres.

HORSE SHOW SLATED

Southern California is to be well represented in the horse show that will be given each night. A five-eighths-mile steeplechase track on which four steeplechase events will take place, has been completed within the mile track on which a daily racing program will be offered. The new steeplechase track bounds the polo field on which three polo games will be played by the San Mateo and Sacramento teams. The racing programs aggregate $34,000, the horse show purses total $23,000 and the agriculture and horticulture awards amount to $68,000, in addition to which trophies are to be awarded.

Special attention has been paid this year to encouraging the efforts of the younger generation of California agriculturists. During several days of the fair, honor students chosen from the "Future Farmers of America," which is sponsored by the State Department of Education and comprises high school students throughout the State, will occupy a completely equipped camp at the fair grounds as a reward of merit. As a stimulus to their efforts and a test of their ability they will have opportunity to judge various exhibits in which they are interested and their judgments will be checked against those of the official judges.

OTHERS TO BE GUESTS

A thousand members of the Four-H Agricultural Clubs, comprising university students, likewise are scheduled to be guests at the fair for one day. Since last May, 200 members of these clubs have been fattening hogs for exhibition at the fair.

The fact that the attendance at the State Fair increased from 150,000 during the eight-day fair five years ago to 430,000 in the eleven-day fair last year is taken to presage a record-breaking attendance this time. Five years ago, thirty California counties were represented and this year there are fifty-two. The fair occupies 130 acres and has twelve large, permanent exposition buildings, including a machinery-exhibit structure covering four acres.

LAW BACKS TRANSFER IN BABY CASE

Judge Advises Parents on Rearing of Infants Considered Shuffled

CHICAGO, Aug. 29. (AP) — The Watkins-Bamberger baby case was formally and officially adjudicated today when Judge Sabath in Superior Court sustained a writ of habeas corpus ordering the baby held by the Charles Bambergers to be returned to the William Watkinses. The transfer of babies already has been made by agreement between the two families, Judge Sabath's action today being the law's final action in the case.

It has been the contention of both families that their infants were switched at the hospital where both were born. Last week the two families reached an agreement and each surrendered to the other the infant in its care. Today's action, in effect, sustains the transfer.

In sustaining the writ, which was petitioned for by William Watkins, Judge Sabath suggested that the parents of the two babies bring them up "like brothers." He suggested, too, the parents should take a hand in the education of both children.

TICKS LICK SPOTTED FEVER

American Medical Association Awards Gold Medal to Federal Physician Who Found Serum

WASHINGTON, Aug. 29. (AP)—By developing a vaccine which he terms "tick-juice," Dr. R. R. Spencer of the United States Public Health Service, this year has saved 6000 persons from the deadly Rocky Mountain spotted fever—and won the gold medal of the American Medical Association.

His medal thus signifies the saving, not of one life, but of thousands already and myriads in years to come. In one locality public health records show deaths of 85 per cent of the adults contracting the disease in the past twelve years.

"I suppose the reason I got the medal is that it's the only vaccine in the world made of insects—ground-up ticks," Dr. Spencer said today. "Knowing that ticks carried it, I figured that with ticks I could inoculate against it. I tried it on guinea pigs and it didn't kill them, so I tried it on myself and it worked.

"In 1924 I was the first and only one to take it. In 1925, thirty-four brave souls volunteered. In 1926 without any urging the number was 600. Last year it was 6000—using all the vaccine we could make in our Public Health Service laboratory at Hamilton, Mont."

Spencer explained that his really valuable discovery was the hibernating habits of tick and virus concerned in the spread of spotted fever.

When winter winds sweep the sheep-herding sections of Montana, Wyoming and Idaho, Spencer explained, the ticks on sheep and wild animals become quiescent. The virus within the tick also hibernates, he said.

Only through a duplication of this hibernation could an efficacious vaccine be developed, he discovered.

"After allowing the ticks to feed on infected animals, we put them into a refrigerator to hibernate," he explained. "When taken out, they have no effect. But let a tick take one drop of blood from a host—and enough poison develops in that one tick to kill a thousand guinea pigs."

No commercial concern would attempt the manufacture of so expensive and difficult a product as vaccine from post-hibernated ticks, Spencer said, and the Public Health Service therefore has a monopoly.

But no charge is made for vaccination materials—since those who suffer are for the most part persons of small financial means, and the Federal government is anxious to stamp out the plague.

Greater service to a greater Southern California

Nearly finished! The remodelled and enlarged Telephone Building at 740 South Olive Street. Soon the builders with their hammers and their rivets will be gone. A brand new structure has risen beside the old; and the whole has been raised to limit height. Guided by the modern school of American architecture, a strong, straight-line building stands forth that not only is keyed to the architectural distinctiveness of the city, but symbolizes the Bell System's traditions of civic usefulness.

Inside you will find a new business office that is as different from the old as is the building's exterior appearance. When you come in to discuss any matter in connection with your service you will be conducted to a chair beside the individual desk of a representative of the company, whose business it is to make your errand pleasant and satisfactory.

We want you to see the new telephone office, and we want you to discuss any telephone problem with us. There may be many new service developments that we have not told you about. As the altered, enlarged structure typifies our greater service to the community, we want the new interior accommodations to represent a more personalized service to you.

Youthful Twirler Lets Down Sheiks with Six Hits

Missions Glean All Runs on Jim Turner's Offerings

Visitors Sew Up Fracas in Sixth Inning of Contest

BY BOB RAY

[illegible] 'Red' Killefer's Mission Reds handed the league-leading Hollywood Stars an 8-to-3 setback at Wrigley Field last night, Jack Knott, one of the Hermosa Hermit's youthful right-handers, letting the Sheiks down with six hits. The victory for the Reds evened up the series, but Oscar Vitt's Stars retained their two and one-half-game lead over the Angels.

JIM TURNER.

Knott, whom the Missions recently recalled from the Southern Association, showed a fast, hard one, a deceptive curve, and a cross-fire delivery that had the Stars baffled in all but the sixth inning when they bunched three hits with a walk for their three runs. Knott sent seven of the Vittmen back to the bench on strikes.

Jim Turner, Skipper Vitt's prize hurling ace, started on the mound for Hollywood, but was ineffective, and his mates made his efforts appear worse by giving him ragged support. After toiling six innings, during which the Reds scored all eight of their runs, Turner retired and Vance Page finished the twirling duties for the home tribe.

About 6000 fans attended the contest.

The Reds sewed up the struggle with a five-run splurge in the sixth inning, two errors by Harry Green giving the visitors a flying start in this round. Hill and Carlyle also helped the Mission cause by colliding while after an easy fly.

George Burns started the scoring in the second inning when, with one away, he pounded one of Turner's fast balls into the center-field bleachers for the circuit.

The Missions worked a double steal to score another run in the fourth inning. With one away Monroe singled to right, and Hufft followed with a safety to left. Monroe attempted to go to third on

BROOKLINE (Mass.) Aug. 29. (AP)—Betty Nuthall's hope of duplicating the 1924 and 1928 clean sweeps made by Mrs. Helen Wills Moody in the three most important tennis championships open to women, was shattered by the hard-driving rackets of Marjorie Morrill, Dedham, and Frank Shields, New York, in one of the semi-finals of the mixed doubles title play today at Longwood.

BETTY NUTHALL.

The British girl became the American women's singles champion and coholder of doubles title last Sunday at Forest Hills, N. Y., in Mrs. Moody's absence. She teamed in the present tourney with George Lott of Chicago, for the defense of the mixed title they won here last year. They galloped through the lower half of the draw without serious opposition until today, when they were outplayed widely by Miss Morrill and Shields, who won in straight sets, 6-3, 6-4.

EDITH CROSS WINS

The other mixed finalists were Edith Cross of San Francisco and Wilmer Allison, Austin, Tex. They entered the championship round by defeating Mrs. J. Dallas Corbiere, Southboro, and Fritz Mercur, Bethlehem, Pa., 6-3, 6-4. The Californian-Texan combination dominated the match from the first game.

Notre Dame comes to Franklin Field this year for the first gridiron meeting in history with Penn, and the Red and Blue returns the visit on the corresponding Saturday next fall.

By the new agreement, Notre Dame will again visit Franklin Field November 5, 1932, and on November 4, 1933, Pennsylvania goes to South Bend.

KANSAS CITY, Aug. 29. (AP)—Mrs. O. S. Hill, Kansas City, defending champion in the women's western golf tournament, was eliminated from the twenty-eighth annual tournament today by Miss Dorothy Page, Madison, Wis., but the 36-hole final tomorrow still finds two former western champions competing.

MRS. GREGG LIFUR.

Miss Page, champion in 1927, will meet Mrs. G. W. Tyson, Kansas City winner in 1923 and national champion in 1927. Miss Page defeated Mrs. Hill one up on the eighteenth green while Mrs. Tyson turned back the 1929 runner-up, Mrs. Gregg Lifur, Los Angeles, 3 and 2.

Whereas Mrs. Tyson held the advantage at the turn and at no time throughout the match was behind, Miss Page came from behind to take the lead and then played doggedly to stave off a last-hole rally of the Kansas City woman.

At the end of nine holes Mrs. Hill was 2 up.

Mrs. Tyson encountered trouble on the eighth and ninth and made the turn only 1 up over Mrs. Lifur despite a three-hole advantage at the end of five. The former national champion then won the tenth, eleventh and twelfth holes to go 4 up again and apparently

CAVENEY, CROSETTI HIT SERAPHS HARD TO GIVE SEALS 6-TO-4 VICTORY

SAN FRANCISCO, Aug. 29. (Exclusive)—Curtis Davis got a lot of help from Jim Caveney and Frank Crosetti today and the Seals beat Los Angeles, 6 to 4, thus making the series all square to date. Crosetti got three doubles and a single and scored three of the six runs made by the Seals.

FRANK CROSETTI.

Jim Caveney got a home run and a double and his work on defense took quite a load off Davis's shoulders.

Caveney threw Jacobs out at the plate in the eighth inning when that surprised young man did not think there was a chance to make a play on him, and he also scooted over to second base and took a hit away from Sigafoos in the ninth. The veteran handled ten chances without a skip and some of them were tough ones.

The Angels got a lead early in the game but could not hold it. With one man out in the first inning, Harper got a pass and took second while Haney was being tossed out by Caveney. Schulmerich singled infield, Crosetti knocking the ball down but failing to make a play and Harper scooted from second base.

The Seals got a run in their half of the inning on a double by Crosetti and a single by Sheely, both hits being made after two were out.

Ray Jacobs hit a home run into the bleachers in the second and the

RABBIT PUNCHES

BY PAUL LOWRY

THE CRIPPLE RACE

THERE seems to be some sort of a race between the leading Coast League clubs for the cripple record.

Hollywood, Los Angeles and San Francisco can each claim a list of injured that reads more like a football roll call than baseball.

This is bound to have a bearing on the battle for positions in the second half of the split season, and it will not be surprising if some of the lowlier clubs rise to more exalted spots at the expense of the current first-division outfits.

Take a look at the casualties

Hollywood—Rumler out with a broken bone in his ankle, Heath a blind boil on his arm and Jesse Hill, sensational outfielder, scheduled to leave September 14 to take up coaching duties at Riverside.

Los Angeles—Dittmar suffering from a sprained back in an automobile collision, Moore from a collision with Dittmar previous to the automobile incident, and Sigafoos on the shelf from other causes.

San Francisco—Absalom (Red) Wingo on the sidelines with a fractured skull from a pitched ball, Sheely with a bum thumb, Donovan and Miljus ailing wrists.

WHITHER HEADED?

JUST where is this pee-wee golf game headed?

In one fell swoop, almost, it has jumped from the dinky-league classification into the realms of high finance—the major leagues, as it were.

When it started here early last spring a "coupla thou" sufficed for a layout that satisfied the trade.

All you hear now is talk of $50,000 and $100,000 courses. Caliente is to cost $140,000, I am told.

Tonight they open one in Glendale that is said to have cost $75,000. It is close to the artery that takes me home, near the intersection of Central and Los Felis boulevards.

The place has been teeming with action every night—double shifts on duty—men hopping here and there like fleas. I think they call it the Mission Greens. Across the street another expensive proposition is rearing its head. It looks just as costly, but its projectors are sparing the nights—and probably the ultimate cost.

The same situation exists all over the city. When one course springs up in a good location another pops up across the street—and down the street.

Plainly, it will be a survival of the fittest.

GETTING THE JUMP

IN case you have forgotten, the Mrs. G. W. Tyson, who defeated our Mrs. Gregg Lifur in the semifinals of the ladies' western golf championship yesterday, is the former Miriam Burns Horn.

She is not exactly what you might call a dark horse, having been a former national champion, dropping from the limelight a couple of years after her marriage.

Mrs. Lifur made the grievous mistake of losing three holes in the first five to Mrs. Tyson, and although the local lady made a game effort to retrieve them she was eventually beaten by that early margin, 3 and 2.

It only goes to prove that in eighteen holes or thirty-six it is a sad error to waste time getting warmed up. At Pebble Beach last year Bobby Jones lost the first three holes to Johnny Goodman, and never could overcome the deficit in eighteen holes. Mrs. Lifur had thirty-six holes in which to make the trial, but also failed.

A REAL SHOT

HAIL to Jim Davis, deputy Chief of Police, and former Chief of Police of this city, who won the Hardy left and right-hand pistol shoot for peace officers at the national shoot at Camp Perry.

The A. P. dispatches called our erstwhile Chief just a Los Angeles policeman, but he's that kind. He never tried to put it on for the boys, although for a long time he's been the best shot in the local police department.

And he was one of the best chiefs the city ever had.

COHN, LYNCH IN FINALS

California Rivals Play for Atlantic Coast Crown in Ocean City Tournament Today

OCEAN CITY (N. J.) Aug. 29. (AP)—Jay Cohn and Jack Lynch of California today earned the right to play for the Atlantic Coast boys' singles tennis championship by smothering their semifinal opponents.

Cohn, national boys' singles champion, encountered Al Schmidheiser of Elkins Park, in the first semifinal and swept through the latter to the tune of 6-0, 6-0.

JAY COHN

Lynch, who, with Cohn, captured the boys' national doubles title, disposed of little Donald Hutcheson of Orlando, Fla., with the loss of but one game, the scores being 6-0, 6-1.

Both these youths are in the semifinals of the juniors' singles in which Cohn will face Leonard Morrison of Washington, D. C., while Lynch will engage Billy Jacobs of Baltimore.

ROBERT MOORE COPS JUNIOR CUE CROWN

CHICAGO, Aug. 29. (AP)—Robert Moore of Grand Rapids, Mich., tonight won the first annual national junior pocket billiards championship tournament by taking the final block of their 450-point match from Charles Cacciapaglia of Rockford, Ill.

The 13-year-old Grand Rapids player defeated Cacciapaglia, 74 to 51, in the night block, which required sixteen innings, after taking the afternoon meeting, 71 to 59 in nineteen innings. Moore's total was 450, to 311 for the 12-year-older from Rockford.

NEW YORK, Aug. 29. (AP)—The Giant came from behind in the late innings to recapture second place from the Brooklyn Robins today with a 3-to-2 victory which broke their losing streak of five games.

Howard Jones Plans Many Experimental Changes in 1930 Southern California Te

HIFTS IN PAST ARE RECALLED

y Brown Looks Good for Tackle Post

ach Undecided as to How to Use Pinckert

arling May be Moved to Halfback Berth

Vith only a little more than two ths intervening before football ctice opens at the University of Southern California, Trojan followers are busy speculating as to possible shifts that Coach Howard Jones may make in the positions of his men during his rebuilding of the S. C. eleven.

ERNY PINCKERT

With only three regulars returned from last year's first team and with the ranks of reves likewise heavily depleted rough graduation, Coach Jones expected to shift a number of candidates around in order to e his squad proper balance.

The Trojan mentor is famous er his success in changing men o new positions, among the shifted players in the past who became stars in new positions ing Russ Saunders, moved om left-half to fullback and hen to quarterback; Mort Kaer, moved from half to quarter; Bart Heiser, moved from half-ack to running guard; Nate Barragar, from fullback to enter and then to running uard, and Al Behrendt, moved om tackle to end.

One of the changes considered tain for this fall is the moving Tay Brown, freshman right end, right tackle. Brown, a 200-pound y, failed to show the speed necary for an end in spring prac, but Coach Jones found him ll suited for tackle, a position ere new men are sorely needed five-letter winners of last year ve been lost.

Erny Pinckert, right halfback r, may be shifted to quarterback his position may be made interangeable with that of the quar, as it is known that Coach Jones uld like to have this hard-hitting, eedy young man carrying the ball tener than he did last season ile in a job consisting mostly of nning interference.

f Jim Stewart, Trojan track ace o won the N.C.A.A. high-jump ampionship last spring, reports football this fall, Coach Jones l try him out at left end, the t held down by All-American ancis Tappaan last year. Should ewart make good here as an unrstudy for Ralph Wilcox, Coach nes may shift Ray Sparling, frosh t end last season, to the left lfback position. Sparling is a gged boy of 175 pounds, and ach Jones believes that he could ke godo at this interference-rung position and add to his backld worth through his kicking ility.

With Don Moses of last year's varsity squad and Gene Ridings of the fresh not returning to the university this fall, two good fullback prospects are lost to Coach Jones. Jim Musick and Galen Shaver are good candidates here, but strong third and fourth men are required in this position as fullbacks who are used for the heavy work of line-plunging are frequently injured and the place calls for plenty of reserve strength. With Moses and Ridings out, it is expected that important shifts will be made by Coach Jones to strengthen this position, but no intimation has as yet been given out by Troy's mentor as to what he will do about this situation.

Considering the numerous probms that Southern California's ach faces in rebuilding the Tron machine, fans may expect to e an eleven that except in one or o positions will be entirely differt from the line-up of last year.

Marshall did not reveal this new style of wrestling until he went through a fast forty-five-minute workout at the Commercial Club yesterday afternoon against a powerful 235-pounder, who believed he could beat many of the heavyweights in this section. He displayed a viciousness throughout the workout that he had shown only on rare occasions in matches at the Olympic. He looked more spectacular and more the snarling grappler in yesterday's workout than he had in any local bout.

Jack Knott Baffles Hollywood Players; Turner's Offerings Turned into Runs by Missions

(Continued from Fifth Page)

"Fuzzy's" hit, but Hill made a perfect throw to Lee to retire the Mission second-sacker. Hufft went to second on the play, and then advanced to third on a wild pitch. Burns walked. While Turner was standing on the mound, Burns made a break for second, and Turner wheeled, and threw to Lee, too late to head him off. In the meantime, Hufft had started for home, and slid safely over the plate before Lee could get the ball to Bassler. Rosenberg popped to Lee for the third out.

In the fifth inning the Reds picked up a third run when Kelly tripled down the right-field line, and, after Brenzel had fanned, scored on Knott's single over second.

The Missions put over five more runs in the sixth to take an 8-0 lead. Two errors by Harry Green started the Reds on their rally. The inning opened with Rodda reaching second when Green let Gazella's throw bounce off his glove into the dugout. Monroe hit one down to the Sheik first-sacker, who let the ball roll through his legs, Rodda scoring. Hufft singled to center. Burns got a single, when Hill and Carlyle collided while after his easy fly, filling the bases. Rosenberg's single to right center brought Monroe and Hufft across the plate, and sent Burns to third. On a wild pitch, Burns scored, and Rosenberg took second. After Kelly had walked, Brenzel sacrificed, Turner to Green. Rosenberg came across with the fifth run of the inning, while Lee was throwing out Knott. Mulligan ended the uprising with a foul fly to Bassler.

The Stars came out of their lethargy in the home half of the sixth, and bunched three hits off Knott for a trio of tallies. Turner began the round with a double to left-center. After Hill had gone out, Lee walked, and both runners scored on Brannan's double down the left-field line. Barbee fanned, but Carlyle punched a single to right to send Brannan over the rubber.

Turner retired at the end of the sixth inning, and Page, the other Piedmont twin, blanked the Reds in the seventh.

The Reds got a couple of hits off Page in the eighth but were unable to do any more scoring. With one away, Kelly singled, but was caught stealing. Brenzel then hit safely, and Knott fanned to end the round. Score:

Meyers's best showing came in the third session, when he connected with a left and a right to Pirrone's jaw, that had the newcomer wobbly.

The card was over at 9:25, thereby fooling quite a number of fans who generally show up at 9:45 to take in the main event.

Tommy McGough won on a technical knockout over Sammy Seamon in the second round of the semi-wind-up. McGough opened a bad cut over Seamon's right eye and after Referee Frank Holborow examined the injury the bout was stopped.

In the special event Jimmy Mack landed a hefty wallop to Mickey Romo's chin, and Mr. Romo went flat on his back, from where he was counted out.

Gene Mullen stopped Ora Smith in the second round. Holborow halted the affair after Smith had taken a nine count in that session.

Pat O'Hanihan knocked out Bill Moore in the first round of the curtain-raiser.

Leese Annexes Trotting Prize

GOSHEN (N. Y.) Aug. 29. (AP)—Myra Guy, owned by W. J. McDonald of Boston, and driven by William Leese, beat a field of seven in the classified trot event of the Grand Circuit card here today, but four heats were necessary. Bither, owned by Harry Stokes, won the first heat, Leese's mare the second and Early Pitman came on with Miss Neva to win the third heat due to a break by Leese's mare.

In the deciding heat the three raced it out, Leese getting the decision in a thrilling finish.

I. C. Fleming had no difficulty disposing of the field of four pacers with the Royal Lady in the classified pace. He scored a second victory with Capt. Andy in the pacing-colt event.

Most stables of Grand Circuit horses were shipped to Syracuse tonight for next week's meeting.

BRYAN WINS

Ed Bryan appears to be back in his old-time winning form once more. Bryan chalked up his fifth straight win for Sacramento this week, giving him seven wins out of the last eight starts. Bryan now has a season record of fifteen victories and eight defeats.

Big Six

By the Associated Press

With the American League's representatives in the Big Six having another day of rest, Chuck Klein had a chance to display his batting wares and did it to better advantage than his two rivals Billy Terry and Babe Herman.

Klein clouted four hits in six times at bat and lifted his average 3 points to the .390 mark, 3 points behind Al Simmons and four ahead of Herman, whose average remained unchanged at .386 as he made one hit in two official trips to the plate. Bill Terry lost 2 points from his first-place average, dropping to .402 as he went to bat three times and failed to get a hit.

The standings:

GOSLIN RETAINS STATE CUE CHAMPIONSHIP

D. H. Goslin retained his State championship in the 18.2 balkline billiard class last night by winning the fifth and final block of 1000 in his match with Joe Chamaco at Steven's Billiard Palace.

Goslin tallied 200 points last night to Chamaco's 152, the final count on the block being Goslin, 1000, and Chamaco, 885.

MAY CHANGE GENARO DATE

New York Battler May Perform at Olympic Week Later than Original Scheduled Show

Frankie Genaro is now being sought to box Newsboy Brown on September 16, a week later than he was originally scheduled to show here. The Olympic is trying to force the New York Italian to go through with the agreement with aid of both the California and New York commissions.

Matchmaker Wad Wadhams may put in an entire new card for the September 9 show, the one which Genaro mixed up. Genaro couldn't get here in time now if the eastern ring body acted favorably on the Olympic's appeal.

BILLY TOWNSEND.

Billy Townsend is being prominently mentioned to meet the winner of the Bucky Lawless-Sammy Jackson bout. Jackson and Lawless go to the post Tuesday night.

Both fighters are to make 148 pounds. Lawless makes this poundage easier than the Negro, who has been working around the 150 mark.

Jackson is given a good chance by local critics to keep up his winning stride when he faces Lawless, h faces Lawless by local critics. The black boy whipped Benny Miller after Benny had defeated Babe Anderson. Lawless won from Anderson, but not so convincingly as Miller.

Lawless took a decision from Jack Thompson last February in Rochester. But Thompson seems to have good and bad nights, so this win may not carry so much weight.

However Lawless holds decisions over Joe Dundee, former welter champion. He also beat Vince Dundee, Tommy Freeman, Bruce Flowers and Gorilla Jones.

A delegation of fans is coming down from Bakersfield to see Claude Varner box Huert Evans in the semifinal. Varner is the king of the San Joaquin Valley, where his father owns a big ranch.

Varner has looked like a whirlwind puncher in recent starts at Hollywood and the Olympic. He stopped Tommy McGough and lost on a technicality to Charley Sullivan, who was on the brink of a knockout.

Lipton to Put Up Yacht Cup for Fishermen

NEWPORT (R. I.) Aug. 29. (AP)—Sir Thomas Lipton, British yachtsman and challenger for the America's Cup, said today he would furnish a trophy for competition between the fishermen of Canada and the United States

Britain's grand old man of yachting conferred on board his steam yacht Erin with Capt. Ben Pine, representative of the Gloucester fishermen. It was decided the cup would be known as the Sir Thomas Lipton's International Fishermen's Challenge Trophy.

Pine will sail the American schooner, the Gertrude L. Thebaud, against the Nova Scotian Blue Nose, in a series opening at Gloucester, October 9, next.

After one vessel wins two races at Gloucester, the schooners will go to Halifax, for another three-race series. In the second series, the Dennis trophy, now held by the Nova Scotian committee, will be at stake.

Sunset Fields Plans Tourney

Ralph Heath announced yesterday that a special blind bogey tournament will be played at Sunset Fields on Monday. Two numbers will be drawn, one between seventy and eighty, and the other between ninety and 100. Electric clocks will be awarded the winners. The blind bogey will not interfere with regular play. Sunset Fields is planning to take care of a record crowd over the holiday, and everyone is eligible to play in the bogey event.

LEVINSKY STOPS KRAKEN

CHICAGO, Aug. 29. (AP)—King Levinsky, Chicago light-heavyweight, scored a technical knockout victory over Jack Kraken of Champaign, Ill., in the sixth round of a ten-round final bout.

Buccaneers to Meet Rovers at Uplifters'

With at least three of the players battling for the right to ride at No. 1 on the picked team which meets the Eleventh Cavalry on Sunday, September 7, the game tomorrow between the Rovers and the Buccaneers on the Uplifters' polo field is apt to result in some sensational riding. Lyell Puckett, Charles Crawford and Will Rogers, Jr., are the three players in question and needless to say there will be no lack of effort on their part to make a good showing. Lionel Pedley and Clair Brunson have already been selected for the team as has Hale Marsh of Santa Barbara, who will ride at No. 2.

In tomorrow's match, the Rovers are presenting a new line-up with Dick Smith at No. 3 and Charles Crawford at No. 2. Lyell Puckett, who returned to his old-time form last Sunday, will again ride at No. 1 and Carl Beal fills his accustomed back position. The Buccaneers are using the same line-up which came from behind to win a week ago by a last-minute rally which found the Rovers wanting, largely due to Baker's injury, which slowed him up materially.

ROVERS		BUCCANEERS
Lyell Puckett	No. 1	Dr. Rex. Duncan
Chas. Crawford	No. 2	Will Rogers, Jr.
Dick Smith	No. 3	Lionel Pedley
Carl Beal	Back	Clair Brunson

North Pitted Against South in Golf Today

DEL MONTE, Aug. 29. (AP)—Ten brilliant youngsters from Southern California will oppose four par-shooting youths and six older stars from the north, in the annual north-south team golf matches at Pebble Beach tomorrow. This event annually precedes the State amateur championship, which will take place here, September 1-7.

On paper, the south appears as a 2-1 favorite, although last year the north upset similar "dope" and overwhelmed the south, 7 to 3, in the singles and 13 to 4½, including the four-ball matches. The singles matches will be played tomorrow morning while the four-ball matches will take place next Sunday.

Tomorrow's single line-ups:

NORTH	vs.	SOUTH
Herbert Schultz		Fay Coleman
John McHugh		Russell Thompson
Lawson Little, Jr.		F. C. Stevens, Jr.
George Ritchie		Charles Seaver
J. H. Ritchie		Jack Gaines
Ralph Hoffman		Allen Moser
J. Wieder		William Jelliffe
J. E. French, Jr.		Harry Eichelberger
H. A. Willard		Dan Sangster
Claire Goodwin		Winston Fuller

ENTRIES CLOSE FOR STATE AMATEUR

DEL MONTE, Aug. 29. (AP)—Entries for the State amateur event will close at noon tomorrow and a flood of last-minute listings indicates that more than 300 will compete. The championship starts Monday with the first eighteen-qualifying round and will end Sunday with thirty-six-hole finals.

Scoring a remarkable 70, two below par on the Pebble Beach course, Jack Gaines continued to stand out as one of the foremost contenders. Leon Keller, Los Angeles, and Gerald Hardy, Carmel, each shot 74 in practice rounds today.

Entries for the Del Monte championship for women will close next Monday noon. The women's North vs. South team matches will be played Monday afternoon and the tournament proper will start September 3 with an eighteen-hole qualifying round. It, too, will end September 7.

HOLLYWOOD RIDERS GALLOP TOMORROW

Ready to duplicate its victory of last week, the Hollywood Polo and Hunt Club four will clash with the Clover Leaf All-Stars tomorrow at 2:30 on the Ventura Boulevard field.

Buddy Du Brock is again expected to lead the attack for the Film City team and will perform from his position at No. 3. Warren Jennings, the former Santa Barbara star, will captain the all-star aggregation. Porter Chase at No. 3 is another flashy player for the Clover Leaf four.

VACCA STOPPED IN THIRD BY AL BROWN

BRIDGEPORT (Ct.) Aug. 29. (AP)—Panama Al Brown, 122, world's bantamweight champion, won on a technical knockout over Johnny Vacca, 123, Boston, in the third round of a ten-round nontitle bout here tonight. Brown opened a deep gash over Vacca's left eye in the second round and Referee Young McAuliffe halted the battle at the close of the round.

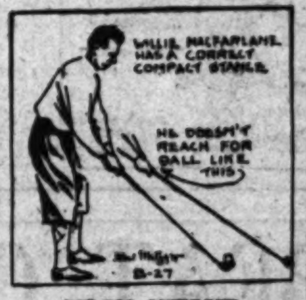
Slice Results from Reaching for Golf Ball



WILLIE MACFARLANE HAS A CORRECT COMPACT STANCE.
HE DOESN'T REACH FOR BALL LIKE THIS
8-27

BY SOL METZGER

One of the difficulties of golf is to remember the various points of play that aid your game. We work over a shot and find that some little adjustment of grip or stance enables us to play it correctly. Then we lay off a while and return to the links. We have forgotten the tip that made this shot work.

One such point concerns the stance. Often, after a lay-off, the golfer begins reaching for the ball. Instead of addressing it, as Willie Macfarlane is here shown addressing a tee shot, we reach out with our arms to the point where I have drawn an extra pair of hands in front of Willie. A slice occurs. You can't avoid it.

The reason is plain. As we swing through our bodies instinctively try to preserve balance. They do the best they can under the circumstance. As a result we sway to the rear and catch the ball on the toe of the club. Club turns a bit and off goes a slice.

To cure a habit of slicing you must first learn the cause. Sol Metzger's leaflet on "Slicing" takes up in detail the causes. Send stamped, addressed envelope to Sol Metzger, care of The Times, and request this leaflet.

Zelma Mac in Turf Triumph

AGUA CALIENTE, Aug. 29.—Taking the lead immediately after the start, Zelma Mac spun home first in the Cedros, a claiming affair for 2-year-olds that headlined the racing card here this afternoon. The James N. Crofton filly broke quickly and her pilot, Jockey Willie Johns, held her up to win by two lengths over Mrs. Francis Walter's Ginger Bread. Sals rushed to the front in the stretch to capture the show. The largest ladies' day crowd of the meeting turned out to take advantage of the final day on which women patrons would be admitted free. The results:

First race, seven furlongs, claiming—Edna Dale (Stranasku) first, Bam Menasi (Cochran) second, Barber Bill (Moore) third. Time, 1:29 2-5.

Second race, five and one-half furlongs, claiming—Rosapader (Van Pelt) first, Mama Joe (Fischer) second, Flor Del Mal (Moore) third. Time, 1:07 3-5.

Third race, five furlongs, claiming—Zelma Mac (Jons) first, Ginger Bread (Turk) second, Sals (Jones) third. Time, 1:01 3-5.

Fourth race, five and one-half furlongs, claiming—Ask John (Fischer) first, Jim Bethel (Van Pelt) second, Alma Borland (Hart) third. Time, 1:07 3-5.

Fifth race, one and one-sixteenth miles, claiming—Boy Friend (Fischer) first; Shasta Nut (Logan) second; Argue (McHugh) third. Time, 1:48 4-5.

Sixth race, one and one-eighth miles, claiming—Mad A (Johns) first, Clear Star (Bernier) second, Coffield (Dalzell) third. Time, 1:54.

Seventh race, one mile, claiming—Silver Man (Stranasku) first, Pass Cream (Gray) second, Most Unruly (Johns) third. Time, 1:41 2-5.

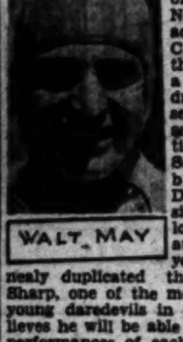
AUTO RACES TONIGHT

Knights of Roaring Road Go into Action at Legion Following Lapse of Three Weeks

With the "Big Four" of far-western racing favored to fight it out for first money in the forty-lap sweepstakes, some torrid competition is being predicted for tonight at the Legion Ascot Speedway when auto racing will be resumed following a three weeks' lapse. The quartet being picked by the rail birds as the pilots most likely to finish in the first four places are Francis Quinn, Walt May, Jimmy Sharp and Ernie Triplett, each of the throttle knights being conceded an almost even chance of coming home at the head of the pack.

Sharp will be out after his seventh straight victory on a Southwest race track, and this fact offers one of the interesting phases of the program. Never before, according to A. C. Pillsbury of the A.A.A., has a dirt-track driver of this section taken seven consecutive first places. Several years back Ralph De Palma won six and then lost in his next attempt. Last year Mel Kenealy duplicated this feat. But Sharp, one of the most spectacular young daredevils in the game, believes he will be able to surpass the performances of each of these.



WALT MAY

Jimmy, however, will be up against tremendous odds tonight. He will be entered against a field of drivers and cars that is admittedly much faster than ever congregated here before this season.

Among others, Ernie Triplett will be back behind the wheel. And Triplett, always sensational, should be a tough gent to beat at the helm of a car as high-powered as his Guiberson Special. The Guiberson was raced here three weeks ago, but as a two-seater. It has been reduced in size so it will handle properly on a banked track and if the car approaches the speed which Triplett made with it in the East, the other entrants will have plenty of trouble during the evening.

Walt May is not to be overlooked by betting fans. The Alhambra youngster, always up among the leaders, may surprise the rail birds by outmaneuvering both Triplett and Sharp tonight. May is to make his debut at the throttle of the Padre Special, a car on which the Val brothers have spent considerable money in an effort to cut into the winning in this section.

Quinn likewise is respected by other entrants. Francis, who knows his mechanism, usually has his Marine Miller in tiptop running order and tonight should prove no exception. Other pilots who will be closely watched are Al Gordon, Carl Ryder, Dewey Skipworth and Charley Gelston.

The Legion track has been put in rare shape by Harry Schmidt's crew of workmen. Incidentally, Schmidt predicts that a new record will be established for the five-eighths of a mile. Walt May holds the present mark of 28.3s.

The program will start at 8:30 with Clarence S. Beesmyer, vice-president of the Gilmore Oil Company, and a prominent sportsman, scheduled to referee. Fred Wagner will do the starting.

In addition to the forty-lap sweepstakes, three ten-lap heats, the Italian Helmet dash and a ten-lap consolation race will be held.

BETTY NUTHALL IS ELIMINATED

the first of the 1929 doubles champions to suffer elimination. Dr. William Rosenbaum and Fred Baggs of New York, defending the veterans' titles, gained this year's final round with an easy 6-2, 6-2 victory over the Boston contenders, C. A. Anderson and M. Coldman. The other finalists in the old-timers' play were S. J. Adams and H. H. Bassford of New York, who advanced by defeating Julian S. Myrick of New York, former U.S.L.T.A. president, and his Boston partner, W. J. (Pop) Foster, 6-3, 6-3.

D. J. E. Jones of Providence, and his son, Arnold, defenders of the father-and-son championships, gained the final round by defeating the H. H. Bassfords of New York, 7-5, 6-3. Donald M. and Malcolm T. Hill, Boston, filled the lower half of the last bracket by overwhelming Dr. H. Lott and H. Lott, Jr., 6-1, 6-3.

FINALS TODAY

These three finals will serve as tomorrow's preliminaries for the feature match of the week, during which Lott and Johnny Doeg of Santa Monica, Cal., will defend their national doubles championship against the Davis Cup doubles players. Allison and Johnny Van Ryn of East Orange, N. J., who have defeated the former team three times this season, once for the British doubles title at Wimbledon.

Both sets of men's finalists reached the last round yesterday when the champions defeated Bill Tilden and Frank Hunter and Allison and Van Ryn blasted another Texas-New Jersey combination out of their paths, Berkeley Bell and Gregory Mangin.

ALL-NIGHT ANGLING FOR OLYMPIC BARGE

HERMOSA BEACH, Aug. 29.—Capt. J. M. Andersen, skipper of the big Olympic fishing barge, anchored two miles offshore here, advises that all-night hourly launch service will be available Sunday night as well as Saturday night this week-end. Night angling is one of the features of a Labor Day celebration planned for the Olympic.

Many large catches of bonita have been brought in from the Olympic recently, while halibut, sea trout and mackerel are also reported as taking the bait well.

HEAVY HITTERS

Hufft and Burns, two members of the Mission Reds, had both rapped out 190 safe hits up to last night. They are listed among the Coast League's leading hitters.

SEALS DEFEAT SERAPHS, 6-4

(Continued from Fifth Page)

Angels scored two more in the fifth, to make what looked like a safe lead. Warren opened the fifth with a hit and Horne bunted him to second. Parker singled and took second on the throw-in and both men scored when Harper doubled to left center.

Crosetti got his third hit in the fifth and it was his second double. There was one out when he got it and Sheely made the second out, but Jim Caveney larruped a homer into the bleachers to score Crosetti ahead of him and put the Seals in the ball game.

The Seals got two more in the seventh and took the lead for the first time in the game. With one out Pinelli got a pass and Crosetti swung through with his third double and his fourth hit of the game. Sheely lifted a sacrifice fly to Schulmerich to score Pinelli and Caveney followed with a double to score Crosetti.

Coleman opened the eighth with a double, his second of the game, and took third on Penebsky's sacrifice fly to Schulmerich. Davis struck out. Young Powles took a swing at a wild pitch. The ball escaped Warren and Coleman scored the sixth and last run. Score:

HACK WILSON ON SHELF DUE TO FATIGUE

CHICAGO, Aug. 29. (AP)—Hack Wilson, the National League's new home-run king, was so worn out from the strain of yesterday's twenty-inning battle between the Cubs and Cardinals he was unable to start in today's renewal of hostilities. Manager Joe McCarthy excused the slugging outfielder from duty and switched his line-up, moving Danny Taylor to Wilson's place in center field and sending Riggs Stephenson back to his old post in left.

"GOOSE" GOSLIN.

The Browns got to Whitehill for seven hits, including Schulte's homer, in the initial frame while only one man was retired, and Manager Bucky Harris decided it was not his day to pitch. Wyatt, who replaced Whitehill, was the batting star, getting three hits, including a circuit drive in three times up. Goslin hit his thirty-first home run of the season in the seventh and Kress also hit into the bleachers. Score:

Once again reports are in circulation Woods plans to resign from the commission. He said today he has no such intention, at least not until commission affairs are running smoothly and by no means prior to the completion of the situation arising from the Baer-Campbell bout.

A resolution of protest against boxing adopted by the Bertola Assembly of California women was forwarded to Gov. Young tonight over the signature of the organization secretary, Lucie E. Hammersmith.

Pat Caraway Blanks Chisox in 13 Innings

CLEVELAND, Aug. 29. (AP)—Cecil (Pat) Caraway pitched a sensational thirteen-inning shutout over the hard-hitting Cleveland Indians and won his game for the Chicago White Sox by smacking a double which scored the first run off Recruit Clint Brown. The final score was 3 to 0.

Caraway limited the Indians to three singles, all in the regulation nine innings. He came to bat in the thirteenth after Brown had got himself into a hole by allowing Clancy to single and fumbled Watwood's sacrifice to give both runners safety. A ringing smash off the right field screen sent Clancy across with the winning run. Then Mulleavy cracked a single to score Watwood and Caraway. That was enough as Caraway easily turned back the last three Indian batters.

BOWL CONCERTS CLOSE TONIGHT

Last Symphonic Broadcast Begins at 8:30 o'clock

Tennis Championship on Described Today

Opera and Violin Virtuoso will be Features

The Times Forum, KHJ. At 1:30 p.m. Peggy Hamilton, fashion expert; Salvador Bagues, baritone, and George Kerr, mandolinist.

BY JOHN S. DAGGETT

Perhaps the most delightful radio period during this summer signs off tonight—the last of the Hollywood Bowl concerts—to be heard over KFI at 8:30 tonight.

When you envisage the thousands upon thousands of listeners-in who have each Saturday night brought into their homes and hearts these most excellent tributes to music, you will agree that the sponsor, the Union Oil Company, should be paid the credit due.

A cross-section of correspondence which has come to the tower of The Times during the summer season conclusively indicates that the major portion of listeners-in rate the Bowl concerts as an ideal. The personality of the master directors has been carried into the home almost as forcibly as if the swing of the baton had been seen.

The commercialization of the broadcast established a high standard of good-will advertising—a standard which the public apparently does not object to. This phase of radio broadcast is, perhaps, the most vital issue in the development of the art today. The public has appreciated the Symphonies Under the Stars, breathing a sigh of relief that the symphony predominated rather than merchandising.

HITS ON TODAY'S DIAL

KHJ will bring at 12:45 p.m. today the finals of the national men's doubles tennis championship from the East. This will last until 1:15. At 4:30 Dixie Echoes, over C.B.S., offers another fifteen minutes of southern Negro melodies and spirituals, while 5 tonight discovers the "Show Boat" throwing out its gangplank for the levee folks to buy a seat to "Reported Missing," another melodrama replete with "you ain't done right by our Nell," shotguns and sobs. At 7:30 tonight KHJ tosses the past week's features into a hat and selects thirty minutes of what they consider were the hits. Exactly at 9 tonight the Ascot Legion automobile racers hit the track for an hour of gas charioteering, with intermissions full of music and song. For the organ lover Wesley Tourtellotte, as usual, from 12 midnight to 1 with music that would relax even a wooden Indian.

KFI at 7 tonight points to an augmented orchestra with Virginia Florhi and Harold Spaulding, guest soloists, in an hour titled "A Night in Italy"—songs, arias, duets and ensemble music of that country. As its highlight tonight, at 8:30 o'clock, the last of the Hollywood Bowl symphonies under the baton of Enrique Arbos, famous Spanish conductor. Nicolai's "Merry Wives of Windsor" overture will open the program; opening after the intermission will be Tschaikowski's "Nutcracker Suite." Radioland should respond to this last broadcast of these beautiful periods—and the sponsor, the Union Oil Company, deserves a hand for its contribution to the pleasure of the air.

OPERA MATINEE

KECA at 3:30 this afternoon brings General Electric hour, including Arthor Pryor's band. In the program will be included two marches, operatic excerpts from "Tannhauser," a concert valse, a descriptive number and a talk by Floyd Gibbons. At 8:30 p.m. KECA points to its string ensemble, with Melba French Barr as guest soloist in "an exceptional concert program crammed with novelties of high worth."

KNX announces as its usual Saturday afternoon opera, commencing at 2 p.m., "Tristan and Isolde." This will run until 5 p.m. At 7:08 p.m. Calmon Luboviski, violinist, will feature a sonata by Miss Alma Ulrich, composer. At 8 tonight Horsefly and His Wranglers take an hour to toss over the air a lot of cow country songs, music and incidental chatter.

KFWB at 7:10 p.m. tonight offers its Salon Orchestra with Emma Kimmel and Buster Dees, guest soloists, in a new monthly feature, "Songs of the Month." At 8 p.m. they promise what they claim is "a program of distinct popular appeal." The Boswell sisters, Charles Beynon and Ray Martiner's orchestra will furnish the proof. At 9:30 p.m "Strings and Bows" in a half-hour, using as highlights "Pale Moon," "Memory Lane" and "At Dawning."

BAECHT STARS AGAIN

Ed Baecht twirled another of his great games Thursday when he held the San Francisco team of .325 batters to four safe hits and no scores. The duel between Baecht and Zinn, the Coast League's best winning pitchers, was one of the finest of the season. Baecht hung up his nineteenth triumph and now is trailing Zinn by only one game in the win column.

BROADWAY LIMITED DIES

CHICAGO, Aug. 29. (AP)—Broadway Limited, one of the greatest disappointments of the American turf, dropped dead today trying to make good.

The three-year-old son of Man o' War-Starlight, for which W. T. Waggoner of Fort Worth, Tex., owner of the Three D's stable paid $65,000 as a yearling, fell dead while racing in the second event at Lincoln Fields. His rider, Tommy Mal escaped with a few bruises. Broadway Limited was making his second start since the running of the Kentucky Derby. He was running next to last today when he suddenly collapsed as he was turning into the stretch for home. The cause of his death, veterinarians said, was a heart attack.

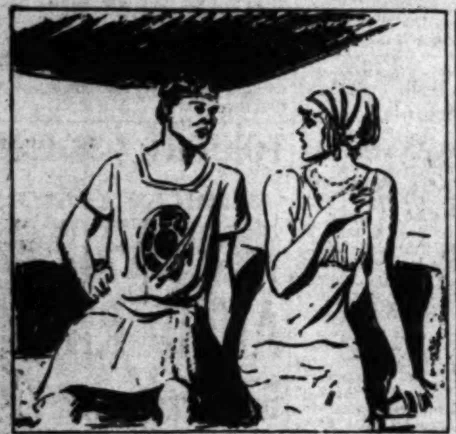
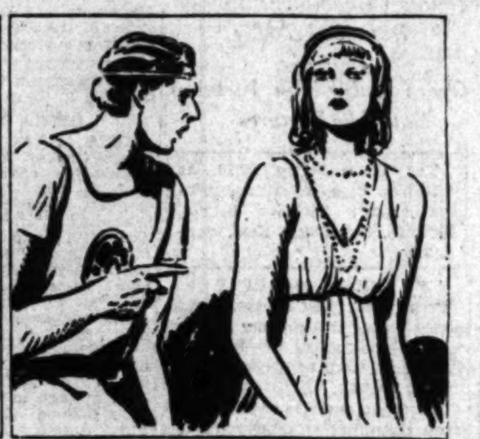
TARZAN AND THE LOST EMPIRE

By Edgar Rice Burroughs



Dilecta's eyes scanned the faces of the prisoners for some sign of Praeclarus, as she leaned forward from her seat in the loge. She did not notice a man who entered quietly and sat himself down beside her. "He is not there," said the man. The girl turned toward him quickly. "Fastus!" she exclaimed.



"The fate of Maximus Praeclarus is in your hands," said Fastus. "Give him up and promise to become my wife and I will see that he is not forced to appear in the arena." "He would not have it so," said the girl. "Your answer," said Fastus, "concerns your father, mother and Festivitas as well as Praeclarus."

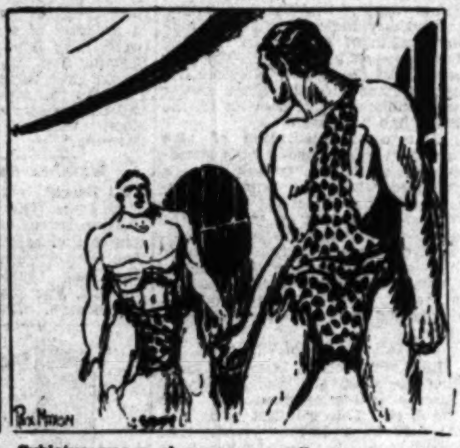
With this enigmatic warning, the rat-faced prince turned and left the loge of Dion Splendidus. Then the games started. Beneath fluttering banners and waving scarfs, the cruel, terrible, thousand-eyed thing that is a crowd looked on amid the din of trumpets as men and animals faced each other to fight to the death.



Sublatus was a showman as well as an emperor. He knew that the most interesting performer in the arena would be the giant ape-man, and he hoped to use him throughout the week. So on this first afternoon of the games Tarzan found himself thrust into the arena, unarmed, with another unarmed man, to do battle.

MAN GRABS SHARK BY TAIL AND LANDS HIM

SANTA BARBARA, Aug. 27.—J. C. Lewis, physical director of the Y.M.C.A., was the hero of the prize fish story on the water front today when he landed a five-foot shark with his hands on West Cabrillo beach.

Several hundred persons gathered on the beach for recreation watched Lewis triumph over the big fish. On approaching the water, Lewis was attracted to this fish by cries of children, "Oh, look at the big fish."

Lewis plunged into the water and made a grab at the fish. He got a poor hold and the fish escaped but returned to the attack.

On the second foray Lewis grabbed the fish by the tail and pulling and tugging for several minutes, dragged the shark out on shore.

Sabbath Afternoon Programs to be Held at Riverside County Annual Exposition This Year

RIVERSIDE, Aug. 29.—Sunday-afternoon horse racing will be a feature of the 1930 Southern California Fair program and will climax the six days of the annual exposition.

This decision was definitely made last night at a meeting of the fair directors with the association racing committee. In accordance with instructions issued by the directors, President August Rohrbacker, after the meeting, sent a telegram to Frank Leiginger, racing secretary of the Western Fairs Association, assuring him that the racing program is to be presented, and definitely contracting for Leiginger's services as official starter.

"We are already committed to the Sunday-afternoon racing program through the publication of the Southern California Fair premium lists and the racing schedule of the Western Fairs Association," director Thomas H. Rosenberger of Indio stated in making the motion that, "We, as directors of this association, fulfill our obligations and maintain the premiums and schedules which have been published and sent broadcast throughout the Pacific Coast."

There was no opposition to the proposal.

J. R. Westbrook, who has been acting as chairman of the racing committee, will continue to head that body as chairman. Paul W. Greenleaf, who is recovering from a severe illness, will be out of the city a major part of the time remaining before the fair officially opens.

HARVESTING OF WALNUTS SCHEDULED

Work on Anaheim Crop to Begin in Two Weeks; 450 Tons to be High Quality

ANAHEIM, Aug. 29.—Harvesting of Anaheim's walnut crop, estimated at 450 tons this year, will begin in about two weeks, according to Walter Ross, manager of the Anaheim Walnut Growers' Association. Last year slightly more than 900 tons were harvested.

Quality of the product this year will be high, although many small sizes will be marketed, Manager Ross said. There is little evidence of worms.

Picking prices will be 75 cents per sack, the same as last season. A plentiful supply of labor is said to be available for the work.

Uncertainty still exists regarding the price growers will receive for their output. Most nut-producing sections of the country are reporting estimates of 75 per cent normal crop, it is reported here.

Small Boys to Face Charge of Theft Attempt

ONTARIO, Aug. 29.—Two of the youngest boys to be arrested here for attempted grand theft were in charge of Chief Probation Officer George E. Larmore today.

The boys, Marion McKay, 12 years of age, and Ronald Le Claire, 13, both of Alhambra, were arrested here after assertedly trying to take an automobile from the O. K. garage. One of them had in his possession a number of auto keys, but both denied ever having attempted the theft of an automobile.

The boys said they were on their way to Ralph's Mill, Ariz., where McKay has an aunt. They had reached here by begging rides on the highway, they said. Here they planned to take a car and drive toward Arizona until their gas supply became exhausted. Neither had any money.

E. H. Rockwood, Early Pioneer of Valley, Expires

CALEXICO, Aug. 29.—E. H. Rockwood, 59 years of age, pioneer resident of Imperial Valley and brother of Charles R. Rockwood, engineer who first diverted Colorado water to the Imperial Basin, died here early today following an illness of two weeks due to asthma.

Rockwood's body was found in his bed at the Rockwood Lodge, which he owns, at 1 p.m. today by a Negro maid employed at the lodge. Alice Smith, a nurse, who had been remaining with him at night during his illness, stated that when she left him at 5 a.m. his condition did not appear to be critical. Physicians state that death must have occurred soon after the nurse left. Coroner Charles B. Cockley took charge of the remains and an inquest is to be held tomorrow morning.

Rockwood came to Imperial Valley in 1901 while his brother was engaged in laying out the Imperial irrigation system and assisted in handling the office work for the California Development Company during the early reclamation period.

In his recent years he had devoted his time to ranch property which he held near Calexico and to his apartment-house. He had been a member of the school board here for two years and had been active in civic affairs in Imperial Valley all his life.

Funeral plans will await the arrival of the widow and son, who are now in the State of Washington on a vacation trip.

Striped Bass Thriving Still in Salton Sea

CALIPATRIA, Aug. 29.—Two carloads of striped bass planted in Salton Sea early last spring by the State Division of Fish and Game, are thriving and give promise of making this inland sea a popular source of game for future sportsmen, according to information forwarded to the State department.

Striped bass were selected for trial planting in the brackish waters of the Salton Sea after several years of study. And W. H. Shebley, chief of the State division, stated that this is one of the most important experiments ever conducted by the department.

Except for a few mullet, there never have been any fish in the sea, which is forty-five miles in length and fifteen miles wide. The bass planted here by the State division were from four to six inches long and, according to local observers, they are doing well

WOMAN SEEKS CASH SOLACE

Dr. Clyde Pierson's Wife Files $50,000 Suit

Sum Sought from Mrs. Velma Hughes, Beauty Expert

Divorce from Osteopath Also to be Asked

SAN BERNARDINO, Aug. 29.—The age-old story of a middle-aged wife losing the love of her husband to a younger woman reached Superior Court today, this time involving Dr. Clyde A. Pierson, prominent local osteopath, and pretty Velma Hughes, a divorcee and beauty-parlor operator. Dr. Pierson's wife, Mrs. Ethel Pierson, bared the story when she filed suit against Mrs. Hughes for $50,000 and a second action against her mate for divorce. Mrs. Pierson charges her husband maintained a mountain cabin as a rendezvous to which he took the pretty Mrs. Hughes and that he also took her on an airplane trip to San Francisco.

Mrs. Pierson asserts further that Mrs. Hughes has made love to Dr. Pierson "upon occasions too numerous to mention," has entertained him privately at her apartment, and induced him in numerous ways to leave his wife. Mrs. Hughes, it is asserted, desired Dr. Pierson to contribute to her support and the support of a minor child by a former marriage.

In her suit for divorce, Mrs. Pierson incorporated a number of love letters said to have been written by Dr. Pierson to Mrs. Hughes. The letters, although not listed in the alienation action, will probably be read when the love-piracy suit against Mrs. Hughes is heard in court. Mrs. Pierson asserts that her husband secretly bought a cabin at Crestline Village, named "Sleepy Valley," which he frequently occupied with Mrs. Hughes. Mrs. Pierson adds that her mate promised to give the cabin to Mrs. Hughes. When she found out he had bought it he denied the purchase, Mrs. Pierson said.

On or about the 16th inst., it is asserted, Dr. Pierson took Mrs. Hughes on an airplane trip from Los Angeles to San Francisco. In addition, Mrs. Pierson charges her mate with bestowing expensive gifts upon Mrs. Hughes, including a set of fox furs, a radio, a coupe and numerous expensive bouquets, while at the same time, it is set forth, he refused his wife any more than the bare common necessities.

The Piersons were married in San Bernardino January 13, 1907, and parted on July 29 of this year, according to the divorce complaint.

Coroner Hears of Dead Man's Trap in Time

SAN DIEGO, Aug. 29.—The timely advice of a neighbor probably saved the life of Coroner Schuyler C. Kelly today. Kelly was investigating the death of Tobias Hekman, 70, eccentric farmer who lived on a ranch at Rainbow, eight miles north of Fallbrook. Hekman had been found dead on a nearby road by residents in the vicinity and Coroner Kelly was called to take charge of the body. The Coroner was preparing to enter the front door of the dead man's ranch home when neighbors warned him of a trap which Hekman had boasted he always set when he left the house.

Instead of entering the front door, Kelly gained entrance through a window and discovered a high-powered shotgun aimed at the front door. A piece of twine was attached to the trigger and then tied to the front door in such a manner that anyone entering the front door would discharge the gun and get the full blast from the weapon.

UPLAND, Aug. 29. — The stork is proving to be a generous visitor to the home of Mr. and Mrs. Ray Hayden of East Tenth street.

This week he left twin girls, one weighing seven and one-half pounds and the other one eight pounds.

There are now nine children in the family.

GOLDFISH DIE; BEES BLAMED

Mystery, However, Wraps Method by Which Finny Victims Were Stung

HUNTINGTON PARK, Aug. 29.—Police received a telephone call from a resident on Clarendon street, a day or two ago, bringing the information that bees were killing goldfish at the small pond at the home, that the bees were from a hive on the premises of a neighbor.

The neighbor was visited by the officers and was informed that it was a violation of a city ordinance for a bee-hive to be maintained within the city limits. So the owner stated he would remove the hive.

But just how the bees killed the fish, seems to be unexplained. One of the officers at police headquarters stated that in all probability the fish noticed the bees above the water at the pond, and that they jumped in an effort to capture the insects. In so doing, they were probably stung, causing the death of the fish.

WHO MAKES POPPIES TO BE QUERIED

South Pasadena Women of Legion Auxiliary Asking Investigation of Drives

SOUTH PASADENA, Aug. 29.—Reports that Memorial Day poppies are being manufactured by commercial concerns instead of being made by disabled veterans have caused the women's auxiliary of the local American Legion post to request a searching investigation of the "poppy drives," it was learned today.

A resolution requesting the investigation will be drawn up and sent to the National American Legion convention which is scheduled to open in Boston October 6, according to Mrs. Clara D. Locke, auxiliary president.

Assertions that veteran organizations have purchased manufactured poppies to sell during Memorial Day week have caused heated discussion throughout California Legion posts.

Barefoot Boy's Toes Find what Caused Geyser

ONTARIO, Aug. 29.—It required the services of an unidentified barefoot boy to solve the mystery of an underground stream that was carrying away the intersection at State street and Bon View avenue.

Several plumbers were called to the scene, but their efforts to find the source of the geyser spouting in the street was unavailing.

The barefoot boy happened along to see what was doing. In a nearby field a grower was irrigating his trees. The boy began to wade in the water, and then stepped on a gopher hole to generate mud.

Instantly the street geyser stopped. The gopher hole was the source of the trouble.

Burglar Locked in Closet Gets Through Ceiling

SANTA BARBARA, Aug. 29.—After he had been unknowingly locked in a closet, an unidentified burglar broke out the guest cottage of Peyton Park, Olive Mill Road, Montecito, by smashing a hole in the plasterboard ceiling and crawing out an attic window.

Lois Williams, maid, when making an inspection of the house, locked the closet and then an hour or so later saw a man run away from the cottage. She called Sheriff James Ross, who found the hole in the ceiling of the closet.

GAS MEN PLAN CONVENTION

Attendance from All Sections of the Pacific Coast Expected at Pasadena Gathering

PASADENA, Aug. 29.—Attendance from all sections of the Pacific Coast is expected at the Thirty-seventh annual convention of the Pacific Coast Gas Association to be held here September 9 to 12, according to an announcement by F. H. Bivens, president.

The four-day program will include addresses by men and women prominently identified in Coast-wide and local projects for the industrial and civic development of the entire western seaboard and practically all of the Rocky Mountain States. The rapid strides made by the gas industry, both natural gas and manufactured gas, will be outlined graphically in a series of reports by association committees. These reports will show that the gas utilities of the West Coast have not only kept pace with the developments of modern times, but are reaching ahead with new and still more modern uses for the utilization of gas for modern industries and modern homes.

C. O. G. Miller, president of the Pacific Lighting Corporation will deliver the keynote of the convention at a general assembly to be held on September 9, next. He will be followed by men active in Coast utilities from practically every State. Among the other speakers of note is Maj. Alexander Forward, managing director of the American Gas Association, who will travel to Pasadena via Transcontinental Air Transport from New York.

Included in the several features for the four-day session are three-minute speaking contests for both men and woman on the general subject of modernizing with gas; a series of short dramas presented by a half-dozen of the leading gas companies on the Coast; a voting contest by the women attending the convention, on newspaper-advertising proofs submitted by the advertising departments of nine Coast gas companies; a group of section meetings for the discussion of technical subjects connected with the industry, and two or three brilliant social sessions to be held in the evening and including the annual convention ball.

Three hours during the convention will be devoted to the association's annual golf tournament.

MAYOR PLANTS FIRST PALM

Glendora Begins its Beautification

Cocos Plumosa Set Out on Michigan Avenue

Glendora officials in the act of planting first Cocos plumosa tree in business district. Left to right are: Ross Dana, president of the Chamber of Commerce; City Engineer Arthur De Mott; C. M. Wilhite, chairman of chamber committee, and Mayor C. W. Wilhite, wielding shovel.

GLENDORA, Aug. 29.—Mayor C. W. Wilhite wielded a wicked left-handed shovel today during the planting of the first palm tree on Michigan avenue, the first definite step toward the elaborate street beautification undertaken by the Chamber of Commerce.

While Mayor Wilhite made the dirt fly, Ross Dana, president of the chamber and local newspaper publisher, with other city officials, looked on with approval.

Following completion of the tree-planting project as outlined by Charles M. Wilhite, chairman of the tree committee, Michigan avenue, for four blocks, between Bennett avenue and Foothill Boulevard, will be lined with Cocos plumosa trees, set at the edge of the street curbing, thirty-five feet apart. It is estimated that the program will necessitate the planting of seventy trees, Dana stated.

The project reached a definite conclusion two weeks ago when the City Council entered into an agreement with property owners along Michigan avenue. The agreement of the Council set forth that the city would plant and maintain the trees providing the property owners stood the expense of purchasing them.

LYMAN KING NO LONGER WITH PAPER

State Director of Finance Disposes of Interests in Redlands "Daily Facts"

REDLANDS, Aug. 29. — The ownership of the Redlands Daily Facts, pioneer and only newspaper here, held in whole or in part for thirty-seven years by the Moore family, was wholly in the hands of the family today when Lyman M. King, State Director of Finance, announced the sale of his interest to Paul W. Moore. The latter's father, W. G. Moore, was for many years owner of the paper.

The announcement was made in an editorial published today confirming reports that have been current in newspaper circles for some time that King, who is president of the Redlands Building Loan Association, was retiring from the newspaper field here.

Moore has announced that he will be assisted in the management of the paper by H. A. Hargraves, who has been with the newspaper for more than forty years.

The Redlands Daily Facts as the only newspaper here, is credited with having a "blanket" criculation of this section, including Bryn Mawr, Loma Linda, Mentone and Yucaipa, with a population of about 18,000. It is an evening paper and carries a complete telegraphic report as well as county and local news.

Sleepwalker's Hurts Prove to be No Dream

SANTA BARBARA, Aug. 29.—That old saw about people never being hurt while walking in their sleep, was blasted in the early hours of this morning when police were called to the 1100 block on North Nopal street to give first aid to Cope Norcross of Los Angeles.

Now maybe Norcross was just in an unfamiliar neighborhood and lost his bearings, as he is a guest of only a few days in town, but anyway he suffered a severe cut over the right eye when he fell on the walk leading away from his friend's house.

He told police he did not know how he got outside but admitted that he does walk in his sleep.

It is asserted in two complaints filed by E. A. Mayhew, that Shepard on August 23 failed to stop and render aid, after his machine had struck another car. His bail was fixed at $1000 on this charge. The second charge asserts intoxication. His bail on this charge has been placed at $500.

Mrs. Carothers at the same time made oral application for probation, through her attorney, Franklin G. West. The court set the hearing on this matter for Friday, September 12, next.

The formal information filed against Mrs. Carothers with the court today, accused her of taking $255 of the association funds. The shortage is said to have occurred while she was assistant secretary of the organization, a post she had held for eight years.

OIL SEEKERS TURN SOUTH

Angelenos Get Corporation Permit to Finance Wildcatting in San Diego District

SAN DIEGO, Aug. 29.—Search for oil and gas in San Diego county will be advanced by the formation of a $1,000,000 corporation, which has recently acquired important leases in the south bay district, according to a report today from Los Angeles, where the State Corporation Commission has granted a permit to issue shares. California Oil Company, Ltd., is the name of the corporation, which will issue shares of stock as well as royalty interests, according to the commissioner's order.

Directors of this company are Herman Schaeder, Paul H. Blades, Ralph P. Maskey, J. W. Siddall, William A. Corrao, W. Bruce Yount and Delmar W. Doddridge, the latter being attorney for the company.

Maskey, Siddall, Blades and Schaeder some time ago inspected the Coronado strand area, the Point Loma district and the South Bay territory, particularly in the vicinity of Imperial Beach. Since then leases have been quietly acquired and it is said the report of geologists has convinced the promoters that the field is worthy of trial development.

Reports today are that another corporation has acquired a large tract of Point Loma land where geologists have been at work for some time, and that these reports are favorable for oil development.

Working now in the San Diego district are the McGregor Syndicate No. 1, near Del Mar; O. K. Carr well No. 1, San Juan Capistrano; Borderland Exploration Company, No. 1, Point Loma, and Borderland No. 2 at Encinitas.

Geologists for the Olympic Refining Company have completed a survey of the San Diego district and upon their report it is said that this corporation may start developments here. Machinery is ready for shipment and the first well will be drilled on the R. K. Harrison ranch should the geologists' report be favorable.

Council Sticks to Platform of Rigid Economy

SAN FERNANDO, Aug. 29.—After a heated controversy on whether it should or not, the local City Council decided to pay City Clerk I. A. Swartout his full salary of $250 for this month, despite the fact that Swartout has been absent from his office most of the time because of illness in his family.

One Councilman contended Swartout was not entitled to his salary because he had not earned it. Mayor Maclay sided in this view. Finally City Attorney MacCamment was brought in. He gave opinion that as long as Swartout's absence had not occasioned the necessity of hiring additional help he should be entitled to his salary, that being the rule generally.

There was nothing personal in the effort to "dock" Swartout. Mayor Maclay and the Council contend they were elected on a rigid economy platform after a hectic political battle last spring, and that no San Fernando city employee should receive pay when through sickness, misfortune or otherwise he does not earn it.

Redlands Girl Real Victim of Boot in Face

REDLANDS, Aug. 29.—Harriet Van Osdel, daughter of Prof. and Mrs. E. B. Van Osdel, 821 East Colton avenue, can claim to be a real victim of a boot in the face. For Miss Van Osdel was playing with another girl on the lawn of her home. They were doing some gymnasium stunts and Miss Van Osdel was kicked in the jaw.

The jaw bone was splintered and the front teeth of the upper jaw were all loosened. Surgeons and dentists believe that they have the teeth straightened and she will suffer no ill effects from the accident.

FINANCIAL

RIO GRANDE OIL ARRANGES DEAL

Bank Loans of Company will be Reduced

No Public Financing will be Undertaken

Half-Year Earnings Equal to $1.80 a Share

Rio Grande Oil Company will not enter into any public financing nor is any contemplated, L. M. Lockhart, vice-president of the company, stated yesterday in announcing that arrangements had been made to reduce the bank loans of the company.

Richard W. Millar, vice-president of the Bancamerica-Blair Corporation, in charge of the Los Angeles office, has been elected to the board of directors of the oil company.

In view of the consummation of these arrangements, it is presumed that there will ultimately be a consolidation deal worked out with the Sinclair Consolidated Oil Company, inasmuch as the Bancamerica-Blair Corporation is also banker for the Sinclair company, the Tidewater Associated Oil Company and other oil concerns.

PROFITS LOWER

Rio Grande Oil Company yesterday reported for the six months ended June 30, last, net profits of $2,232,303, after depreciation, depletion and Federal taxes, equal to $1.80 a share on 1,236,270 no-par shares of capital stock, as compared with $3,022,362, or $2.48 a share on 1,218,000 shares in the first half of 1929.

In a letter to stockholders, L. E. Lockhart, president, stated that production and sales volume are running ahead of the same period of 1929. Refined oil prices for the six months were considerably lower than last year, and during the second quarter the gasoline price war on the Pacific Coast resulted in the sale of gasoline materially below its cost, the letter continued.

"This condition, which has now been substantially corrected, resulted in a decrease in the net profits for the first six months of this year, as compared with the first half of 1929, when the company showed a net earning of $2.48 per share," the letter stated.

OUTPUT CURTAILED

"The company is continuing its policy of conservation and restriction of crude production, and is producing at this time less than 50 per cent of its potential crude from wells now on production."

The consolidated statement of income and expenses from January 1 to June 30, 1930, follows:

COLOR PRINTS IN DEMAND

Technicolor Plants Booked to Capacity Until February; Cancellation of Contracts Denied Here

BY EARLE E. CROWE

Although stock of Technicolor, Inc. is selling off substantially from the high levels of last year in common with other issues, there is nothing in the company's operations, according to local officers, to justify the bearish attitude of the stock market.

Contrary to recent eastern reports, Technicolor has not been compelled by producers to cancel contracts for color pictures. The policy, instead, has been to postpone some of the pictures scheduled for production this year. Because of sharp reductions in theater attendance the producers and Technicolor executives have worked out this amicable arrangement, which calls for the production of the pictures in 1931.

PLANTS AT CAPACITY

As testimony of the demand for color in pictures, Technicolor officers in Hollywood point to the rate of activity in the positive plants where the color films are prepared for release. The Hollywood plants are running three eight-hour shifts daily and will maintain this rate until February 1, at least.

When the original contracts were signed with producing companies, the studio executives figured on a maximum of 100 prints from the color pictures. The immediate popularity of the color picture completely revised these ideas, and now the Technicolor plants are forced to turn out an average of 300 prints for each production. Some of the pictures require as much as 385 prints.

Earnings originate chiefly from the positive plants, which have been operating in Hollywood at the rate of 3,000,000 feet monthly since March. While estimates of earnings are not available for the year, it would appear from the business booked through until February that 1929 results will be surpassed.

Technicolor is under contract to do all the color work for two more years for Paramount, Warner Brothers, Metro-Goldwyn - Mayer, First National and R.-K.-O. In addition work is done for United Artists, Columbia and other producing companies.

RESEARCH EXTENSIVE

To keep pace with the demand, Technicolor is spending approximately $750,000 this year on research. A staff of twenty-two research experts is maintained at one of the Hollywood plants, including authorities from various universities on emulsions, optical science, physics, chemistry, etc. One of the recent developments of the laboratory has been the replacement of the forty-millimeter lens with the thirty-eight-millimeter in the Technicolor camera, giving greater definition to the picture.

Improvement in operating methods and increase in volume of output recently influenced the Technicolor company to voluntarily reduce the contract price to producers from 10 to 8.85 cents per foot. The aim of the company is ultimately to place itself in a position to turn out color work at approximately the cost of black-and-white pictures.

For 1929, Technicolor, Inc., reported net profits before Federal income tax of $1,173,980, compared with a net loss for the previous year of $46,190.

Farm Equipment Passes Regular

NEW YORK, Aug. 29. (AP)—Directors of the Oliver Farm Equipment Company have omitted the quarterly dividend of 75 cents on the convertible participating preferred due at this time. The regular quarterly dividend of $1.50 on the prior preferred was declared, payable October 1, next, to stock of record September 10.

Directors explained that in view of the present unsettled condition of agriculture in the United States it was deemed advisable to omit the dividend to conserve the company's cash resources. M. W. Ellis, president, said that although the sales volume for the first half this year was about equal to that of the preceding year, profits were somewhat lower because of the fact that sales of tractors were on a reduced basis pending the design and introduction of a complete new line. Production of the new line now is under way, he said, in preparation for next season's domestic and export business.

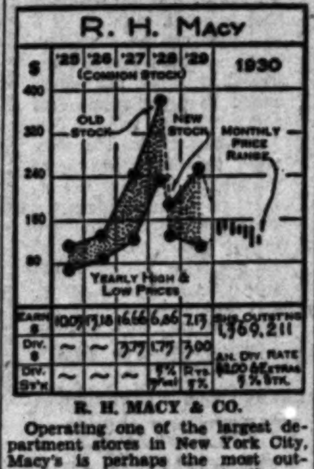
WHAT'S BEHIND YOUR STOCK



R. H. MACY & CO.

Operating one of the largest department stores in New York City, Macy's is perhaps the most outstanding individual unit in the retail department-store field of the country. The management was one of the first to install modern methods of merchandising and stock control and has aggressively followed up the policy of underselling other New York department stores on the basis of its high rate of turnover, volume purchases and cash business. Last year L. Bamberger & Co. of New York was added to the Macy organization. A controlling interest is held in two large department stores, one in Toledo, O., and the other in Atlanta, Ga. In 1929 a nineteen-story addition to the New York store was completed, and another is now under construction.

The company's net income for the year ending January 31, 1930, including net of the Bamberger store, amounted to $9,051,840, up 12.6 per cent from the previous year. Due to its cash sales policy, the company carried no receivables on its balance sheet, making its current assets highly liquid.

CAPITALIZATION

Funded debt (mortgage payable) $900,000.

Common stock (no par) 1,369,211 shares.

Current data: It is reported that a larger volume of sales and operating economies have brought earnings of the New York store so far in the current year above 1929 levels. Sales and profits of the Newark and Toledo stores have however, been adversely affected by the trade recession.

Exchange of Shares to Form Consolidation Basis

TULSA (Okla.) Aug. 29. (AP)—The consolidation of the Phillips Petroleum Company of Bartlesville and the Independent Oil and Gas Company of Tulsa was announced here today. R. C. Sharp, president of the Independent, made the announcement.

It was stated the executive committees of the two companies had agreed to all terms and conditions of the merger, which will be on the basis of exchange of Independent stock for that of the Phillips company at an approximate book value of properties as of July 31, last.

The agreement is subject to action of the Phillips directors and the directors and stockholders of the Independent company.

No change in the management, headquarters or personnel of either company is contemplated.

HEAVY INDUSTRIAL BURDEN

Total Annual Losses Due to Accidents and Sickness of Employees Placed at $9,000,000,000

BY JOHN F. SINCLAIR

(Copyright, 1930, by the North American Newspaper Alliance)

NEW YORK, Aug. 29.—The Index, published by the New York Trust Company, estimates that losses due to industrial accidents in the United States exceed $4,000,000,000 annually. If this sum is added to the losses due to industrial sickness, amounting to $5,000,0000,000 more, the total reaches the astounding sum of $9,000,000,000 a year.

"That industrial accidents are controllable and, with their attendant losses, can be materially reduced provided the proper steps are taken, has been definitely proven in the case of many large manufacturing concerns," says the Index. "The Bethlehem Steel Company, employing 70,000 men, cut its accident rate in half during the first eight years that accident work was in progress."

It also tells of the work of the International Harvester Company, which in fourteen years has reduced its accident rate by 76 per cent.

But the gold medal for efficient service without accident, probably should be given to the Clark Thread Company, which employs nearly 5000 persons. Some years ago, it established a record of 8,000,000 man-hours in 368 days, without a single accident.

Still there is plenty of room yet for accident improvement in industry as a whole.

Cyrus S. Eaton's testimony in the Bethlehem-Youngstown fight to the effect that he never received a single cent in bonuses paid by any of his companies, that his salary was $23,000 a year, of which he received $18,000 as a partner in Otis & Co., and $5000 as a member of the executive committee of the Youngstown Sheet and Tube Company, does not, of course, include the profits of $1,600,000 which Otis & Co. received in the Republic Steel merger.

Otis & Co., in that merger, secured the right to purchase 75,000 shares of the New Republic stock at $75 a share within two years, and 125,000 shares of the same stock within three years at the same price.

The common procedure among bankers is to take a round fee for merger work, and in addition secure an option to purchase large blocks of the stock in the future at a favorable price.

Within the next few days, W. G. Mather and S. Livingston Mather, the former a half-brother, and the latter a son of Samuel Mather, the second largest stockholder in the Youngstown Sheet and Tube Company, will be heard at the merger hearing. Their testimony will be most interesting.

The consensus among steel men is that Mr. Eaton, after five days on the witness stand, has made a strong case for his side.

Hundreds of miles of new paved road are being completed every week. Right behind the completed pavement come the motor trucks carrying hundreds of thousands of tons of freight of one kind or another. The business is growing so rapidly in fact, that the railroads are beginning to take official cognizance of the growing trade being taken away from them.

"The trucking companies do not pay taxes comparable to those paid by the railroads," says C. W. Galloway, vice-president of the Baltimore and Ohio Railroad. "Nor are their rates subject to review by the Interstate Commerce Commission. The railroads are heavy taxpayers, and their freight tariffs are approved by the commission in detail."

It's not the short haul that the railroads are objecting to. In this field, most railroad men believe the motor truck is performing a useful and much-needed function. The truck is called to the door of the shipper and in two or three hours transports the goods directly.

"But when the haul is a long one," says Mr. Galloway, "and over highways which the taxpayers, including the railroads support, an injustice is done to the rail carriers."

It is this aspect of the situation which the Interstate Commerce Commission must some day control.

Utility Forms New Subsidiary

Pacific Northwest Public Service Company, one of the subholding companies of the Central Public Service System, has formed the Portland General Electric Company to take over and operate its electric properties, it was announced yesterday. The step is part of a plan of the Pacific Northwest Public Service to segregate its electric, gas and railway properties into separate operating companies.

The Seattle Gas Company will own and operate its gas properties. Refunding plans of certain high coupon rate bond issues secured on the electric properties to be owned by the Portland General Electric will be announced in the near future. The refinancing, if consummated, will result in considerable savings to the company, it was stated.

WOOL QUIET WITH PRICE TONE FIRM

Weekly Review Reports Finer Grade Worsteds in Leading Demand

BOSTON, Aug. 29. (AP)—The Commercial Bulletin of Boston tomorrow will say:

The wool market is quieter but prices are steady and there is an undertone of strength, especially in the finer qualities. Demand still favors the worsted wools of the finer grades but there is more interest in woolen description.

Foreign markets are without material change for the week. Merinos are firm, while cross-breds are a bit on the easy side. Interest is growing in the opening of the new season in the primary markets of the Southern Hemisphere and in the next London series opening September 16, next.

The piece-goods markets are in a fog at the moment with business rather slow and of no certain tendency as yet. It is expected manufacturers' ideas will have had a chance to crystallize as to the new season's tendencies by the middle of next month.

Mohair is slow and prices still nominal.

The rail-and-water shipments of wool from Boston from January 1, 1930, to the 28th inst., inclusive, were 94,296,500 pounds, against 117,486,700 pounds for the same period last year. The receipts from January 1, 1930 to the 28th inst., inclusive, were 276,292,613 pounds, against 239,107,485 pounds for the same period last year.

The Bulletin will publish the following quotations:

NEW YORK, Aug. 29.—Banca d'America e d'Italia, controlled by Transamerica Corporation, is negotiating for acquisition of Banco Italo-Britannica, it was reported here today. Strong British interests, understood to be associated with Transamerica in the acquisition, will be represented on the directorate as well as in the executive management of the acquired bank.

Transamerica officials, in announcing the recent acquisition of an interest in the French commercial bank, Union Des Mines, stated that the corporation probably would further enlarge its holdings. Banca d'America e d'Italia on December 31, last, was capitalized at 300,000,000 lire and had resources of 1,681,521,368 lire.

Banco Italo-Britannica, with its head office in Milan, maintains branches in Genoa, Naples, Rome, Trieste, Turin and Venice. On April 30, 1929, it reported paid-up capital of 75,000,000 lire and assets of 992,019,569 lire. Its London agent is the British Italian Banking Corporation, Ltd.

NEW YORK BOND PRICES

NEW YORK, Aug. 29. (AP)—Disquieting reports of military and political trouble in Latin-American countries caused sharp breaks in a wide list of foreign bonds today.

The heaviest pressure was applied on Argentine obligations and the prices of about a dozen bonds dropped 1 to 3 points. Bonds of Brazil, Chile, Colombia, Buenos Aires, Sao Paulo, Costa Rica, and Rio Grande Do Sul were reactionary with many losses of more than a point, and Uruguay bonds were heavy.

The weakness in the Latin-American list, with the sharpest declines in months overshadowed interest in the quiet movement of domestic bonds, where changes were of a divergent nature. More than a dozen railroad and utility issues reached new highs.

Issues advancing to new highs included Chicago, Burlington & Quincy 3½s, St. Louis Southwestern 4s, Chicago & Alton 3s, Central of New Jersey 5s, California Gas & Electric 5s, Detroit Edison 5s, and Portland Electric Power 6s.

Bethlehem Steel 5s gained a point. Industrials were the only group to show an advance in the averages.

The buoyancy of stocks was reflected in the improved status of convertible and warrant bonds, some advancing to the highest level in several weeks. American Telephone 4½s reached 165, up 4¼. American Natural Gas 6½s with warrants gained about the same. Atchison 4½s rose 1½. General Theaters 6s advanced 2, Warner Brothers 6s, 1½; Pathe warrant 7s, 1, and Loew's 6s, 3⅛.

Standard European governments were firm. Mexican and Peruvian issues moved contrary to the general trend in the Latin-American section, rising 1 to 2 points.

The quotations represent sales of bonds (in thousands of dollars) and the high, low and closing prices in order given. To expedite transmission the close is omitted when the same as the low, and both low and close when same as high.

Sharp Advance in Corn Prices Marks Trading

CHICAGO, Aug. 29. (AP)—Buoyancy developed in the corn market today as a result of widespread belief that private corn crop estimates next week would show a sensational slash. According to current gossip, a leak indicated that one leading unofficial authority had reduced to 1,925,000,000 bushels his forecast of the 1930 crop, whereas the lowest predictions heretofore have been about 2,000,000,000 bushels. Flurried buying that ensued hoisted the corn market 3⅛c bushel, with some sales as high as 1.00 even, but then heavy profit-taking led to something of a reaction.

Closing quotations on corn were firm, 1⅞@2⅛c a bushel higher than yesterday's finish. Wheat closed unchanged to 1⅛c down, and oats ⅜@1⅛c up, with provisions ranging from 10c setback to a rise of 5c.

Right from the outset, the corn market showed a tendency to soar. Speculative buying broadened out with surprising suddenness, and although reports of a prospective radical cut in crop estimates remained unconfirmed they were not denied, and the market at no time displayed any actual weakness, despite many necessary readjustments to prepare for a three-day holiday ahead.

Expectancy that corn as feed will meet with severe competition from substitutes including wheat seemed to have no terror for today's buyers of corn. These buyers said that with corn yields sensationally curtailed, prices for corn promised to be well maintained throughout the crop year.

Wheat values displayed a tendency to lag, and in the end lost fractional gains which had been scored on account of corn market strength. Oats traders took their cue mainly from the action of corn. Provisions held about steady, influenced by hog values.

NEW YORK CURB STOCKS

NEW YORK, Aug. 29. (AP)—A short covering movement that developed during the afternoon fused strength into the curb market today.

Public utility issues were the focal point of interest, and closed up 1 to 3 points, and buoyancy extended to some of the specialties and industrials. Business was the largest in a fortnight, totaling 443,100 shares.

Best gains in the utilities were made by Electric Bond & Share, Central Public Service, American Superpower, American Gas & Electric, and Standard Public Service A, all up 1 to 3 points. Electric Bond & Share closed at 84, an advance of 1¾ and the best figure of the week.

For the first time in many sessions Cities Service assumed the position of the most active curb stock, and moved up ⅝ to 28⅝. Standard of Indiana was bid to 70⅝. Humble registered a gain of 1½.

Investment and holding company stocks profited from the increased trading. Goldman Sachs moved up ½ and United Founders gained ⅝. Singer Sewing Machine sagged 17 points to 433. Mead Johnson lost 2 points. American Cyanamid worked ⅝ lower. Columbia Pictures, Great Atlantic & Pacific, U. S. Gypsum and Zonite Products gained about a point each.

The closing price is omitted when same as the low, and both low and close when same as the high.

FISHING CRAFT BUILDERS BUSY

Group Ready for Trial Runs Valued at $250,000

Largest Project Represents Outlay of $100,000

Other Contracts Entered, Several in Offing

BY WAYNE B. CAVE

Two hundred and fifty thousand dollars of new tuna-fishing bait boats will go into commission from yards at Los Angeles Harbor within the next week, while contracts have been signed or are imminent for as much additional construction.

Largest of the new completions, the 120-foot San Lucas, built for D. Tani, will go out on her trial voyage from Al Larson's yards the 31st inst. She is a 120-footer, with an innovation of a precooling tank intended to facilitate refrigeration of the fares on their long voyages here from tropical waters. She represents a cost of $100,000.

Larson also signed yesterday to build another 120-foot bait boat, at a cost of $100,000 for Manuel Medina of San Diego, to be completed in midwinter, and has contracted to build an eighty-three-foot purse seiner for John Brajcich of San Pedro at a cost of $40,000.

Other completions are the $45,000 85-foot purse seiner to go out from the yards of the Harbor Boat Building Company the 31st inst., for Pete Dragich of San Pedro, and a 105-foot bait boat built by Parks & Kibele at their Wilmington yards for Messrs. Yamashita and Kokasho at a cost of $75,000. Completion is expected next week.

In addition, negotiations are under way for three more $100,000 craft, and tentative plans are being drawn for a 180-foot freezing boat to cost $180,000 to $200,000. It would be a radical departure from present tuna fishermen, being the first local freezing craft. Plans are to concentrate the power plant in the after part of the craft, and divide the holds into small freezing compartments capable of holding 500 to 600 tons of frozen fish. Tanks are contemplated which would give the craft two solid months of cruising.

NEW MOTOR LINER ON WAY FROM NORWAY

Departure from Copenhagen on the 27th inst., of Interocean Line's new fourteen-knot Norwegian motorship Heranger, for Los Angeles direct, was announced yesterday by Edward N. Tormey, district manager of the Interocean Steamship Corporation. The Heranger is the second of four Norwegian motorships to be operated by Interocean from Coast ports to Havre, Antwerp and Rotterdam. She is due here September 27, next.

The Brandanger, first of the fleet, will arrive from Europe late tomorrow and after calls at northern ports will inaugurate the new service when she sails for Europe from Los Angeles Harbor on September 28. The Heranger will depart the local port on her first voyage, October 17.

American-Hawaiian Line's motorship Missourian arrived from San Francisco yesterday morning from San Francisco with a veritable fleet of local racing yachts on her deck. The yachts, which participated in annual race week at the Bay City, included Al Christie's six-meter sloop Lanai; Tommy Lee's six-meter Caprice; Pat Patricio's star-class sloop Morning Star, and Vic Dalton's eight-meter Marin.

W. H. Collins, chief clerk at the American-Hawaiian terminals, will return to his desk Monday morning after a vacation spent in Northern California.

Klaveness Line's brand-new motor liner Roseville came in from North Europe yesterday morning on her maiden voyage, having for local discharge 400 tons of silver sand, 160 tons of chalk, 110 tons of fertilizer, 110 tons of china clay and 500 tons of iron, steel and general. She replaces on the New York-Orient-California run the slower motorship Bronxville, which sailed Thursday on her farewell voyage.

Lassco's flagship City of Los Angeles was in yesterday morning from Honolulu with 396 passengers and 3000 tons of island freight, ready to begin her speeded-up schedule to Hawaii. She will sail from this port on September 6 and return on September 27, sailing again for Honolulu September 29. She will arrive home on October 17 and depart for Hawaii the next day, thereafter maintaining a regular schedule, departing Los Angeles Harbor November 15 and December 13.

Lassco will send personally-conducted tours to the islands on the big flagship on September 29, October 18, November 15 and December 13.

The Norwegian freighter Gisla, sailing yesterday for the Orient, took out an unusual consignment of "sheik accessories," as Capt. Ebbesen called them. They include numerous tonsorial preparations, Ford accessories and bright-hued clothing, bound for Kobe, Yokohama and Shanghai.

Passengers arriving on the City of Los Angeles yesterday morning included Ralph Begien, vice-president of the Chesapeake and Ohio Railroad of Richmond, Va., with Mrs. Begien and their two children; Wilhelm van Konijenburg, Dutch mining engineer, en route from Sumatra to his home in Holland; Harrison Chandler, local newspaper man; Howard Brown, Hollywood motion-picture director, and Emanuel Jungquist, president of the Percival Steel and Supply Company, Los Angeles.

Owen E. Durkin and George T. Darragh, general agent and contracting freight agent, respectively, of the Christenson-Hammond coastwise line, visited the port yesterday for a survey of the line's terminals at Wilmington. Mr. Durkin said that the coastwise freight trade is enjoying a marked revival in movement of manufactured products, particularly in northbound traffic.

Ladrón de Libros que Aumenta su Colleción en Washington

WASHINGTON, Agosto 29.—Cincuenta volúmenes raros de prosa y poesía alemana han ido a engrosar la biblioteca del ladrón capitalino que tiene más discernimiento.

En estas últimas semanas han sido despojadas de sus libros raros cuatro mansiones de Georgetown, que había dejado cerradas sus dueños para ir a pasar el verano en otra parte. En las cuatro dejó el ladrón todos los volúmenes de poco valor y desdeñó asimismo la plata fina y los valiosos artículos de bric-a-brac.

El robo más reciente fue descubierto ayer. El registro practicado en otras casas cerradas de la vecindad reveló la existencia de muchos libros ya empaquetados por el industrioso e inteligente caco, y listos para ser substraídos.

L. Christenson, que le llevaba veintisiete años, y al socio de éste, John Higebar, de 60, en el rancho de Christenson, cercano a Poulsbo, la tarde del martes.

Dijo a las autoridades que dio de balazos a su esposo porque la maltrataba, porque se había negado a darle los títulos de una propiedad comprada a Higebar para ella, y porque se rehusó a dejar el negocio de fabricación de licor, en que se ocupaban él y Higebar. Mató a Higebar, añadió la delincuente, para sellar sus labios e impedir que la delatara.

Juez Indugente con un Joven que se Hace Pasar por Mayor de Edad

En opinión del juez superior Wilson, no debe mandarse a un hombre a la penitenciaría por el mero hecho de haberse registrado como mayor de edad con el fin de conseguir empleo.

Esta decisión judicial fue tomada ayer en el caso de Louis Wright, quien fue primero detenido por una falta de menor cuantía. Después de su arresto, le encontraron las autoridades en el bolsillo un certificado de registro, y lo consignaron entonces por el delito de falso registro, que es una "felonía".

S. S. Hahn, defensor de Wright, alegó que su cliente no tenía intención ninguna de cometer felonía; que meramente había apelado a un medio práctico para convencer a un presunto patrono de que era mayor de edad.

El juez, defiriendo a los argumentos de la defensa, falló en el sentido arriba apuntado.

CITY POWER BOARD ROW TO BE AIRED

Mayor and All Others Involved Invited to Give Evidence to Council

The keynote of the inquiry to be conducted Tuesday afternoon by the City Council's Water and Power Committee into the row on the Board of Water and Power Commissioners will be the asserted lack of "harmony," it was stated yesterday by Councilman Jacobson, chairman of the committee. Jacobson says he has invited Mayor Porter, members of the board and Commissioner Scofield to attend and give evidence.

The rumpus, long simmering, broke out a few days ago when Mayor Porter removed Scofield and appointed Edward J. Fleming in his place. Mayor Porter said he did this in the interests of "harmony." Scofield came back, declaring he was the harmonious member, with Commissioners Brooks and Johnson out of tune.

There being some doubt as to Fleming being an elector of the city, that nomination has been withdrawn. Mayor Porter also sent in the renomination of Commissioner Haynes, but this has not been acted upon as yet.

Judge Lenient in Youth's Ruse to Obtain Job

A man should not go to the penitentiary merely because he registered when under the age limit of 21 years to aid himself in obtaining employment, in the opinion of Superior Judge Wilson.

The ruling was made yesterday in the case of Louis Wright, who originally was arrested on a misdemeanor charge. After Wright's arrest, however, officers found a registration certificate in his pockets and they charged him with false registration, a felony.

S. S. Hahn, attorney for Wright, explained that Wright had no intention of committing a felony, but merely sought some definite means of convincing a prospective employer that he was of age.

FIGHT WITH TIGER RETOLD

Game Lad's Deathbed Story of Battling Huge Cat with Penknife Related at Inquest

"I stuck my finger in its eye and tried to kill it with my knife, but I couldn't, mother!"

With these words Mrs. Lynette Hill described the final chapter in the life of Alfred Newcomb Hill, 12 years of age, her son, as he lay dying from wounds inflicted by a huge Siberian tigress.

Mrs. Hill's statement formed a part of the testimony of the inquest conducted yesterday morning into the death last Wednesday of Alfred after he had been attacked and clawed by the beast in the artificial jungle of Luna Park Zoo.

SAFEGUARDS ASKED

Following testimony by numerous witnesses a Coroner's jury returned a verdict that the boy came to his death as the result of shock and hemorrhage from severe lacerations of the scalp and other injuries. While holding that the boy was trespassing on private property at the time he was attacked by the tigress, the jury recommended that the authorities investigate and make provision for the proper guarding and locking up of wild animals in the future.

Hesitantly, Alfred's three small companions, William Webert, 13; his brother, Ralph, 10, both of 876 Paola avenue, and Carl Sabins, Jr., 12, 1326 Drysdale avenue, told how they entered the inclosure and how Alfred was set upon by the tigress.

"We ran and ran and ran," declared Ralph as he described how Alfred fell to the ground screaming under the claws of the beast.

RESCUER'S TALE

Modestly disclaiming the role of hero, Melvin L. Kontz, assistant animal trainer, told how he beat the tigress off the boy with a club until the arrival of a rifle with which he killed the animal. The animal had been ill and had been turned loose in the inclusure to hasten its recovery, he said. While not an expert shot, Kontz stated he had previously fired rifles. He testified that a rope securing an entrance to the inclosure had been cut.

The body of the dead boy was identified by his father, Newcomb A. Hill. The boy lived with his parents at 873 Paola avenue.

MME. CURIE MAY VISIT PASADENA

Famous Codiscoverer of Radium Sent Invitation to Use New Retreat

By a "Times" Staff Correspondent

PASADENA, Aug. 29. (Exclusive) An invitation has been extended to Mme. Curie, codiscoverer with her husband of radium, and twice winner of the Nobel Prize in chemistry, to visit the California Institute of Technology within the near future, it was learned today, and officials of the institute expect her to accept. Whether or not Mme. Curie will spend any time in research work at the local institution has not yet been decided by her, it was said.

The famous French woman scientist, for whom American women purchased $100,000 worth of radium, a single gram, to assist her to continue her work, is expected to be the first occupant of the honor guest suite in the Athenaeum, new $350,000 retreat for scientists and faculty erected on the California Institute of Technology campus.

The Athenaeum, provided through the generosity of Mr. and Mrs. Allen Balch, will be opened formally within a few weeks.

ADVERTISING OFFICIAL GOING EAST BY PLANE

Carl M. Heintz, vice-president of Hanff-Metzger, advertising counsellors, will leave today via Western Air Express for New York where he will attend a series of conferences on the 1931 advertising expenditures for clients. While in New York, Heintz will confer with executives of the Texas Company, Paramount-Publix Corporation and Royal Typewriter Company on 1931 marketing and advertising plans.

MICHELSON TO MOVE HERE

Chicago Physicist Takes Residence in Pasadena; Light Experiment to Start in Two Weeks

By a "Times" Staff Correspondent

PASADENA, Aug. 29.—Dr. Albert A. Michelson, dean of the world's physicists, has taken a year's lease on a beautiful residence at 1717 San Pasqual street, where he and Mrs. Michelson plan to reside permanently, it was learned today.

This confirms the previous report that the Chicago University scientist would close his Chicago home and become a fellow-citizen of Dr. Robert A. Millikan, California Institute of Technology head, who was Dr. Michelson's pupil at the University of Chicago.

Mrs. Michelson, who is now overseeing shipment of the household goods from Chicago, will rejoin her husband here at the Hotel Maryland about September 15, and shortly thereafter they will move into their new home. The lease on the two-story Spanish home was handled through the Morse and Gates Company. The physicist was directed by his physicians to move to Southern California to escape the Chicago winters.

Dr. Michelson's final experiment to determine the velocity of light, the only constant in nature, will be started at the Irvine ranch, near Santa Ana, in about two weeks, he revealed this afternoon.

In his previous determination of light velocity, light beams were flashed between revolving mirrors placed on the summits of Mt. Wilson and Old Baldy. The distance factor in this experiment was computed by the Coast Geodetic Survey.

Not wishing to rely upon the work of others, the physicist devised an apparatus consisting of a mile-long vacuum tube which has been set up on the Irvine ranch. Light beams will be flashed through

AIRPORT PURCHASE URGED

President Austin of Chamber of Commerce Says City or County Should Buy Mines Field

Letters urging that either the city or county acquire ownership of Mines Field, now under lease as a municipal airport, were addressed to the City Council and Board of Supervisors yesterday by John C. Austin, president of the Chamber of Commerce.

They were accompanied by copies of a letter received recently from Paul W. Litchfield, president of the Goodyear company, and pointed out that unless some action is taken shortly Los Angeles is likely to lose its chance of being selected as a terminus for trans-Pacific lighter-than-air operations.

The letter from Litchfield indicates his company still is interested in locating a dirigible base here and urges that the city acquire Mines Field together with considerable acreage directly north of it.

"A study by our aeronautic engineers and meteorologists," it reads in part, "resulted in our recommending Mines Field as the most logical place for such operations, and I can think of no greater beneficial move than for the city to acquire it. It will mean much to the city's progress in the future."

In his communication to the Council and board, President Austin stresses the fact that although the Goodyear company gives first choice to Mines Field in the matter it also is believed to be looking with favor on a site at El Monte and might select it should it become publicly owned.

OWENS VALLEY LAND DEAL NEAR

City Soon will Start Buying Up Rights for Water

Long Delay to be Terminated by Yesterday's Action

About $2,250,000 Expected to Become Available

Months of patient waiting on the part of some ranch owners in the Owens Valley will be brought to a close in the near future when the city of Los Angeles, through action taken by the Board of Water and Power Commissioners yesterday, moves into the valley with real money which was long ago promised for the purchase of water rights and lands.

The commissioners by formal resolution directed the City Council to advertise immediately for bids on $5,000,000 worth of the $38,000,000 water bonds voted last May. It was further indicated, that, by arrangement with the City Treasurer, the Water and Power Department will place water bonds as collateral for about $2,250,000 cash immediately. This will be used partly to purchase Owens Valley water lands included in what has been known as the old Keough pool of land holdings, and more lately referred to as the Goodenough arbitration group. Purchase of these lands has been the subject of years of dispute between the city and the ranchers.

The rest of the $5,000,000 not needed to make the Keough pool purchase will be used immediately to purchase some other outstanding ranch holdings in the valley. The city, and even the water board have been the object of considerable criticism in recent months because of the delay in closing the deal on the Goodenough arbitration. Yesterday's action is expected to smooth matters out and pave the way for further negotiations. The matter of the purchase of the town properties still awaits a court decision in a test suit.

BABY GOLF ORDINANCE VOTE LATER

Council Hears Complaint and Plea for Extension in Proposed Curfew Law

The ordinance regulating miniature golf courses went before the City Council yesterday and, after a hearing, was continued until next Friday for action. Immediate adoption was refused because Councilmen Barthel and Jacobson declined to give unanimous consent.

Councilman Webster, who started the machinery for the ordinance, made an effort to get the measure passed at once.

The ordinance provides that the courses be closed and the bright lights turned off at midnight, that noise-making machines be stopped at 10 p.m. and that lights be shaded.

P. A. Young, representing the Southern California Hotel Men's Association, argued for the adoption of the ordinance, declaring the noise and lights are driving tenants out of hotels and apartments near by. Jess E. Stephens, for independent course owners, asked that the closing time be extended to 1 a.m., as did F. J. Montgomery, for the Associated Golf Course Owners.

Elderly Folk to Have Picnic

The Southland's silver-haired population, none less than 70 years of age, and some who have reached the venerable maturity of 100, will picnic next Saturday in Sycamore Grove Park.

Those who are 90, or who have been married fifty years, will be given special places on the platform, promoters of the outing announced yesterday. The promoters added all oldsters are invited, regardless of where they lived before making Los Angeles their home.

"RESIDENTS" RULE PUT UP TO COUNCIL

The Board of Supervisors yesterday asked the Board of Public Works to waive the provision to use only Los Angeles city residents in the work on the Coliseum. The board, having no jurisdiction, transmitted the communication to the City Council.

ATTIC DEATH WIDOW TO BE TRIED AGAIN

Mrs. Oesterreich's New Case Scheduled by Judge Hardy for October 14

Mrs. Walburga Oesterreich will be tried the second time October 14 for the murder of her husband, it was decided yesterday by Superior Judge Hardy. Mrs. Oesterreich and her attorneys, Jerry Geisler and Le Compte Davis, appeared in Judge Hardy's court yesterday, together with Dep. Dist.-Atty. Costello, when the matter of the disposition of the case came up.

The defendant was tried on the murder charge recently, the jury disagreeing after hearing evidence for three weeks. Nine jurors voted to find her guilty of second-degree murder, one voted manslaughter and two were convinced she was not guilty.

Mrs. Oesterreich was jointly indicted with Otto Sanhuber, so-called garret-ghost lover, for participation in the murder of Fred Oesterreich, wealthy apron manufacturer of Los Angeles and Milwaukee, who was found shot to death in his home here late on the night of August 22, 1922. Sanhuber was tried separately a few weeks ago and found guilty of manslaughter, but gained his liberty when it was shown the law of limitations had run on the manslaughter charge.

Quezon Arrives from Islands in Quest of Health

Dr. Manuel Quezon, president of the Philippine Senate and leader of the fight for the islands' independence, arrived at the port yesterday aboard the Admiral liner H. F. Alexander, here from Manila via Seattle. He will reside in Beverly Hills in an effort to regain his health. Dr. Quezon declined to discuss either politics or the economic situation in the Philippines.

He is accompanied by Mrs. Quezon, their son and two daughters; Dr. Quezon's private physicians, Dr. E. B. Aguilar and Dr. T. Arviso, his secretary, Faustino Reyes, and an entourage of servants. The party was met by Dr. H. E. Schiffhauer, local surgeon and friend of the political leader.

SHULER'S RADIO ECHOES IN TRIAL

Expert Says Keaton Told of Talks Filling Mind

Story of Flint's Slaying Reviewed to Jury

State Alienist to Continue Testimony Tuesday

Frank D. Keaton, slayer of Motley Flint, had his mind full of Rev. R. P. Shuler's radio speeches in which the minister attacked Flint and others, when he fired three shots into the retired banker's body, according to the testimony of Dr. Thomas J. Orbison at Keaton's sanity hearing in Superior Judge Schauer's court yesterday.

"I listened to Flint testify and while doing so all those things that Shuler had said over the radio came into my mind. I became very much stirred up about my losses that Shuler said were due to those thieves and robbers. It crowded into my mind and then I shot him as he came through the gate. After that I began to shake and tremble so that I could not hold the gun and I threw it on Flint's body."

KEATON EXPLAINS

Thus, according to Dr. Orbison, did Keaton explain to him why he arose from a spectator's seat in Superior Judge Collier's court on July 14 as Flint was leaving the courtroom, after having given testimony in a civil action, and shot the retired banker dead.

Dr. Orbison's startling testimony went to the jury that must pass on Keaton's sanity late yesterday afternoon shortly after the alienist had been called by Dep. Dist.-Attys. Burgess and Russell as the first prosecution expert.

The doctor led up to Keaton's statement relative to Shuler and his radio utterances by stating that he had examined the defendant ten times since the murder, been present while the police questioned him on one occasion and observed him since the beginning of his sanity trial more than a week ago.

DOCTOR ON STAND

And with Dr. Orbison still on the witness stand ready to give the jury additional details of his various conversations with Keaton and his medical findings as to the defendant's sanity, court was adjourned until Tuesday morning.

During his brief testimony of yesterday Dr. Orbison did not go into great detail regarding the conversation with Keaton in which Shuler and his radio activities were discussed. The conservation he testified took place on his fifth visit to Keaton while he was confined in the County Hospital.

Shuler's name was first brought into the case when police detectives who searched and questioned Keaton following the murder said they found a copy of a booklet called "Julian Thieves" and written by Shuler in the prisoner's pocket. Later Keaton denied that he ever had a copy of the booklet.

LOST ON STOCKS

Investigation developed that Keaton had lost most of his money in stock speculations and at one time had forty-five shares of a bank stock with which Flint was connected. Keaton sold the stock at a profit to himself but far below the "high."

According to some of Keaton's early statements he believed that Flint and other bankers, whose names at one time were coupled with the Julian Petroleum Corporation crash, were in some way accountable for the loss in value of his bank stock and for his more recent losses on the stock market.

A string of witnesses preceded Dr. Orbison to the stand for the prosecution, beginning with Dr. Nathan Freeman and Dr. Sidney Garfield, both of the County Hospital staff. The two physicians declared that they had taken various blood samples from Keaton and that in following tests they proved to be normal.

APPEARED NORMAL

From Alfred M. Snyder of the County Clerk's office then came testimony of Keaton calling at his office on the morning of July 14 and making inquiry regarding the courtroom in which the case in which Flint was to testify was being heard. The witness identified Keaton and declared that he appeared to be normal when he saw him.

Under cross-examination at the hands of Defense Counsel Paul D. D'Orr, who, with Thomas Reynolds, represents Keaton, all of the witnesses declared that they had not paid much attention to Keaton and

ANTI-ROLPH MOVE ASSAILED

Drys Favoring Independent Face Struggle Today; C. C. Chapman Absolutely Won't Run

Sharply divided on the question of sponsoring the entry of an independent dry candidate in November against Mayor Rolph of San Francisco, Republican nominee for Governor, leaders of various dry organizations will meet here today to discuss the matter.

The dry conference called by Mrs. Eva Wheeler, president of the Los Angeles County Federation of the Women's Christian Temperance Union, will meet in executive session to determine the scope of recommendations to be submitted to a larger and more representative meeting of dry leaders Tuesday.

That strong opposition to a dry campaign against Rolph will develop in the meeting today became apparent yesterday when several prominent prohibition law advocates confidentially expressed grave doubts as to the wisdom of raising the issue.

This attitude, apparently, was not due to any disposition to lend support to Rolph's candidacy, as it is conceded that he has not been sympathetic toward the dry cause, but was based on a feeling that the wet and dry question was not an issue in the recent primary campaign, and that Rolph, as the regular Republican nominee, will receive the support of the Republican party organization in November, thereby making his election virtually certain. The opinion was expressed that under such circumstances defeat for an independent dry candidate would be interpreted outside the State as a defeat for prohibition, thereby working great but unmerited damage to the national dry cause, of which California is one of the foremost supporters.

However, the opposition to Rolph among many dry leaders is of such a character as to lend some support to the plan for an independent candidate. The names of several individuals have been mentioned as possible material.

Chester Rowell, newspaper publisher and columnist, was urged

The Lancer

by Harry Carr

I LIKE to pick up chance acquaintances. At Bodie I fell in with a charming young couple. There were no introductions and no explanations. We took each other for granted.

Together we unearthed the picture of the luscious Rosie May, once the queen of Bodie's red-light district.

The girl stopped with the picture in her hands.

"I'll tell you who ought to see this," she said. "Harry Carr. Wouldn't he love this town—and Rosie's picture!"

"Do you think he would?" I asked, doubtfully.

"Certainly he would," she said, indignantly. "This is just his stuff. He would love it."

AN AWFUL STRAIN

Afterward in the cemetery we looked for Rosie May's grave.

"My husband and I are awfully curious about you," she said in a strained voice. "We wonder what business you are in. We have had quite a debate."

"Yes; who won?"

A pause. Then: "We feel pretty sure you must be from Los Angeles."

"That's right."

"I wonder if you have ever heard of my father (naming one of my oldest and best friends)?

"He has been sending me a Christmas present every year for twenty-five years," I answered.

"Well—then, who—"

I folded up my card until it was a little shut book.

"Here," I said, "is my card. You have to promise not to look at it until you are one mile from Bodie on the way home."

"It's an awful strain on a woman's curiosity," she said, "but I promise."

SOUVENIRS!

Bodie is the battleground of the souvenir hunters.

You hear of old houses with the dinner left on the table by long-forgotten hands—letters still in the postoffice—drinks on worm-eaten old bars. All gone now. For twenty years souvenir hunters have been looting the place. They have lugged away pianos, furniture and ancient hearses. Bodie is interesting but has a little tinge of being professionally interesting—like a five-legged calf.

THE GHOST OF AURORA

It was almost sundown when we climbed the long grade to Aurora. Aurora is a sure-enough ghost—ghastly broken walls standing against the sunset—the old Courthouse standing like a dismal skeleton—old saloons with the bars gone and ancient book-keeping books scattered over the broken floors—the ancient red-light district, now still and forlorn—a crumbled wickedness. The hill of the gallows where the Vigilantes hanged the bad men is there, but the gallows are gone.

MARK TWAIN'S FOOTSTEPS

Night had fallen and we rode with the ghosts and shadows into the quiet little mountain town of Bridgeport, where Mark Twain once lived—from every side the snow-clad Sierra peaks look down—quiet streets and very old houses shaded by great trees—green pastures in an ancient volcano crater.

THE SHEEPMAN

We met the candidate for Sheriff in front of the comfortable old 'forty-niner hotel. He is a sheepman. He tells us many things.

Sheep prices have sunk to a starvation figure. The best herders are not Basques, as you hear,

Beach-Slaying Victim Found to Have Made Numerous Visits to Lower Cali

LIQUOR BOTTLE FOUND IN TENT

New Light Shed on Deaths at Ensenada

Conlon and Miss Kentle Resort Frequenters

Police of Two Nations Seek Mystery Maniac

Francis Conlon, Pasadena athlete, who was knifed to death with his sweetheart, Lois Kentle, on Ensenada Beach, Mexico, had been a visitor to Mexican resorts and beaches for the last two years—sometimes in company with other girls and at least three times with Miss Kentle—and had connections with certain persons in Lower California through trading in paint and varnish there.

This information, which throws an entirely new light on the brutal double beach slaying that has baffled the police of two nations, was revealed last night through an investigation conducted by Harold J. Shield, private investigator, retained by Conlon's aunt, Miss Margaret Moran of Pasadena.

BOTTLE DECLARED FOUND

It also was admitted for the first time last night by any authority connected with the case that an empty liquor bottle was found at the slain couple's camp. Deputy Sheriff O. C. Macumber of San Diego county, declared that he had heard Mexican officials admit the bottle was found.

From reports made by friends, particularly by Mr. and Mrs. Bob Mahan, 467 Cypress avenue, Pasadena, it was learned that Conlon started making his Mexican tours two years ago with Pasadena youths. Mahan accompanied him on some of these and later Mahan and Mrs. Mahan were along when Conlon took Miss Kentle.

Conlon took Miss Kentle to Ensenada three times previous to the murder trip. The couple then stopped at an Ensenada hotel in company with the Mahans. The last time they visited the resort together was last Easter.

MYSTERY STRANGER

While these disclosures were expected to turn the investigation to new channels today, it was learned by The Times from Constable A. V. Jimenez in San Juan Capistrano that two nights before the local couple were stabbed to death the dark maniac, who police believe may have killed the couple, attempted a similar attack on a young couple at Capistrano Beach. This was near the town where a local married couple last Sunday said the dark maniac picked them up and gave them a ride to Tia Juana in his automobile—threatening them with death en route and remarking how he would like to "cut them up and bury them in the sand."

"The attempted attack at Capistrano Beach," Jimenez stated, "occurred late last Saturday night. A young couple were asleep in their tent when a dark man, resembling in some ways a Mexican, ripped open the canvas and dragged the man from bed.

WOMAN SCREAMS

"He lunged at the woman but her screams brought near-by campers and the assailant fled. The young couple were so frightened that they packed their camping outfit immediately and left and no official report was made to me.

"I learned of the incident while investigating the activities of the mystery man and found that several local residents recall him and his strange actions for several days preceding last Sunday when he left for Tia Juana with Mr. and Mrs. William De Tarr, the Los Angeles couple he threatened with a knife."

The bodies of Miss Kentle and her Pasadena athlete fiance, were discovered early Tuesday morning—horribly gashed by a knife and half buried in the sand near their tent on the ocean front.

Tom Ricardes, Capistrano truck driver, who makes regular trips down the coast, told Constable Jimenes yesterday that he has seen the mysterious dark stranger several times at various points along the Coast highway between Capistrano and San Diego.

Mrs. Harry Ainsworth, her young daughter and a companion, also reported they had seen the man at Sierra and had been warned by men there of the stranger after he had made advances to the trio.

NEW REPORT

Police here believe the suspect may be in Los Angeles or en route back to Utah following a report made yesterday by F. Erb, Hollywood gasoline-station operator, that a man of the same description and driving a similar car bought gasoline from him late Thursday. The man left his motor running, acted extremely nervous and sped out of the station as soon as the car's tank was filled, Erb stated.

It is possible, investigators declared, that the wild-eyed stranger, dark, with his hair streaked with gray, with a gold front tooth, is the same one Mrs. Sylvia Otis, 326 Broadway, Norwalk, was warned against by a Russian Ensenada rancher.

The woman and her husband, she told acting Captain of Detectives Condaffer and Detective Lieutenant Filkas yesterday, were camped five miles below Ensenada—two miles south of the Conlon-Kentle tent—from the 24th inst. until Thursday. They were warned by Bacilio Conobrachoff, the rancher, to watch out for a Mexican who had threatened to kill any Americans he found on the beach.

This information was forwarded to Mexican officers, who expect to question the Russian today.

Meanwhile the Lower California and San Diego county investigations practically were at a standstill yesterday—checked by the lack of definite leads for a motive for the brutal stabbing and mutilating of the 21-year-old University of California at Los Angeles sorority leader and her Pasadena High School athlete sweetheart.

The theory that it was a love-killing was practically abandoned yesterday when Los Angeles police thoroughly checked back on the lives of the young couple and found that reports of a quarrel between two automobile salesmen and Conlon, assertedly over the affections of Miss Kentle, proved groundless.

ANGER AROUSED

One salesman, according to Pasadena police, aroused Conlon's anger over payment on the new light coupe that carried him and his fiancee to their Ensenada death tryst.

The other, asserted by Donald McFee, employed in the Monrovia paint store with Conlon, to be a Hollywood automobile salesman for an exclusive foreign make of car, proved on investigation to be a foreigner who had never heard of Conlon or the girl.

Filkas declared last night the local homicide squad has cleaned up its investigation unless new clews lead here. A lookout is to be kept by officers of the Southland for the mystery man's touring car.

Mexican police continued to hold in jail an evidently demented Japanese, found wandering on the Ensenada beach the day following the crime, and two Russians. The trio, the Lower California authorities admitted, probably will be released.

Funeral services were conducted for both victims yesterday, those for Miss Kentle at the Wee Kirk o' the Heather, Forest Lawn Memorial Park. Final rites for Conlon, 23 years of age, were conducted at Calvary Cemetery.

"NOT FOR ME," SAYS C. C. CHAPMAN

FULLERTON, Aug. 29. (Exclusive)—C. C. Chapman of Fullerton absolutely will not be an independent candidate in the gubernatorial race to oppose Mayor James Rolph, Jr., in the November general election, he declared this afternoon at his ranch office here.

Chapman has been prominently mentioned as a possible dry candidate on an independent ticket in a movement started in Los Angeles following the nomination of Rolph on the Republican ticket in the Tuesday primary election. Commenting on the reports today, Chapman said: "In the first place, it would not be the right thing to do, and in the second place it is not the time now. Any move such as that should have been made prior to the primary election.

"I would not try to enter the race now; it would be like trying to chase a rabbit after some one has already caught it. Most loyal Republicans would support the party candidate, and I wouldn't want to be a candidate under such circumstances."

Mr. Chapman was a strong supporter of Gov. Young, and intimated in his comment on the proposed independent candidacy that he had little faith in the possibility of support at this time under any circumstances.

"They called me at my office in Los Angeles yesterday and I told them no, but they keep at it," Mr. Chapman said, referring to dry leaders who have sought to persuade him to enter the race.

COUNT OF VOTES ALMOST COMPLETED

SAN FRANCISCO, Aug. 29. (AP)—Only 147 precincts in the State's total of 10,283 remain to be counted tonight and they are expected to make no difference in the standings of candidates in the California primary election of Tuesday.

On the basis of a tabulation of 10,136 precincts late today, Mayor James Rolph, Jr., of San Francisco, winner of the Republican nomination for Governor, polled 373,846, as compared to 348,928 for Gov. Young, his nearest opponent.

Buron Fitts, Los Angeles District Attorney, was third, with 287,211. Clara Shortridge Foltz, sister of United States Senator Shortridge, showed a total of 3482. Milton Young acquired 15,079 on the Republican ticket and 43,116 as a Democrat.

Upton Sinclair, Socialist writer of Pasadena, polled 1582 and received the nomination on the Socialist ticket.

Frank F. Merriam, Long Beach State Senator, retained his lead, and his victory, in the race for the Republican nomination for Lieutenant-Governor. With 9885 precincts totaled, Merriam led H. L. Carnahan, incumbent, Los Angeles, by more than 17,000 votes. The ballot: Merriam, 243,123; Carnahan, 223,643; State Senator Tallant Tubbs, San Francisco, 219,505; Harry A. Chamberlin, Los Angeles, 107,866; William I. Kingsley, San Diego, 45,730.

SLANDER SUIT JUDGMENT OF $25,000 CUT TO $1000

From $25,000 to $15,000 to $1000 formed the record of the dwindling of damages for slander in an action on which the District Court of Appeal handed down a decision yesterday.

Furthermore, the Appellate Court ordered that unless within thirty days the plaintiff shall release all but $1000 of the judgment rendered by the trial court, the judgment is to be reversed.

The action was brought in Superior Court by Anne Meyers, Haakon Berg and Sigrid Meyers, executors of the will of Stephen M. Meyers, were defendants and appellants. A jury awarded the plaintiff $25,000, which amount, at the time when a motion for a new trial was denied, was reduced by the court to $15,000. The reduction to $1000 was made by the Appellate Court.

It was stated that the person to whom the slanderous remark was made, did not believe in the truth of the statement and never repeated it to a third person other than the plaintiff, her attorney and an investigator for the lawyer and then only at the solicitation of each of them. Under the circumstances, the court held, the verdict was excessive.

JUROR EXCUSED

By stipulation of counsel, M. Alfred Flickeringer, juror No. 9, was excused late yesterday afternoon from service in the case on account of illness, and his seat filled by Warren D. Alexander, one of the alternates.

Burgess and Russell announced at the close of yesterday's court session that probably all of next week will be needed by the prosecution to present its side of the case.

PAMPHLET "FINDER" MUST PATROL BEAT

Acting Detective Lieutenant Kynette, who revealed that a copy of Rev. R. P. Shuler's pamphlet, "Julian Thieves," had been found on the person of Frank Keaton, slayer of Motley Flint, yesterday was ordered transferred from the Central homicide squad to Boyle Heights division. He will wear a uniform and walk a beat beginning Monday.

Reports that Shuler had been instrumental in effecting the transfer of Kynette were denied by Chief of Detectives Taylor. The latter stated he had received no orders from anyone to move the detective, but had issued the instructions himself "for police reasons." He explained that Inspector Davidson recently was given command of the homicide squad with orders to place it on a better working basis and that it merely had been decided to remove Kynette, who ranks as a patrolman, in order to make way for a more experienced man.

Woman Earner Denied Divorce

When a wife earns nearly twice as much as her husband, having her relatives buy her clothes is not mental cruelty, Superior Judge Lambert commented yesterday in granting a nonsuit of Mrs. Frances McDaniel's action for divorce from Charles McDaniel. Mrs. McDaniel said she earns $250 a month, and that her husband never earned more than $145. She said her own money went to purchase a home, and that her sister bought her clothes for her.

An application by the Mohawk Petroleum Corporation for a twenty-one-year franchise to construct and operate a system of oil pipe lines, not exceeding three in number nor ten inches in diameter, along the first alley south of Washington street, Grand Canal esplanade and Forty-third avenue in Venice yesterday was approved by the Board of Public Utilities and Transportation and recommended to the City Council.

VOICE BETRAYS KILLER SUSPECT

Mother of Victim Declares She Recalls Inflection

Mrs. Hatch Also Identifies Prisoner by His Face

Murder Charge Directed at Robbery-Case Man

From behind the fine wire screen of the County Jail shadow box a robbery suspect yesterday literally talked himself deeper into the meshes of the law. For by the sound of his voice as it came from the darkness, Percy Eberly, awaiting trial for a recent pay-roll hold-up, paved the way to his identification a moment later, police say, as the burglar who killed E. M. Hatch in the home of his parents, Dr. and Mrs. M. A. Hatch, at 2149 Echo Park avenue, April 8, 1927.

Eberly was identified, according to Detective Lieutenant Sanderson, by Mrs. Hatch, mother of the slain man, first because his voice had a familiar ring and his diction a familiar perfection; and second because his face had made an indelible impression on her memory.

PRINTS CHECKED

Eberly has been in the County Jail since July 1, last, when he was taken in custody as a suspect in connection with the pay-roll robbery. He was held to answer and is awaiting trial.

On Thursday Police Fingerprint Expert Barlow was comparing fingerprints of prisoners with those docketed as clews in unsolved crimes of the past. He told Capt. Condaffer one of Eberly's fingerprints matched one that had been taken from a door in the Hatch home three years ago, after a burglar had slain young Hatch. Eberly promptly was rebooked on charges of murder and robbery.

Yesterday Detective Sanderson escorted Mrs. Hatch to the County Jail in an effort to identify Eberly.

VOICE NOTED

"I used to teach languages," she told the officer on the way, "and I think I would know his voice. Not only that, but I remember that he appeared better educated than the average burglar. For instance, I noted that he commanded me to 'lie down on the floor,' instead of saying 'lay down,' when he switched on the light as I entered the house with my son."

So they sent Eberly into the darkened box and asked him some questions from the outside. The moment he spoke, according to the officer, Mrs. Hatch said: "That's the man!" Then Eberly was brought into the light and Mrs. Hatch made the identification complete.

Police today will ask the District Attorney's office for a murder complaint against Eberly.

DR. MICHELSON TO RESIDE HERE

this tube over a distance which the experimenter can check himself.

Dr. Michelson's early experiments underlie part of Einstein's theories and his accurate determination of light velocity has given astronomers a yardstick with which they are attempting to measure the universe. Astronomers measure the vast distances between the earth and the stars in terms of light years, the time it would take light to travel between heavenly bodies, so the importance of accurate determination of light velocity is a keystone in the foundation of astronomical science.

Even from a practical standpoint, the speed of light has at least one application, the saving of time and expense in measuring distances. An official of the Coast Geodetic Survey found that to measure accurately the distance between two points in a mountainous district about 100 miles apart would require two years by ordinary surveying methods. By using the light-flashing method however, he discovered that the same work could be done more accurately within two weeks.

Police Slayer Suspect Likely to Go on Stand

Juan Reyna, on trial before Superior Judge McComb charged with the murder of Verne Brindley, Los Angeles police officer, is expected to take the witness stand in his own defense when the trial is resumed next Tuesday.

The case was continued late yesterday until Tuesday because of the Labor holiday Monday.

Reyna is accused of seizing Officer Brindley's revolver when the latter arrested him for a traffic violation and was transporting him to Central Station for questioning.

During the trial Reyna, through his attorney, C. V. Rude, has sought to show that the officer beat him over the head with his pistol shortly before the shooting causing him serious injury.

The case is being prosecuted by Dep. Dist.-Atty. Ugene Blalock.

SON WILL ADMINISTER ESTATE OF WELLBORN

Olin Wellborn III yesterday was appointed administrator of the estate, valued at $10,000, of his father, Charles Wellborn, former Superior Court judge here. Judge Wellborn died July 26, last, leaving no will. The petition for letters of administration was filed by the son after the right to handle the estate had been waived by his mother, Mrs. Leila Jones Wellborn, 2 Chester Place. The legal heirs, besides the widow and son, are Wildred Wellborn Young, daughter; Charles Wellborn, Jr., son, and Dorothy Wellborn Howard, daughter.

HERO'S CHILDREN RECEIVE HELP

They Mourn for Father and Husband

Mrs. Hugh D. Miller with her fatherless children, Donald, Darlene, Betty Jane and Harold Hugh.

TINY HUGH MILLER does not know of the heroic death of his father who died the 22nd inst. from burns suffered when he rushed through a raging inferno of blazing gasoline to close a valve preventing an explosion that would have taken other lives and damaged property.

Hugh, named for his father, Hugh Donald Miller, was 3 days old when the flames robbed his mother and an older brother and two sisters of the husband and parent. Yesterday at the modest home at 3959 San Juan street, South Gate, he rested in the arms of his mother as she graciously received checks totaling $136 sent her by citizens who were impressed by the heroism of her late husband.

In extending her thanks, Mrs. Miller announced that she will use the money in equipping the three children for school, but will retain an equal portion of it for Baby Hugh as a savings and remembrance for the father who died that others might not suffer.

Contributions yesterday bringing the total received to $136 were: Edwin S. Cohen, Bank of Italy, $5; Mrs. H. N. Lockwood, Pasadena, $10; Mrs. W. D. Lacey, Pasadena, $5; Goldie H. Finn, Los Angeles, $1; A Friend, $5; Swartz Service Station, $5; W. B. Cline, Los Angeles, $20; C. A. Lux, Los Angeles, $10; Robert J. Munao, Santa Barbara, $10; Mrs. J. B. Stetson, $10.

The affair is being presented by the six Los Angeles daily newspapers as a feature of the National Radio Show Beautiful preview for the profession in the Ambassador Auditorium. On the following afternoon the show will open to the public.

The list of entertainers already includes Eddie Quillan, Pathe comedian; John Scott, concert tenor, also of Pathe; Gus Arnheim and his Coconut Grove Orchestra; Rube Wolf of Loew's State and Jack Carter, "the boy from London," master of ceremonies.

The entire program will be broadcast over stations KNX, KTM, KHJ and KFVD.

Bond Set for Imy on Twenty Forgery Counts

Admitting that he obtained approximately $5500 by issuing and cashing county pay checks to fictitious persons over a period of two years, Harry H. Imy, former chief clerk of the County Architect's office, yesterday waived preliminary hearing before Municipal Judge Turney on twenty counts of forgery and was held for Superior Court trial under $5000 bail. He will plead guilty, he indicated.

Dep. Dist.-Atty. Coleman introduced an asserted confession, made by Imy to Dep. Dist.-Atty. McIsaac after his arrest last week, into evidence.

WOMAN IN SHOOTING IMPROVES

Widow of George Green Who Killed Asserted Rival Goes to Another Hospital

After unexpected improvement, Mrs. Betty Green, 38 years of age, shot in the neck by her husband, George F. Green, a few seconds before he shot and killed Guy Davis, 31, and himself, Thursday night, was removed yesterday to the General Hospital from the Georgia-street Receiving Hospital. Police surgeons say she may recover.

No inquest will be conducted into the deaths of Green and Davis.

The shooting, described by police as a triangle affair, took place in the apartment of Davis at 431 West Sixty-third Place. J. W. Swind, a room-mate of Davis, told detectives Mr. and Mrs. Green and Davis had been drinking home-brew beer at the Green home at 1409 Maple avenue, and had gone to Davis's apartment later.

Green, Swind said, had remarked that Davis was trying to break up his home and a few moments later whipped out a revolver and shot his wife, then Davis and himself.

PASADENA JAPANESE FLIES HOME

Chop-Suey Man Lands Sport Biplane at Tokio After Long Journey

Zensaku Azuma, flying Pasadena chop-suey man, saw his lifelong wish come true yesterday in Tokio, when he landed the little sport biplane which he flew home from here—a trip of nearly two-thirds around the world.

Friends received a cable here yesterday from the chunky little Japanese pilot, telling of the successful completion of his flight.

For several years Azuma saved the meager earnings from his Red Wing chop-suey parlor in Pasadena, took flying lessons, bought himself an airplane and set forth on June 15, last, to fly it across the United States from Los Angeles Metropolitan Airport to New York.

He went by boat from there to London, then reassembled his Travelair open biplane, powered by the same kind of a Wright motor that was in the trans-Atlantic Lindbergh ship, and hopped across Europe. From Moscow on Azuma soared over barren wastes of Eastern Russia and Siberia, dipped down over China and finally touched his wheels on home soil.

In Pasadena there is a comely Japanese woman—Azuma said it is his fiancee, whom he intends to marry on his return—thrilled over the success of the first Japanese to complete so long an air journey. She said she is his wife and that Azuma is coming back to Pasadena to take her home—but not by air.

Two Boys Hurt Badly in Crash of Automobiles

Possible skull fractures were suffered by two boys and a third was injured when an automobile in which they were riding collided with another car at East Ninth street and Northside Drive yesterday morning.

The mishap occurred, according to a Sheriff's report, when a light roadster driven by Roderick North, 15 years of age, 6035 Southside Drive, in which his brother, Philip, 13, and Arnold Barkes, 8, both of the same address, were riding, collided with a sedan driven by Herman Van Remmen, 3022 La Salle street.

The three boys were removed to the East Los Angeles Emergency Hospital by Van Remmen and later to the General Hospital, the North brothers apparently suffering from skull fractures. The Barkes boy is believed to be less seriously injured.

Action on Hall Reconsidered

At the request of Councilman Ingram, the vote whereby Frederick M. Hall was confirmed as City Public Defender was reconsidered yesterday and the nomination of Hall by Mayor Porter was referred to the Police and Fire Committee for further consideration.

Ingram said he wants to ask Hall "some questions."

GOLF ROW RESULTS IN FISTICUFFS

Ex-Manager of Course and Owners' Friend Do Battle in Prosecutor's Office

Argument between Mr. and Mrs. John Bradley, owners of a miniature golf course at 1131 West Seventh street, and Frank Kerwin, former manager of the course, again reached the courts yesterday after Kerwin and Raymond Gage, former football player and a friend of the Bradleys, waged a fistic battle in the office of City Prosecutor Johnson. Both men were arrested by Chief Investigator Thomas and charged with disturbing the peace.

Kerwin visited the Prosecutor's office yesterday to ask a complaint against the Bradleys for unlawfully holding possession of the golf course, the same offense with which he is charged by them in Municipal Court. When Deputy City Prosecutor Carr refused to issue the complaint Kerwin turned to the Bradleys, who were present with their attorney, Bingham Gray, with a volley of profanity, which Gage stopped with a blow to the jaw, according to the Prosecutor. Thomas took a hand in the conflict and arrested both men.

They later appeared before Municipal Judge Curtis and pleaded not guilty to disturbance of the peace charges. Each was released on $100 bail pending trial.

Mrs. Strelinger Dies Suddenly in Heart Attack

A sudden heart attack early yesterday morning caused the death of Mrs. Mary Penfield Strelinger, mother of Seth W. P. Strelinger, former State Boxing Commissioner and now head of the Hollywood office of the brokerage firm of Banks, Huntley & Co. Mrs. Strelinger, who was 74 years of age, lived with her husband, Charles A. Strelinger, at 710 North Rexford Drive, Beverly Hills, next door to the home of her son.

She had been active in the affairs of the Beverly Hills Community Church since coming there three years ago, and for a number of years past had devoted much of her time to the affairs of the Presbyterian Synod of the United States, of which she was a member.

In addition to her husband and her son in Beverly Hills, she leaves another son, Gilbert Strelinger of St. Louis, and a brother, W. B. Penfield of West Hollywood. In order to allow time for her son to reach here from St. Louis, the funeral services have been set for next Wednesday at 10 a.m. They will be conducted at the Beverly Hills Community Church by the pastor, Rev. Arthur Lee O'Dell. The funeral arrangements are in charge of B. E. Dayton, Inc., 417 North Maple Drive, Beverly Hills.

Florists will Visit Studios as City Guests

More than 500 members of the Florists' Telegraph Delivery Association, meeting in Los Angeles for two days before going to San Francisco, where they will hold their annual convention, will make a trip to Hollywood and Beverly Hills motion-picture studios this morning to be followed by a barbecue at Fryman's Ranch in Laurel Canyon in the afternoon.

Yesterday they went to Catalina Island. They are scheduled to leave for San Francisco at 5 p.m. today. The session there will open Monday and will continue five days. Prizes are to be awarded for the most artistic floral designs.

June Vanderbeck, California botanist, yesterday visited the floral display at the association's headquarters at the Hayward Hotel, where she said that almost every variety of flower grown in the United States can be found.

Angeleno Wins High Air Post

Robert J. Pritchard, president of the Southern California chapter of the National Aeronautical Association, has been elected first vice-president of the national body, according to word received here yesterday from Chicago, where the annual convention is in progress. Senator Bingham of Connecticut has been re-elected president and C. F. Lienesch, technical engineer of the Union Oil Company and a director of the local chapter, elected governor for California.

Pritchard has been a member of the Southern California chapter board for five years and served last year as vice-president. His term as president will expire in October. He helped organize the California Air Race Association, which sponsored the national meet here in 1928. He is a director of the California Aircraft Industry Association, editor of Western Flying and Airport Construction and Management, aviation journals, and a former member of The Times' staff.

Found in possession of nearly $50 worth of merchandise reported stolen from downtown stores, Mrs. Anita O'Brien, 30 years of age, 163 Fir street, Montebello Gardens, was arrested yesterday as she left a store at 621 South Broadway and was booked on suspicion of burglary and petty theft. The merchandise included bottles of mouth wash, razor blades, shoe strings and articles of wearing apparel. Mrs. O'Brien told police another woman had handed her the goods to hold, with instructions to meet her at Fourth street and Broadway. In her purse investigating officers found $108 in cash.

Water-bound commerce through the port of Los Angeles during the fiscal year ending June 30, last, totaled 25,920,159 tons, valued at $1,055,808,494, according to the annual report of the Board of Harbor Commissioners, made to the City Controller's office yesterday. This is the second consecutive year for the harbor's commerce to exceed the billion-dollar mark and it passed last year's commerce in value by more than $17,000,000.

No Tin Hats for Engineers at Dam Site

Steel trench helmets like those used by the soldiers of the A.E.F. during the war overseas are sought for protection against falling rocks by surveyors assisting the grand jury's civil engineers who are making a check of the amount of dirt excavated at the abandoned San Gabriel dam site. However, the Los Angeles County Flood Control District has no legal right to purchase them for the men.

This was the ruling yesterday by Attorney Roy W. Dowds, county flood-control counsel, following a request by Franklin Thomas, one of the grand jury's engineers, for the helmets.

The request followed an accident at the dam site when one of the surveyors was struck on the head by a falling rock.

According to Dowds the surveyors are hired by the grand jury in connection with that body's investigation of the yardage excavated and they are county and not flood-control employees, therefore, the district cannot buy helmets for them.

Goodwill Plea Made for More Clothing Gifts

Goodwill Industries of Southern California, through F. H. Blair, superintendent, yesterday addressed an appeal to citizens to respond to its need of discarded clothing and rags. Instead of the customary 1000, Blair said, only 400 filled Goodwill bags have been received daily during recent weeks.

Nearly 500 persons are given employment by Goodwill Industries, it is pointed out, and each day more than 100 others apply for work; but unless more discarded articles are donated by the public it will be necessary to throw many out of employment. The organization depends almost entirely on this type of public support for its existence, receiving less than 2 per cent of its annual budget from the Community Chest.

Goodwill headquarters is at 342 North Main street.

Woman's Photo Breaks up Home

A woman's photograph inscribed, "To one I love—with love," and signed "Irene," found in her husband's pocket, wrecked the marital happiness of Mrs. Beatrice V. Frabasilio, according to her complaint for a divorce filed yesterday against Connie Frabasilio.

Mrs. Frabasilio accused her husband of cursing her. Once, she recites, she found him at a beach dance hall in company with another woman and he picked up the woman and disappeared with her.

WIFE SAYS SPOUSE FALSELY ACCUSED

"Second class" is what her husband called her in the presence of friends, Mrs. Ruth M. Aldridge complained yesterday in getting a divorce from Thomas Jefferson Aldridge. She added that her husband falsely accused her of having been on wild gin parties when she returned from respectable "hen" parties. Superior Judge Falk granted her a decree, and custody of her children, Helen, 10 years of age; Katherine, 9, and Thomas, 6, and ordered Aldridge to pay $50 a month for their support.

NEWBORN INFANT'S BODY UNDER TREE

Investigators from the Sheriff's office last night were searching for the mother of a newly born baby whose body was found yesterday morning beneath a tree in the 1100 block on Alta Loma Road, Sherman. The dead infant, according to a Sheriff's report, was discovered by Ecke Werner while he was on his way to work. Officers declared the body had been there about twenty-four hours.

Baked Apples—Core and pare nice large juicy apples and put one teaspoonful of molasses into each cavity, then fill with stewed dates. Place apples in the baking dish, cover and bake until they are soft but not long enough to cause the apples to lose their shape.

To prevent sausages from breaking or shrinking in the frying pan boil them about eight minutes before frying them. Rolling sausages in flour, then sprinkling them with cold water before frying will also prevent them from breaking.

To kill cooking odors of cabbage, green or white beans, onions, chicken, mutton or kraut, put in with the meat or vegetables a piece of red pepper, size of a 10-cent piece, when starting to cook them.

We know exactly the place to dine you are seeking! It's on the Coast highway halfway between Los Angeles and San Diego, and the name of the place is Travaglini's Cafe San Clemente. Remove onion odors from a dish by boiling up water containing a little carbonate of soda in the dish for ten minutes.

To remove jelly from molds—When making jelly grease the molds with butter or olive oil. When the jelly is to be turned out plunge the mold an instant only in hot water, or fold a hot cloth around it for a few minutes, and invert it over a place. If a jelly breaks in turning it out of the mold chop it up roughly and serve it in custard glasses.

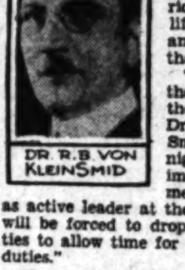
BREAKFAST CLUB LOSES PRESIDENT

Dr. Von KleinSmid Quits Post Under Pressure of University Duties

Dr. Rufus B. Von KleinSmid, president of the University of Southern California, resigned yesterday as president of the Breakfast Club. His successor will be named within two weeks, it was stated by Maurice DeMond, life president and founder of the club.



DR. R.B. VON KLEINSMID

"Opening of the fall term at the university," Dr. Von KleinSmid said last night, "makes it impossible for me to continue as active leader at the club. I also will be forced to drop other activities to allow time for my university duties."

The educator stated that he had notified the club's board of trustees last June he would be unable to fill the honorary post, but that he let the resignation lapse during the summer when the full-time university schedule was not in operation.

Gartside Case to be Resumed Next Tuesday

Trial of Hilton Gartside, accused of grand theft of $8510 from E. H. Shaw & Co., Los Angeles brokers, will be resumed in Superior Judge Aggeler's court Tuesday, according to an agreement between defense and prosecution counsel yesterday.

At that time Richard Cantillon and Donald MacKay, defense attorneys, are expected to question two witnesses concerning the testimony of C. H. Reid, former employee of the Shaw firm, who originally was charged with the theft jointly with Gartside and pleaded guilty and was given a County Jail sentence. He later appeared against Gartside.

Tailor Stabs Foreman When Refused Work

Climaxing an argument with an acquaintance seeking employment, Leon Meroddian, foreman of the tailor shop at a downtown department store, was stabbed in the right arm and shoulder with a pair of tailor's shears yesterday forenoon. The wounds were not serious, police said.

Harry Finer, 50 years of age, of 1705 West Fifty-ninth Place, was arrested on suspicion of assault with a deadly weapon. Finer, according to Georgia-street division detectives, called on M. L. Pressler, buyer for the men's clothing department in the store, and informed him that Meroddian had employed him.

Pressler, suspecting a misunderstanding, called Meroddian in and the latter declared he had only told Finer that he might be given employment. In the ensuing argument Finer became enraged, police said, and attacked Meroddian with the shears.

PRINCIPAL SAYS PAIR NOT OF MANUAL ARTS

Jacques Samaniego and Wilbur Mossberg, both 20 years of age, now awaiting trial for the murder of Ralph O. Trump during a hold-up October 24, 1928, are not former pupils of Manual Arts High School, as has been stated, Albert E. Wilson, school principal, said yesterday. The registrar's office, according to Wilson, has been unable to find any record that either youth ever registered at the school under the name by which he has been booked. Samaniego and Mossberg were arrested on the 2nd inst. Questioning, according to police, resulted in confessions that they are the bandits who killed Trump nearly two years ago.

CAMP SESSION ENDED BY SALVATION ARMY

The Salvation Army, south coast division, last night ended a three-day session at the organization's fresh-air camp at Redondo. Speakers included Col. John Sharp, Adjt. Lloyd Doctor, young people's secretary; Commissioner Henry C. Hodder and Mrs. James C. Bell, wife of Brig. Bell, commanding officer of the division. Brig. Bell presided. Hundreds of working mothers and their children have been cared for at the camp during the summer, and it is now being given over to vacations for the aged and the convalescent.

REPETITION OF OFFENSE EARNS JAIL

Actor Pleading Guilty to Drunk Driving Appears in Court Intoxicated

Accusing James Murray, film actor, of being intoxicated yesterday when he appeared for sentence on a drunk-driving plea, Superior Judge Mahon imposed a jail sentence instead of the light fine he had contemplated.

Murray had pleaded guilty to a drunk-driving charge when tried last week, but he failed to appear yesterday when called for sentence. The judge ordered the actor brought in by the Sheriff, but his attorney's frantic telephoning was rewarded presently by the arrival of Murray.

"You are intoxicated now," Judge Mahon said sternly. "You have forfeited your right to leniency.

"I had planned to give you a light fine, because I believed you would make good your promise of sobriety given when you pleaded guilty. But I see that liquor is your besetting sin. I'm going to send you to jail where you can't get it and where you must realize you must leave it alone. Were my own son in your place I should want the judge to do likewise."

Today's Bible Text

We hear that there are some which walk among you disorderly, working not at all, but are busy-bodies. Now them that are such, we command and exhort by our Lord Jesus Christ, that with quietness they work, and eat their own bread. But yet, brethren, be not weary in well doing.—II Thess. iii, 11-13.

LIT

An Ohio man lit a cigarette and an oil well simultaneously. This will be a sad lesson to him in the future. However, it may be remarked that he has no future.

UNIFORM

Uniform traffic laws will be all right if uniform violations are not adopted, says a contemporary. However, men in uniform at frequent intervals will be useful in all this uniform business.

OVERLOOKED?

Census enumerators are said to have overlooked 40,000 persons in St. Louis. Many of them may have been up in the air making long-distance endurance records in the flock of Spirits of St. Louis. In that case they may have been underlooked.

CAPONE'S CHICAGO?

The disclosures from Zuta's strong box were not reassuring to Chicago citizens. But the astounding thing is that the racketeers seem to decide when to start and when to stop. Who owns Chicago? Is it being governed by remote control from Florida?

ANTISMOKES

One of the issues the Oregon voters will have to settle in November's election will be whether the manufacture, sale, importation, possession, purchase or gift of cigarettes shall thereafter be illegal in that State. Possessing about a fifth of all the timber land of the country, the matter is naturally a fiery issue.

THE WORLD'S WILD MAN

A Julian well has been running wild in Oklahoma and the State officials have been unable to put any check or muzzle on it. That is the way with all of the Julian stuff. It runs wild and refuses to be checked up. Oklahoma should have been able to regulate this promoter even if they had to put four-wheel brakes on him.

CODE FOR FLYERS

Col. Lindbergh has a new mission. What the world needs is a uniformity in international flying regulations. States and countries should be able to agree upon a code of practical service to all pilots. It is this which the gallant colonel is urging and he is in position to advance the cause better than any other human. He is as popular in Europe as at home. He will be listened to.

GOOD TIME TO BUY

Now is the time. Those who buy now are finding prices at the bottom. They are lower than they have been for some time, or like to be again. So the buyer is not only saving money for himself, but he is stimulating business and easing the unemployment situation. All these are well worth while. Folks do not have to buy from a sense of duty or to prove their patriotism, but if there is anything in the market they need this is the hour to take it on.

HOGGING THE LANDSCAPE

Road-hogging is bad enough, but hogging the landscape is even worse. This fact is recognized by the American Institute of Architects, each chapter of which will take part soon in the movement to abolish billboards along the public highways. Every member of the Institute is urged to do all in his power to abate this unsightly nuisance.

As a rule, the modern architect is a man of esthetic ideas. He has come a long way from the period of the ugly East Lake facade, the gingerbread gable and flaring finial. Billboards were not greatly objected to in those days and they did not stare at the traveler from every turn of the highway, as they do now.

Today there is great and increasing resentment against the hogging of the landscape by advertisers. From a cultural viewpoint this is an encouraging sign. It denotes that the barbaric billboard age is passing and that it will not be very long before this mode of destruction of wayside beauty will cease.

AN INDEPENDENT FOR GOVERNOR?

As a consequence of Mayor Rolph's capture of the Republican nomination for Governor, dry organization leaders are seriously discussing the possible entry of an independent dry candidate against the Republican nominee in the November election.

That Rolph is not in sympathy with prohibition, that he is liberal in his views and that he might openly favor modification of the dry laws if the issue were raised and if he could do anything about it, may be conceded. There is little reason, however, for regarding his nomination in Tuesday's primary as a wet victory—and this notwithstanding the indorsement of Gov. Young by the Anti-Saloon League and other dry organizations. Despite that ill-advised action, which aided Rolph much more than it did Young, prohibition was not an issue in the campaign. It is probable that a neutral attitude on Young and Fitts by the leaders of various dry groups would have materially increased, if it did not actually assure, the chances of one or the other for the Governorship.

This conclusion is based on the showing of Young in Southern California, where dry sentiment is strongest. The Governor received some votes in this territory which, except for the dry indorsements given him, would logically have gone to Fitts. On the other hand the gratuitous injection of the wet-dry question undoubtedly threw votes to Rolph which otherwise would have gone to Young. As the situation now stands, the wet element in California cannot in any sense claim a victory by reason of the outcome of the Republican gubernatorial contest. There is no reason for giving them an opportunity to claim such a victory.

There is no question as to the majority dry sentiment in California nor as to the desire of the various agencies supporting prohibition, including the Los Angeles Times, so to maintain it, not only in fact but in the eyes of the country at large. California is the sixth State of the Union and its influence in this as in other national questions is considerable. We cannot afford to jeopardize that influence by a vote the probable results of which would be open to the gravest misinterpretation elsewhere.

Rolph is the nominee for Governor of California of the Republican party, overwhelmingly the dominant party of the State. He was so designated at a regularly held nominating election in which participated more than 60 per cent of the State's registered Republican voters. Our whole system of government, State and national, is based on the principle of majority rule by parties, a system which has amply proven itself as the best and most satisfactory one which 150 years of experience has been able to devise.

Unquestionably, in the event of such a contest as is contemplated, Mr. Rolph would have the support of the State Republican organization and a great majority at least of its county units. Such support would be on strictly logical party lines and would not recognize even the existence of a wet-dry issue. Of itself, such support would mean an enormous vote for Rolph. Add to it the thousands of votes cast for Rolph at the primary by those who favor him personally and not primarily for wet or party reasons and the additional thousands who believe in sportsmanlike acceptance of a majority verdict in a fair fight—and it becomes obvious that Rolph would literally overwhelm any independent candidate who could be brought against him.

In the meantime, however, the contest would have been blazoned to the country at large as a California referendum on prohibition, a clean-cut contest between a wet and a dry for the State's highest office. Actually it would be nothing of the kind but its result, in the eyes of the world, would be a terrific defeat for prohibition. It would take California from her place at the top of the list of States favoring prohibition and put her in the wet column. It would be the most serious reverse which the dry cause has yet suffered, but one in no sense based on the merits of that cause.

The Times actively opposed the candidacy of Rolph for a variety of reasons, but it did not feel, and so declared—as did also each of the three leading contenders—that prohibition was an issue in the campaign. Logically it could not have been made an issue. The Governor of California cannot change or modify in the slightest degree the prohibition statutes and, in the face of a majority dry sentiment, his personal attitude is of no serious effect. When he takes the oath of office Rolph will make a solemn pledge to uphold the Constitution of the United States. His own declaration that he does not intend to meddle with prohibition in the Governor's office adds something to the general grounds for belief that his election will constitute no threat to the dry cause in California.

With no doubt whatever as to the honesty and sincerity of those sponsoring the plan for an independent candidate, The Times is convinced that, in carrying it out, they would be doing the greatest possible disservice to the dry cause which they—and The Times—support.

THE CAT ESCAPES

The secret of the brilliant speeches, the scintillating interviews, the biting irony, of certain Democratic statesmen at Washington is at last out. Old-timers outside the capital have been rubbing their eyes at the display of Democratic fighting spirit that has been in evidence for the past year and a half—fighting spirit in a party that traditionally goes into coma after every defeat until nearly time for the next defeat to roll around.

It has been different during the Hoover administration and in an article in the September Scribner's Frank R. Kent tells why. There has seemed something not quite natural about the actions of the old Bourbon wheel-horses and the reason it has not seemed quite natural is that it isn't natural; it's machine made. It's propaganda originated by Charles Michaelson, head of the Democratic publicity bureau and paid for by John J. Raskob.

It is Michaelson, according to Kent, who writes the speeches, the statements and the interviews, picking flaws with the Hoover administration, and they are put out in the names of various selected Democrats who themselves haven't had an idea in the last eighteen years. For doing this job Michaelson, formerly employed at Washington by the New York World, receives $25,000 a year and Raskob is personally backing the press bureau to the extent of $250,000.

"To sum up," says Mr. Kent, "the whole aim and idea of Mr. Michaelson's employment is to put Hoover 'in bad' with the American people. That is what he was hired for . . . If Michaelson, the paid propagandist, said it, it was not news. If Senator Harrison or Jack Garner, or Caraway, or Walsh, or George, or Tydings, or any one of a dozen other Senators and Representatives said it, it was news. The fact that the words, the music and the ideas were Michaelson's made no difference. That would be known, of course, by any reasonably intelligent correspondent, but not by the public. . . . And this . . . filled the Democratic statesmen thus used as his mouthpiece with great delight. They were—and are—enthusiastically co-operating in the Michaelson game. He does not have to draft them now—they volunteer. He gives them personal publicity that is practically priceless."

Mr. Kent has made a complete case, proving that the great Bourbon offensive is a sham and a hoax, paid for by the Raskob millions. Nearly everything goes in politics, but this variety of fakery oversteps the limit.

Now that the secret is out, of course, the campaign will defeat its own object. Mr. Kent, who has not been particularly friendly to the Hoover administration (his own principal employment is by the Democratic Baltimore Sun,) has performed a genuine public service by this exposure and has shown up a number of Democratic statesmen in their true light.

The
LEE SIDE o' L.A.
BY Lee Shippey

DID you know that the name of Pasadena would have been Muscat, if some one hadn't arisen just in time to protest that that sounded too much like "muskrat"?

AH! MY!
AND I LIKE PASADENA SO MUCH TOO!

And that the name of Pasadena is Chippewa Indian, not Spanish, and originated in Wisconsin, not in California?

And that not only was Ramona a wholly fictional character but Alessandro was merely an Italian name which Helen Hunt Jackson thought was pretty and insisted on putting into her famous novel, against the objections of some of her advisers?

And that the name, California, probably doesn't mean "hot furnace," after all, but was borrowed from a "best seller" of the early sixteenth century, in which it was used as the name of a land ruled by women? Yet it was not given to this State by some one with power to look ahead 400 years. It was given to this territory because Cortez and his associates believed California to be a land of Amazons, a land of women without men.

Books of Enduring Value

These are only a few of the "moot points" cleared up in the "History of Pasadena and the San Gabriel Valley," by Harold D. Carew, a three-volume work just published by the S. J. Clark Publishing Company of Chicago. In this work Mr. Carew, who is literary editor of the Pasadena Star-News, has done for the San Gabriel Valley what some one ought to do for every important area of Southern California—gotten the stories of pioneers while they still are gettable and provable and subjected every story to the test of the most thorough investigation possible. All those familiar with Carew's splendid series of historical articles in Touring Topics know how well he writes and how conscientiously he investigates, and this history is one the student of coming generations will find invaluable. To give the background, the first volume tells the whole story of Alta California before the Americans came. After that, the work settles down to an intimate history of Pasadena and the San Gabriel Valley. The chapters in Book I include "Gentleman Adventurers" (Cabrillo and his associates,) "The Naming of California," "Spain Dreams of Empire," "The Sacred Expedition" (Father Serra's expedition which founded San Diego,) "The Road to Monterey" and "The Queen of the Missions" (San Gabriel.) In Book II are "Tales of a Yankee Pirate," "Captain Fitch Comes Courting," "Jedediah Smith, Pathfinder" and "The Romance of the Ranchos."

AH! THE DAYS OF REAL ROMANCE!

The Name of California

So many positive people tell conflicting stories of how California got its name that we are going to quote Carew on this point. The most common theory is that the Latin, calida fornax, meaning hot oven, was suggested to the first explorers who reached Baja California. Others believe it was derived from cal y forno, meaning limekiln. Another story is that a priest named Father Cal y Fornia was among the early missionaries, but Father Serra never seems to have heard of any such. It was Edward Everett Hale who discovered that in an ancient Spanish romance, "Las Sergas de Esplandian," published in Spain late in the fifteenth century, appeared the following: "Know ye that at the right hand of the Indies there is an island named California, very close to that part of the terrestrial paradise which is inhabited by black women without a single man among them, and they live in the manner of the Amazons." The story was a great favorite until Cervantes ridiculed it to death in "Don Quixote."

Anyhow, everybody read it, and from what history reveals of them, any Spanish conquistador would have risked a good deal to be the first man in a land like that. Cortez, in a letter to one of his lieutenants, refers to the province inhabited "by women without any men." California then was believed to be an island, an island of romance and mystery, an island many believed to be inhabited only by women and there seems more evidence that it was named in honor of the island made famous, in that age, by "Las Sergas" than there is to support any other theory.

AH! SO THESE YOU ARE!

The Naming of "Ramona"

The way certain names take hold is brought out in the chapter of Carew's history on "John Muir and Carmelita." Carmelita, the home of Prof. and Mrs. Ezra Slocum Carr—now Carmelita Gardens, one of Pasadena's loveliest parks—then was literary headquarters for the Southland. In the early '80's Helen Hunt Jackson arrived there with a letter from Oliver Wendell Holmes. She had just created a stir with a book called "The Crime of the Century," attacking the government's treatment of Indians. Mrs. Carr took her guest to points of historic interest, her son, A. L. Carr, driving them. A. L. Carr spoke Spanish fluently and acted as Mrs. Jackson's interpreter at the old Spanish ranches. On a trip to Santa Barbara they stopped at Camulos ranch, where Mrs. Jackson was introduced to the Del Valle family. Carr, now 73 years old, says that Mrs. Jackson was greatly impressed by the ranch and on leaving said: "This is the setting for my story."

The first four or five chapters were written at Carmelita and the author discussed with the Carrs several titles she had in mind. "We took Mrs. Jackson to call on Mr. and Mrs. J. DeBarth Shorb, whose ranch was where the Huntington Library now is," Carr says. "At the time of our visit Mrs. Shorb's little daughter was in the room. She had been named Ramona for her grandmother. When Mrs. Jackson heard the name she was immediately struck by its euphonious sound. When we had taken our leave she exclaimed: 'That's the name for my novel!'"

"She hit upon the name, 'Alessandro,' for the young Indian to whom Ramona was to betroth herself. I remonstrated that Alessandro was not a Spanish, but an Italian name—that it would be as out of place as to call her hero Pat or Mike. But she liked the name and that was all there was to it."

We've been all over Mexico and never met an Alessandro, though we have met a couple of Alejandros.

Mr. Carr, as we said before, is 73 years old. Soon it will be too late to get the direct testimony of men like that on matters of great interest in California's past. So Mr. Carew's history is not only delightful but important.

WHAT OTHERS THINK ABOUT IT

ART TREASURES IN WAR TIME

[Chicago News.]

No difficulty should be encountered by the League of Nations committee on intellectual co-operation in obtaining from the signatories of the Kellogg peace pact formal approval of the plan proposed by Prof. Roerich, eminent artist and traveler, for a protection of scientific and artistic treasures in time of war. The plan has just been indorsed by the committee.

The suggestion involves the creation of an international flag to be raised above museums, art institutes, cathedrals, libraries, universities and other spiritual and cultural institutions during war times, and the treatment of those institutions as neutral territory. Thus the taking of a city by a belligerent would not affect the status of the protected institutions, and the treasures they contain would not be liable to seizure or confiscation.

Civilization has advanced far enough, it is to be hoped, to make this admirable project practically feasible. Science and art are international, even if their concrete embodiments are national. The destruction of a great library or art institute is an international calamity. Beauty and spiritual values are, or should be, the heritage of enlightened humanity, and every nation claiming a place in civilization should be desirous of safeguarding the master works which best exemplify the nobler side of humanity and the progress it has achieved.

It is strange that the Roerich plan was not thought of before. Perhaps the Kellogg peace pact was necessary as a sort of moral preparation for its cordial reception.

TRADE AND SHIPS

[Philadelphia Public Ledger.]

At his round table at the Williamstown Institute of Politics, Dr. Edwin F. Gay of Harvard made the statement that the only argument for an American merchant marine was that it might be necessary in case of war. This is a rather surprising assertion coming from an economist with the wide knowledge and experience of Prof. Gay. So is the exception he took to an editorial by Mr. Coolidge which stated that

> . . . we are dependent on our competitors to carry 60 per cent of our trade to market. Of course, the result is that they help themselves and hamper us.

CHINA: YELLOW OR RED?

II

BY FRED HOGUE

Government by espionage is a fixed policy of oriental rulers. Not only are hordes of paid informers employed, but a reward is given to whoever reports the commission of a crime. One finds this system recognized and commended by all the sages of the Confucian era and practiced by all the governments.

I have often condemned that system, as it was practiced in Russia and Turkey, as barbarous. When I first encountered it in China last year, I assumed my customary attitude of lofty criticism.

My first shock came through personal contact in Manchuria last summer. In talking with a member of the present Nationalist government in China, a graduate of an American university, I expressed my abhorrence of the spy system by which the oriental governments are permeated.

"Give me an example," he retorted, "of a modern government in America or Europe where a system of espionage is not held to be essential for the enforcement of the law. How do you suppress counterfeiting? How do you seek to stop the illicit manufacture and distribution of liquor?"

When it comes to condemning Chang Yang's system of prohibiting evil by means of rewards, we are condemning in substance our own practices.

"Who wills the end, wills the means to accomplish that end." While we condemn this policy in principle, we make perhaps unconscious compromises of that principle in practice. Without resorting to sophistry, we cannot clear ourselves of the accusation of tempering abstract justice with practical expediency.

"Let him that is without sin among you first cast a stone" at the political economy of Prince Chang, the legalist of the ancient state of Chin.

Yang would suppress evil by means of rewards. But what did he include in the category of evil? "Cultivation of virtue . . . benevolence and justice; denunciation of armaments and condemnation of war."

Consider that last of the evils, the worms that gnaw into the vitals of the state: "renunciation of armaments and condemnation of war," and you will begin to discover how far the Orient and the Occident are separated in principle and practice. And remember that code of political economy is not obsolete in China. That code is cited for precedent in Chinese civil and criminal courts at the present time.

A religious or lay instructor who denounces armaments and condemns war is guilty under the Chinese code of the commission of a misdemeanor. Where they are not protected by extraterritoriality they are liable to be cast in prison. According to the teaching of the Chinese "ancients" pacifism is a pernicious doctrine and its promulgation should be prohibited and punished by the state.

Yet, if one follows the thesis of Yang, he is bound to be struck by the similarity with certain of our own precepts of nationalism and patriotism.

Consider his justification of war and of capital punishment: "If fighting may be abolished by fighting, then it is justifiable to fight. If killing may be abolished by killing, then it is justifiable to kill."

That principle was promulgated by Shang Yang centuries before the first Roman legist was born. How far have we departed from it?

Here is an extract from his justification of war and armaments:

"That state is powerful which is able to use its people. How can one know whether a state is able to use its people? When the people look at war as hungry wolves looking at a piece of meat, then it is able to use its people.

"War is a thing that is commonly abhorred. But, if a state can make its people enjoy war, then it will be able to conquer the whole empire.

"In a powerful state, such is the sentiment of the people that when war breaks out, the fathers will bid farewell to their sons, elder brothers will bid farewell to their younger ones, wives will bid farewell to their husbands, all saying:

"'Return not if you cannot conquer,' and also 'If you were to violate the law and disobey your command, it would be just as though you killed us and your countrymen'."

This was written in Northern China at the time the Spartan mothers were saying to their sons, "Return with your shield or on it." Soldiers at that time threw away their shields when defeated and fleeing. If they were wounded in battle and their side won, the shields served for stretchers; if killed, the shield served for a coffin.

Condemn Shang Yang as a brutal militarist if you will; but reflect that the admonitions of the Chinese fathers, mothers, sisters and wives breathe the spirit which swept our own country only twelve years ago—rejoicing in the power of the state and the fierce joy of killing.

In China you will get nowhere in your criticism of the political economy of Shang Yang; for, in following his precepts, the state of Chin, like Aaron's rod, swallowed all the rest.

Yang found no virtue in a state's following the Confucian principle of encouraging virtue. He belonged to a generation after Confucius. The neighboring states were attached to the Confucian philosophy of nonresistance, and Chang knew how to take advantage of it. He wrote:

"If virtue is cultivated in a state, the people will attach themselves to their kindred. If informers are depended upon, the people will attach themselves to the law. When virtue is encouraged, crimes will be concealed. When informers are trusted, guilty persons will be convicted. When crimes are concealed, the people are stronger than the law. When guilty persons are convicted, the law is stronger than the people. When the people are stronger than the law, the state is in a state of confusion. When the law is stronger than the people, the state becomes powerful."

In fundamentals, Shang Yang was not so far removed from the authors of the American Constitution. The theory of our Constitution is based on a government of law, enforced without fear or favor. Such was the purpose of Shang Yang. The aim is the same; but the means for the attainment of that aim differ. Our Constitution, our laws are the expression of the will of the majority—government based on the consent of the governed. Shang Yang based his government on the fear and the submission of the governed.

Listen to Han Fei, the great legalist of Han:

"Some scholars nowadays counsel rulers of states that benevolence and justice, or compassion and love be used.

"Because rulers of the present have been attracted by the names of benevolence and justice and have not examined their truth, some have perished along with their states and others have seen their own rank reduced and their territory despoiled.

"To give alms to the poor and destitute, that is what they call benevolence and justice. To take pity on the people and to be so tender-hearted as not to employ punishment, that is what they call compassion and love.

"Now, when you give alms to the poor and destitute, those who are not meritorious are rewarded. When you do not employ punishment, those who are guilty and wrong will not be corrected. In a state where the people are rewarded without merit, the people will not fight hard outside and will not farm inside. They will curry favor with the wealthy and influential by means of corrupt methods."

We flatter ourselves that we are a logical people, but the Chinese find us the most illogical of all people. When the missionaries came preaching "peace on earth to men of good will," the Chinese of the present generation listened. Then came the World War and all the war propaganda; and they came to regard the western nations as more bloodthirsty than the Tartars and the Manchus who once overran their country. They found a strange variance between the preachings of the Christian faith and the practices of the Christian peoples in the World War. We have recanted since the war ended; but they say, and believe, that we would return to our bloodthirsty practices in case of another war.

When I asked an educated Chinese "Why are you in such a frenzy to drive foreigners from Chinese territory, foreigners who are peace-loving and law-abiding?" he responded, "Why did your government pass the notorious Chinese Exclusion Act? You refuse to Chinese admission to the United States and demand unlimited admission of your nationals to China. It seems to make a vast difference to you whose nationals are being excluded."

I confess that I found it expedient to change the subject by talking about the weather.

We condemn the Chinese for their exclusion of foreigners, yet, for the protection of the American standard of living, we have found it imperative to impose drastic restrictions on the admission of foreigners to our country. Living in glass houses, we continue to throw stones.

The Chinese code of morals antedates our own, antedates the Sermon on the Mount. The aims of the two civilizations are similar, but we differ as to the means of attaining these aims. How are these differences to be composed? Only by mutual tolerance and intellectual conference. The Chinese may be brought to accept and make use of western implements of industry; but it is one thing to export western machinery and a vastly different thing to export western thought. We regard the arts as virtues; the Chinese of the school of Shang Yang regard the practice of the arts as the practice of vices.

We reproach the Chinese for their misery and they reproach us for our opulence. The two races, the two civilizations have come to grips. We must either reason it out or fight it out. We possess the armaments necessary to conquer Chinese territory; but do we possess the moral, the intellectual, the religious armaments necessary to conquer Chinese confidence and Chinese hearts?

Lao-tze expressed the Chinese viewpoint when he said, "Who can make muddy water clear? But, if allowed to remain undisturbed, it becomes clear of itself."

And Confucius said: "The commander of the forces of a large state may be carried off, but the will, even of a common man, cannot be taken from him."

Lao-tze also admonished his disciples, "He that knows does not talk; and he that talks does not know."

Another Chinese proverb perhaps applies, "No image maker worships the gods; he knows what they are made of."

EVANGELIST THROWS OFF 'SINKING FIT

Mrs. McPherson's Loss of Ground Regained Shortly; "Ma's" Injury Discredited

Rallying after a sudden sinking spell which caused her attendants to worry early yesterday morning, Aimee Semple McPherson, Angelus Temple evangelist, was showing some improvement last night, according to her physician, Dr. Edward H. Williams, nerve specialist.

Removal of Mrs. McPherson to a mountain cabin for more rest and quiet will be delayed a few days, according to the physician, who said that he is confident the evangelist is out of danger, and will be much better today.

According to S. L. Caldwell, chairman of the board of elders, at a meeting held yesterday, it was decided to take a decided stand and to protect the interests of Mrs. McPherson during her illness.

"So far as Mrs. Kennedy ever coming back to the Temple after what has happened, it is absurd to even suggest it. A reconciliation with the temple board is impossible," he said.

Two additional affidavits were made public yesterday by F. C. Winters, business manager of the temple. One is signed by Fred Hanson, chauffeur for Mrs. McPherson. He states that on July 25, last, five days before the asserted attack suffered by Mrs. Kennedy in which she asserts her nose was broken, he took her from Brentwood Sanatorium to the beach. He says her nose was swollen and she told him that it had been broken when she was a little girl and that she was getting it straightened.

The other affidavit is signed by Edna Mae Robbins and Helen Martin, evangelists at Longview, Wash., where they say, on the 5th inst., five days after the asserted attack, they sat near Mrs. Kennedy for two hours and that there were no marks or scars on her face or nose.

Mother Saved from Bandits by Young Son

With all his boyish strength, Eugene Kraushaar, 12 years of age, hurled a rock at two bandits who were robbing his mother last night, felling one of the men. Startled by the unexpected attack, the bandits fled, dropping the woman's purse.

Mrs. Fern Kraushaar, the mother, and the boy had just parked their automobile in the garage at the rear of their home, 4428 South Broadway, when the bandits appeared. They paid no attention to Eugene, who slipped out of the garage and found the rock while the men were taking his mother's purse.

Police Invited on Fox Hunt

Housewives, beware! Keep your refrigerators closed if they're on the back porch and are harboring that nice, plucked fowl intended for the dinner table; for Reynard is believed to be abroad in the land. In fact, a pack of Reynards—five, to be exact.

For some time L. E. Shurtleff has been raising B'rer Fox in his backyard at 403 Thomas street. He had five of them—that is, until yesterday—and says they are worth $3000. But yesterday he reported to police they were gone. Someone, he complained, cut a hole in the wire inclosure and either made off with the foxes or allowed them to scamper away.

VETERINARY GROUPS HOLD CLINICS HERE

Clinics and demonstrations at the Los Angeles Union Stock Yards yesterday claimed the time of delegates to the sixty-seventh annual meeting of the American Veterinary Medical Association, following the conclusion of business sessions at the Ambassador. Delegates and their ladies will wind up their convention activities today with a sightseeing trip to San Bernardino and Riverside counties. They will have luncheon at the Mission Inn in Riverside.

Small Child May Die from Auto Injuries

Frank Albritton, 3 years of age, was in the Methodist Hospital last night and not expected to survive a skull fracture and other injuries received when he was struck by an automobile near his home at 5907 South Wilton Place. The car was driven by Francis Scholine of 6735 Fourth avenue. He was not held by police.

Leo Hatch, 17, 1155 South Dakota street, attempted to avoid a collision with a truck while riding down Euclid avenue on his motorcycle. In swerving he dashed into the curb at Ninth street and suffered injuries from which he may die. He was taken to General Hospital after treatment by surgeons at the Georgia-street Receiving Hospital.

Freed Fugitive Suspect Again Under Arrest

Released on a writ of habeas corpus following his arrest as an escaped Oklahoma convict serving a life term for a murder, Joseph R. Adkins, 55-year-old carpenter of 626 North Avenue 53, was rearrested yesterday as he stepped from the County Jail. He was taken in custody by Officers Gaines and Jones and booked on suspicion of escape from El Reno, Okla. Inasmuch as Oklahoma was a territory at the time of the asserted murder, it is likely Adkins today will be turned over to Federal officers.

Adkins maintains his arrest is the result of mistaken identity. His release yesterday was ordered by Superior Judge Aggeler.

TOPING LAID TO HUSBAND

Habitual intemperance is the grounds named in a petition for divorce filed yesterday by Mrs. Dorothy Jewell against William Beal Jewell. The wife accused the husband of becoming so intoxicated on numerous occasions that he could not find the places where he had parked his car, spending money for taxicabs instead.

UNDERWEAR ROW AIRED

Because she bought new undies, her husband became enraged and tried to choke her, Mrs. Edith Chase testified yesterday in obtaining a divorce from Charles Chase. The wife said he compelled her to live in an unplastered hut in Tulare, with old boxes for chairs and tables. Superior Judge Falk granted her a divorce.

WAR HELMET MADE INTO FRILLED HAT

Lotti Loder

Oh, well, sic transit gloria mundi.

Consider the case of an old war helmet that for twelve years gathered dust, until the bright eyes of clever little Lotti Loder, Warner Brothers' feature player, lit on it.

Niftily she invested it with a covering of silk, added a few ribbons, a spray of flowers, and lo, a new and saucy hat like that of Merry Widow days, was born.

Health and Diet Advice

By DR. FRANK McCOY
Author of "The Fast Way to Health"

EXERCISES FOR FLAT FEET

Flat feet are often formed because the muscles of the feet and calf are not strong enough to give support to the ligaments which bind the bones of the feet in the shape of an arch. This is a very common disorder and one which may cause many pains and aches in the lower back and legs.

One of the sources of fallen arches is the habit of "toeing out" while walking. This method will in time weaken the strongest foot, since it throws the weight of the body on the inside of the foot when it should be carried on the outside. By placing the weight in the wrong place with every step the arch soon becomes flattened. On the other hand, "toeing in" throws the weight on the outside of the foot where it belongs, and results in the free play of all of the foot muscles.

It is often impossible to cure a case of sciatica or rheumatism of the legs until the patient learns to walk correctly.

The flat foot appears to be pressed down in the middle, making the center of the foot the widest part and the arch is not rounded but flattened out so that the whole foot presses down against the floor. If a print of the normal foot shows the heel and ball with only a thin conencting line at the outer edge.

Before flat feet can develop there is always a long period where the feet are weakened, not only the foot muscles but the leg muscles. Men do not suffer from arch troubles so much as women because they usually keep their leg muscles stronger.

Accidents may push the bones of the foot out of place and induce arch trouble. In young children the flat foot develops from being overweight in some cases, while in others malnutrition from not obtaining enough mineral elements may be the cause.

In any case where there is much strain on the feet from continued standing as may occur in such work as dentistry, selling in stores, waiting on table, cooking, nursing, etc., there is an aggravation of arch discomfort.

To correct fallen feet try "toeing in," hiking over rough ground, and rising on the toes twenty times twice daily. A very good exercise is to practice "toeing in" every other block when you are walking. Another good exercise is to stand barefoot and try to pick up marbles and the toes, or stand on a thick book and grasp the edges with the toes.

See that your shoes do not bind you. Arch supports may help temporarily, but they are crutches and you must rely upon exercising to repair the foot permanently. The exercises, if persisted in, will gradually bring back the muscular power of the important muscles and increase the circulation in the foot so that your arches may then return to their normal shape. You can then discard any arch support and your feet will feel strong, as nature intended.

When correcting flat feet it is always a good plan to wear some kind of specially made shoes which fit the foot properly. There are many stores selling special orthopedic shoes which are made in such a manner as to encourage the wearer in using the muscles of the feet. A competent chiropodist will be able to advise you about the best arch supports or shoes to use while you are also strengthening your feet through doing the exercises I have suggested in this article.

WHEN THE SANDMAN COMES

A Bedtime Story

by THORNTON W. BURGESS

IMPY GOES TO WORK

The greatest blessing life can give
Is work and thus the right to live.
—Impy the Chipmunk.

Impy the black Chipmunk felt that he was really out in the Great World. He felt, too, that he had found the most wonderful place in all the Great World for a new home. Just outside a fence corner was a great pile of stones. There were big stones and little stones. The fence was a rail fence and offered a lovely place for a Chipmunk to run. In some ways it was even better than the old stone wall. Impy had looked around somewhat hastily and had discovered that there seemed to be plenty to eat, so that was one more thing to make this seem a wonderful place.

"I'll dig me a house," said Impy as he sat on the old fence and looked things over. "The question is, just where shall I dig this house? To begin with, I want it to be a secret; so I must have my doorway where it will not readily be found by others. That means that I cannot have a lot of sand scattered around it. Sand around the entrance to one's home is a regular giveaway. There must be no sand at all around my doorway. I remember what my father, Striped Chipmunk, said. He told me that when I got ready to dig a home I should dig a back door first and take all earth out that way, and so finally open the front door, or regular door, from underground, instead of above ground. Then I should plug up the back door and if my front doorway was properly hidden, there would be nothing to show where I lived. So the first thing to do is to look around to see where I want my front door. Then I must find where I want my back door, which later I will plug up."

Impy ran all over and all around the pile of stones. He went down in between the stones. He seriously thought of having the entrance somewhere under that pile of stones. Then he changed his mind. Perhaps this is because he happened to see Mr. Blacksnake thrust his head out from between some of the stones of that pile. Right then and there, that very instant, Impy decided that the entrance to his home would be somewhere else. So straightway Impy went looking elsewhere. Off one side of the pile of stones, and close to the fence, lay an old log. It was hollow for a short distance. In this hollow part was a big knothole,

Impy went outside and examined the log all over

through which Impy could dig. He didn't dig, but he could have. You see, that side of the log was the side lying on the ground. Impy went outside and examined that log all over. He went back inside. Here was a wonderful place for a hidden door. Impy got quite excited about it. Once more he went outside and this time he went over to the pile of stones. It was only a few feet away from the hollow log. Impy sat on a stone and studied and studied. A plan was beginning to form in his mind. Yes, sir, Impy had the beginning of a plan. Presently he jumped down and began digging a little round hole behind that pile of stones.

Now that Impy had actually started work, he couldn't work hard enough or fast enough. He dug his hole straight down for a short distance. The sand he threw out. When he had gone down sufficiently far he started a tunnel that would pass under that pile of stones and it was headed in the direction of that hollow log. Fortunately for Impy, the digging was easy. It was sandy soil. He encountered only two or three stones of any size and these he dug out of the entrance, but not all of it. He found that he could pack some of it. That is, he could press it into the sides of his tunnel.

When Impy went to bed that night he was a tired Chipmunk. Also, he was a happy Chipmunk. He had the beginning of a home all his own, and this meant a great deal to Impy.

Yesterday's Just Normal Weather

The highest temperature yesterday was 88 deg., one under the same day last year. It was 18 deg. cooler than the maximum for August 29 recorded in forty years. The lowest point reached by the mercury yesterday was 66 deg., 20 deg. higher than the minimum record in forty years.

The forecast for today and tomorrow is fair with no change in temperature but with morning fog along the coast. Gentle west winds are predicted locally.

BANANA-CRATE PLANT DAMAGED BY BLAZE

Damage estimated at $10,000 was caused by a fire which broke out yesterday in a banana-crate factory operated by William Bates in the rear of 272 North Avenue 21, and swept over two other buildings before it was placed under control. The blaze started from an incinerator and, after destroying building and contents of the factory, spread to a storehouse of the Municipal Light and Power Department, then to a garage owned by Gaton Pierrini.

PIPE LINE FRANCHISE SOLD

The City Council yesterday sold to the Del Rey Oil and Refining Company a franchise for a pipe line in Venice streets. It was sold for $500.

CHEF WYMAN'S RECIPES

The Times' free cooking school conducted by Chef Wyman has been discontinued for the summer. Date for resuming has not been set but will be announced later.

HONEY PECAN ROLLS

One cupful of flour, one teaspoonful of baking powder, one-half teaspoonful of salt, four tablespoonfuls of cold water, one-half cupful of sugar, the yolks of four eggs, and the whites of four eggs. Beat the whites of the eggs until stiff but not dry, and gradually add to them, continuing the beating, the sugar, then add the well-beaten egg yolks. Sift the flour with the baking powder and salt, and fold the flour into the eggs with four tablespoonfuls of cold water, add half a teaspoonful of lemon extract. Oil a shallow oblong baking pan and line it with paper, oil the paper and flour it, pour the mixture in and bake in a moderate oven, until it will spring back when pressed with the fingers. Remove from the oven and place on a damp cloth, trim off the edges, spread with honey and chopped pecan nut meats, pull the cloth toward you and start rolling. Roll up like a jelly roll, leave in the moist cloth for about ten minutes, then remove to a dish and sprinkle with powdered sugar.

CLAM PIE

Three cupfuls of clams, a small piece of fat salt pork, one tablespoonful of butter or shortening, two cupfuls of water or clam juice, three medium-sized potatoes diced, a seasoning of salt and paprika, one tablespoonful of chopped parsley, one small onion chopped fine, one tablespoonful of chopped green pepper, three tablespoonfuls of chopped celery. Cut the pork into small cubes, add the clam juice, butter, onion, parsley and celery, and simmer slowly for twenty-five minutes, add the uncooked potato dice and cook until tender. Thicken with a little flour that has been rubbed to a paste with a little cold water, add the clams, either whole or chopped, and as soon as they are heated, pour the mixture into a baking dish and place over the top of it small baking-powder biscuits, made by sifting two cupfuls of flour with four teaspoonfuls of baking powder and one-fourth teaspoonful of salt. Chop into this four tablespoonfuls of butter or shortening, then add sufficient milk to make a soft dough, about one-half cupful. Place the dough on a floured board, and cut, cover the clams with the biscuits and bake in a hot oven.

FROZEN BLANC MANGE

Soak one tablespoonful of gelatine in one-fourth cupful of cold water, scald two cupfuls of milk in boiling water. Beat the yolks of three eggs, and add to them one-third cupful of sugar and one-eighth teaspoonful of salt, pour the scalded milk over the beaten egg yolks, beating constantly, place in a double boiler, and cook until the mixture will coat a spoon, then add the gelatine, and stir until dissolved. Cool, add one teaspoonful of vanilla extract, pour into a mold, and place in the ice box to harden. When ready to serve, cover with a meringue made from the whites of the eggs, and add to it some sliced minted green cherries.

INTERFERING RELATIVES SEEMINGLY MORE COMMON THAN UNDERSTANDING ONES

Every married adult woman should be able to run, and have the privilege of running, her own household and rearing her own baby. We want to reiterate this belief for the benefit of timid mothers who allow others to wreck their babies' schedules, ruin their digestions, break up good habits and all because someone else thinks it will not "hurt" baby. The mother should be the one and only judge of that.

My mail is full of protests similar to the following: "What on earth can I do? My mother insists on rocking my baby to sleep at night. She says she has rocked eight children and intends to rock this one. She is very stubborn and hard to move, though I protest daily against this."

"My father lives with us," says another, "and I can't keep him from giving my little boy candy. He always has it on hand and gives it to him on the sly, knowing that I disapprove. I have talked and talked, but it does no good and now Bobby has no appetite and whines half the night in his sleep.

FRACTIOUS IN-LAWS

"I live with my parents-in-law," writes N., "because my husband is out of work. I am grateful for the shelter, but they are ruining my baby. I had him on a good schedule, but they all think it foolishness and have snatched up and kissed and played with baby so much that now he cries unless someone is holding him. I am so miserable about this, as I know how bad it is for him."

One might go on endlessly. Always some older person riding rough-shod over the plans of the younger.

We think these mothers spineless for not asserting their rights. Whose baby is it? Surely not the relatives. Even if grandmother wants to make herself indispensable to the baby she need not do it in a way to utterly spoil his manner of going to sleep. Rocking may please her, but it only makes an irritable, spoiled child of her grandson who does not need this attention to woo sleep.

SPOILING THE PICTURE

Grandfather may not realize that in addition to ruining the child's appetite for his meals he is likewise destroying all respect for the mother's commands. Bobby would be a strange child if he didn't acquire this same disrespect when he sees how little grandpa cares whether mother says, "No candy for Bobby."

Grandmothers and grandfathers in general can use harmless ways of winning their grandchildren's affection without upsetting routines, digestion and whatnot. A spoiled grandchild isn't in the end any great comfort to the grandparent who spoiled him.

Every young wife should start out on the right foot. She must learn to run her own household and when her baby arrives, to study and learn how to give him proper care. Then she must persistently refuse to allow anyone, relative, neighbor or friend, to upset her plans and schedules. She'll find to her surprise that if she is tactful but firm they have an added respect for her.

YOU CAN'T AFFORD IT

NO MATTER how many fine silks and woolens you own, you can't afford to wash them in hot water. Because, even if you have the price of new ones, you can't renew the tender skin of hands that emerge red and swollen from hot wash basins.

If you think that only hot water can get clothes clean, *here's news for you!* White King Granulated Soap, a pure vegetable and nut oil soap, will yield quick, cleansing suds in cool or lukewarm water. Ginghams and prints will stay bright, white goods wash whiter, and your hands will remain smooth and soft.

White King Granulated Soap is *condensed.* You will be surprised to find how little is required. It's the safest and yet the most economical soap you can buy. Hard water does not hinder its effectiveness. Have you tried it? At your grocer's.

"HALF GODS" TO BE FILMED

Universal Negotiates for Howard Play Rights

Regis Toomey Wins Renewal of Lasky Contract

Paul Page will Return to New York Stage

BY GRACE KINGSLEY

Universal is distinguishing itself with film productions, what with "All Quiet on the Western Front," and the promise of an equal success for "Boudoir Diplomat" and "The Lady Surrenders." Universal plans to become the possessor of the film talking rights to Sidney Howard's play, "Half Gods," we learned yesterday. It is known that Carl Laemmle, Jr., is in negotiations for said rights, with every chance of a happy fulfillment of the proceedings on both sides.

MARY NOLAN

The drama will be filmed as a special, with an all-star cast, and it is predicted that Mary Nolan will have the leading feminine role.

REGIS TOOMEY WINS PARAMOUNT RENEWAL

That charming actor, Regis Toomey, has won his just professional deserts by being signed on a new Paramount contract. B. P. Schulberg made the announcement yesterday.

REGIS TOOMEY

Toomey, as will be remembered, first burst on the fans' happy consciousness in "Alibi," since which his talents have been constantly in demand. He received a Paramount contract a year ago, and Paramount is said now to be planning some excellent things for him.

It is understood that Toomey is slated to play the leading male role opposite Clara Bow in her next picture, which is to be filmed in New York, and work on which will begin in October. In the meantime, unless he is loaned by Paramount, he will take a vacation, and will motor through California with his wife.

Toomey was to have been loaned to Fox for the leading role in "Luxury," adapted from Knoblock's play, "My Lady's Dress," but the picture was canceled.

Paul Page to New York

Whether Paul Page remains in pictures or returns to the New York stage is a matter of conjecture with that actor just at the moment.

He returns to New York tonight, partly for vacation and partly on business, he said over the telephone last night. The business concerns his possible return to the stage under management of Archie Selwyn in a new play by George Kaufman, author of the successful "Green Pastures." He and Selwyn have been talking the matter over, and he is to confer with the author when he reaches New York. However, he has a couple of picture offers for the late fall, so his mind isn't at all made up.

M.-G.-M. Burlesques Film

Now that "The Big House" is fairly launched, M.-G.-M. sees no reason why a by-product in the way of an amusing burlesque on the same is not in order.

At any rate, Messrs. Zion Myers and Jules White yesterday began filming "The Big Dog House," in which their clever canine actors will take part. They say the opus is to be filmed in every language except the Scandinavian!

Heading the cast are Oscar, leading lady; Buster, leading man; Jiggs, villain; Chief, warden; Billy, governor; Pepper, captain of the guards, and Jerry, Butch the Killer.

Hundreds of extras recruited from dog pounds will participate in the prison riots.

Jeanne Greene Here

Clever Jeanne Greene, who, although but 20 years old, has appeared in a number of New York's noted successes, has come to Hollywood and is to enter pictures soon. One hears that a test made at one of the leading studios will probably land her a contract.

JEANNE GREENE

Miss Greene played opposite Edward G. Robinson in "Kibitzer," and later was leading lady with Paul Muni in "Four Walls." Prior to that she was opposite William Farnum in "The Buccaneer," a Maxwell Anderson play, produced by Arthur Hopkins.

There is a possibility that she will go to London next year to again appear with Paul Muni in "Four Walls."

Robert Woolsey Wires

From Robert Woolsey comes a momentous wire to the effect that he is to open a miniature golf course.

"I have learned that they are getting onto me in pictures, and that I may be out any day, so I am going to fool them," wires Robert. "I am opening miniature golf course tonight at Hollywood and Edgemont. Don't tell anybody."

June Clyde In It

The lively little ingenue, June Clyde, has just been cast by R.-K.-O. to play a leading role in the current Nick and Tony comedy, "Moonlight and Monkey Business," co-featuring Henry Armetta and Nick Basil.

Johnny Gray wrote the dialogue and continuity. Other players are Lita Chevret and Roberta Gale.

HARRY LANGDON IN DEMAND

Harry Langdon has been in great demand since he entered straight roles in feature-length productions. He recently completed "A Soldier's Plaything" for Warner Brothers, and at present is featured in "See America Thirst" for Universal. Following the completion of this production, he will begin work in "The Ape" for Liberty Productions.

CHILD EXTRAS IN DEMAND

Child extra players are having their day at last. Hundreds of children have been used and will be at work during the coming few weeks on Paramount's production of Mark Twain's boy story, "Tom Sawyer," in which Jackie Coogan returns to the screen for his initial talking part in the title role.

ARLISS CHARMS ANEW IN FILM

Veteran Actor Wins Laurels in "Old English"

Sentimental Vehicle Given Fine Performance

Supporting Cast of Warner Feature Excellent

BY PHILIP K. SCHEUER

For twelve minutes, Sylvanus Heythorp (in the person of George Arliss) sat on the screen at Warner Brothers' Hollywood Theater yesterday afternoon, winning and dining. A rapt houseful of watchers savored each smack with him, drew gustatory sighs over the filet, the souffle, the '68 port and the brandy, as if each were sharing them. It was, to be true, the same dinner of which Sylvanus had partaken for many nights on the stage in "Old English," but now it assumed a new, certain intimacy; the stage play had become a close-up.

This Galsworthy concept, Sylvanus, may not be the most glamorous of those three which Mr. Arliss has brought to the talking pictures, but it is surely the most sentimental. Sylvanus has something of the decisive statesmanship of a Disraeli, the sardonic humor of a Raja of Rukh; most of all he is a lonely, dreaming old man—with harshness for his enemies and tenderness for those he loves. The clipper ships he sends out under Her Majesty's flag carry a little of him into the sunset each time they make sail; the rest of him is too enfeebled even to rise to its feet without a brace from some one else.

FINAL COUP SHOWN

Like his nickname, "Old English" is ancient and loyal. The picture describes his waning domination of the ship company's stockholders, his last coup, and concurrently the manner in which he provides, shrewdly and cleverly, for two grandchildren who do not bear his name. To his legitimate granddaughter, Adela—narrow, straitlaced, pure Adela—he bequeaths a satisfaction only. "When they're roasting me," he tells her, jesting of death, "you'll be able to say, 'I told you so.'"

Mr. Arliss's performance is a classic delight. He breaths warmth into those old bones as no one else could. His address to the stockholders, his scenes with the girl Phyllis Larne, who is like the reincarnation of the woman he never married, and with a serving maid in his house, are vibrant with an art that never plays him false. Indeed, it is amazing how much accumulative power is generated in a talking film that, almost bereft of physical locomotion, yet manages to get somewhere. For shorn of its star it would cease to be the mental movie it is, and put you speedily to sleep.

This is not, of course, to disparage the work of either the supporting players or the director. Alfred E. Green, Mr. Arliss's special cinema guide, does much to reduce, by coherency in cutting, the "piecemeal" effect that is unavoidable in these literal translations from the theater—though I have not seen one yet which completely caught the solidity that is the same theater's peculiar and actual property.

"BIT" STANDS OUT

The work of the cast is uniformly excellent. Betty Lawford makes an altogether captivating Phyllis, and Leon Janney is her little brother. Their mother is realized by Doris Lloyd, an expert actress. Ethel Griffies is the prototype of the mid-Victorian lady she represents, as Adela. If the Letty programmed is the name of old Sylvanus's servant, then Henrietta Goodwin may be credited with one of the finest "bits" in film history. Others are Ivan Simpson, Murray Kinnell, Harrington Reynolds and Joan MacLean.

The adaptation, from Galsworthy's drama, was done by Walter Anthony and Maude Howell.

"Guardy" is another of "Old English" nicknames. You will want to see him, sitting there in his reverie of "great days . . . all gone," so that you may share the pleasure Granddaughter Phyllis takes in telling him, "Guardy, you have the grand manner . . ."

NEW HOUSE FOR FOREIGN FILMS OPENS

International Theater Inaugurated with Talkie in Spanish Language

BY SALVADOR BAGUEZ

Once more Los Angeles pioneers in the field of motion-picture entertainment, with the inauguration last night of the California International Theater at Main and Eighth streets, as a center for a new form of presentations.

The urgent need of a local theater, showing nothing but foreign-language talking pictures, especially in Spanish, had been apparent for some time past and not until Fred Miller, owner of the showhouse, conceived the idea, did it become a reality. With the co-operation of Paramount-Publix and Fox West Coast Theaters, Mr. Miller will present to the foreign colonies talkies in the languages they understand.

Los Angeles is the third Mexican city on the North American continent, and with the steady influx of people from Spain, Central and South America the total of Spanish-speaking persons in the city and environs has increased to over 250,000. For this reason, the theater was opened with the film, "El Cuerpo del Delito," the Spanish version of Paramount's "The Benson Murder Case."

The house will operate on the basis of a weekly change of programs and the three succeeding weeks will be devoted entirely to Spanish presentations. Due to the enormous cosmopolitan population of Los Angeles it will be possible later on for the theater to show German, French and possibly Italian films, depending entirely upon the patronage the film house receives.

If the capacity audience which greeted last night's presentation is any indication, the success of this new venture should be assured. Mr. Miller was the recipient of many messages of felicitations last night upon the launching of this new foreign cinema temple. The theater's policies were flashed on the screen previous to the starting of the feature picture and it was evident that the audience, always used to reading English titles, gave a sigh of relief upon the appearance of the first paragraphs in their own language.

The program was varied in form with a series of Spanish short subjects which were followed by the feature. The approval of the audience was unanimous. As for the "Cuerpo del Delito," it presents a plot which is not appealing to the Spanish-speaking audiences, but it will be liked if for no other reason than its technically perfect presentation and the fact that it is the first effort, and a very excellent one, of Paramount-Publix. Antonio Moreno heads the cast of very competent players, supported by Ramon Pereda, Maria Alba, Andres de Segurola, Vicente Padula and others.

ARTIST PLAYS AT BOWL

Alfred Wallenstein, Soloist, Shares Honors with Senor Arbos and Orchestra

BY ISABEL MORSE JONES

Soloist's night at the Bowl last evening brought the return of Alfred Wallenstein, foremost American violoncellist and one of Los Angeles' own artists. Senor Arbos conducted the Mozart E-flat major symphony with delicacy and taste, preceded by the tuneful overture to "Rosamunde" by Schubert, and finished his concert considerably after 10 o'clock with two pleasing Spanish numbers by Granados and the Chabrier "Espana" rhapsody.

In compliment to the Spanish conductor, Wallenstein chose the Lalo concerto for violoncello in D minor. It is an intricate work of rare beauty and the young genius of the cello played it with ease and a living tone. He took his own time with the cantabile passages, as well he should, but never lost the balance of the orchestral feeling. Innate musicianship and that indefinable quality called style characterized his fine performance.

The audience felt his magnetic power, although the large part of the cello's tone was dispersed into nothingness, owing to his being placed too far back in the shell. Possibly this was necessary so that the conductor and soloist should be closer together but it destroyed the full effectiveness of Wallenstein's instrument.

Seldom does a Bowl audience wax as enthusiastic as it did over Wallenstein last night. He was repeatedly recalled but for some disappointing reason did not play an encore.

Senor Arbos's Mozart symphony was piquant. There was something naive and childlike in its artistry. The Schubert overture to "Rosamunde" is full of tunes to tickle the ear—gay, light music of another day—easy to listen to on a warm summer evening.

The two Granados numbers, "Oriental" and "Rondalla," are more familiar than most Spanish compositions and proved enjoyable in orchestral form.

Tonight the last Bowl concert of the season will be played.

Scenic Beauty Highlight of Foreign Film

BY ELENA BOLAND

Glimpses of another world bring a generous beauty to "A Throw of Dice," the Filmarte offering which comes from India.

For a general insight into the customs and the luxury of this far-off land, the film excellently performs its mission. The scenic views are as exquisite as they are plentiful, as the camera roams from the jungle down along the Ganges to the larger cities of Agra and Benares. That these vistas, including buildings and interiors, are authentic is vouched for in a trailer signed by Lal Chand Mehra, technical director on India, now in Hollywood. Mr. Mehra states that no sets have been used and that only actual palaces and temples are shown.

The picture was directed by Franz Osten, who, it is believed, was sent out by UFA. The quality of direction and story presents nothing new. It is a form which passed from Hollywood long ago. But disregarding this, and taken for what it is, it is well done—surprisingly well done for a country unaccustomed to picture production.

Length and tempo are typical of importations, but one is used now to slowness in foreign films. The cast includes only native players who are amazingly competent. The plot trend follows that along which our former adventure thrillers traveled. Jealousy between two kings, cousins, over a girl brings about a series of attempted murders, flights from palace to palace and the final dash of soldiers to the rescue.

The first scenes have a newsreel quality. They open in the jungle through which are seen prowling the wild beasts of the earth. The photography here is splendid. The royal hunt injects the first step of story, which then progresses—slowly.

The three dominant performances are given by Charu Roy and Himansu Rai (the rival kings,) and by Seeta Devi, the unusually attractive heroine. The technique of these actors differs very slightly from that which we know. If anything, it might be said they possess at times a greater naturalness and fire.

There is grandeur to the locales, to costumes and to detail which should induce any travel-minded person to a chance at "A Throw of Dice."

Equally interesting is the revival of an early D. W. Griffith piece titled "The Last Drop of Water." Lillian Gish and Blanche Sweet are the stars. The picture was made in 1906 and for that date is an extraordinary achievement.

'Manslaughter' New Feature on Pantages Bill

Diversified entertainment is offered in the program current at Pantages Hollywood Theater, with "Manslaughter," a melodrama, on the screen, and "Gobs of Joy" on the stage.

"Manslaughter," the talking picturization of the novel by Alice Duer Miller, has Claudette Colbert in the role of the reckless, pleasure-loving heroine carried to tragedy by her thoughtlessness.

The supporting cast was selected with care from stage and screen, and includes Frederic March, Natalie Moorhead, Richard Tucker, Emma Dunn, G. Pat Collins, Stanley Fields and others. George Abbott directed. Arthur (Pat) West headlines the stage presentation.

"BRONZE BULL" PUBLISHED

Before signing with Paramount for an important role in "Social Errors," Charley Grapewin completed arrangements with an eastern publishing firm for the publication of his latest novel, "The Bronze Bull."

Whispers in the Wings

BY MURIEL BABCOCK

"YOUNG SINNERS," the new Elmer Harris comedy which is supposed to be a pretty snappy piece about modern youth, is next on the Belasco Theater production calendar, I learned yesterday.

In fact, casting is already under way and as soon as the new Pauline Frederick show gets out of town rehearsals will begin in earnest.

Inasmuch as it was that other Elmer Harris treatise on youth, "The Great Necker," which hung up the long-time play record at the Belasco, high hopes are entertained for this. Edward Belasco told me yesterday that no play in his theater had ever equaled the seventeen-week summer run established by "The Great Necker."

The Messrs. Shubert did "Young Sinners" in New York at the Morosco. It has a cast of sixteen.

Santa Barbara Opening

The Pauline Frederick show, "The Crimson Hour," in rehearsal at the Belasco these past weeks, will open in Santa Barbara next Thursday evening, moving on to San Francisco to the Curran for a first night there on September 8.

Huntly Gordon is playing opposite Miss Frederick. Ethel Jackson has the ingenue lead and Sanford McCauley has the juvenile part.

Somebody who has been sitting in on the rehearsals confided to me yesterday afternoon that the show looked good.

Mary Duncan in McGuire Play

There is talk that Mary Duncan will have the lead in William Anthony McGuire's new play, "Onward, Christian Soldiers," when that piece reaches the Biltmore early this fall. In fact, a gentleman who should know what he's talking about said positively the other evening that Miss Duncan would do the part.

Miss Duncan hasn't been seen here since "The Shanghai Gesture"—which, as a lot of good people will remember, took her directly into pictures.

"Onward, Christian Soldiers," despite its title implications, is a modern drama.

Other Biltmore Bookings

"Dishonored Lady," of course, follows "Candle Light" into the Biltmore. This, with Katharine Cornell, is now in San Francisco and doing, so the report goes, capacity business. It is in the north for three weeks. It stays but two here. (Why? Well, the Erlanger office seems to think San Francisco a better show town than Los Angeles!)

Next to the Biltmore, comes "The Birth of a Nation," in person, the self-same old picture that once had the movie-going world upside down and turning somersaults in approval. It's going to be all dressed up, however, with new sound effects and color. Although how they could get color—other than plain dyes—into the film without remaking it, is beyond me. A prologue featuring a company of fifty will precede every showing. It's now in San Francisco at the Geary.

"Young Love" Blossoms Anew

Word trickles down from the north that the cast of "Young Love," Samson Raphaelson's play, which George Holland is producing, is completed.

Marceline Day, Brandon Peters, Mae Busch and Douglass Montgomery form the quartet of actors who work out the tangles in the affairs of four sophisticates.

Miss Day is, of course, from pictures. Brandon Peters is said to have followed John Barrymore as the young lover in Sem Bennelli's "The Jest." Mae Busch is too well known as an actress about here to identify by part or parts. Montgomery, a Californian, has recently been acting with the Guild in New York.

The author of the play, Sam Raphaelson, is the man who wrote "The Jazz Singer." Everybody should know by this time that that was the opus with Al Jolson that started pictures talking.

"Young Love" opens in San Francisco Monday evening.

Follies Opens Doors Tonight

The Follies Theater opens its new season beginning tonight at midnight. The following players will appear: Jacques Wilson, Vilma Josey, Charles Fagon, George Clark, Adel Stepp, Bob Stanley and Gordon Rydeen. An ensemble of forty girls has also been selected.

OLE MAN RIVER

"The Mississippi River," says the Chicago Tribune, "is reported to be sixteen feet lower at Quincy than it was only a month ago. River men fear that navigation will be interrupted. Maj.-Gen. T. Q. Ashburn, chairman of the government-owned barge line, believes that if navigation is suspended for lack of water the enforced reduction in the diversion at Chicago will be largely responsible."

Our atlas shows Quincy to be some ninety miles above Grafton, where the Illinois River, outlet of the drainage canal, empties into the Mississippi. Consequently, the depth at Quincy cannot possibly be affected by any reduction in the diversion of Lake Michigan water at Chicago.

Unless, of course, the Mississippi has begun to flow uphill.—[Detroit News.

Huge Verdun Cross to Shine

Soon the great cross, 150 feet high, will shine above the huge ossuary of Douamont, France, which contains the bones of more than 100,000 French unknown dead who fell at Verdun during the German offensives of 1916. The massive work is nearly completed. It cost $800,000, and is in the shape of a cloister 400 feet square. The cross is really a lighthouse which will show on its four faces huge red and white occulting lights visible more than forty miles away.

Dog Attempts Rescue

A gallant but unavailing effort on the part of Turc, a Newfoundland dog, to rescue a drowning fisherman in midocean several days from Fleetwood, England, was told when the French trawler Gris Nez recently reached port. Turc heard the man cry for help, jumped overboard, but was compelled to give up from exhaustion.

ARCHITECTURAL ACTION DECIDED

W. D. Lee Wins Suit Against Fred Horowitz

Actual Presence on Job by "Boss" Unnecessary

Supervisor Must Make Up on Defects, However

A case tried here originally by Superior Judge Edward W. Engs of Oakland, whose tragic death by a fall left the suit undecided, was decided in an opinion filed yesterday by Superior Judge Yankwich, who presided at a retrial. By the decision, W. Douglas Lee, architect and builder, wins his suit against Fred Horowitz, owner of the fashionable Chateau Marmont, a Hollywood apartment.

Lee sued for $27,314 assertedly due him on building a concrete shell and for supervision and extras. Horowitz contended Lee broke the contract for supervision by not being on the job at least once a day. He also claimed damages for faulty supervision.

Judge Yankwich gave judgment for $23,930, allowing Lee the full contract price of supervision. This is taken as a ruling that, although an architect may not be present personally on the job, he is, nevertheless, entitled to compensation, if the supervision is done under his direction. This is on the theory that it is a substantial performance.

The ruling also is taken to mean that the owner may recover from the supervisor for any defects that might have been avoided by more careful supervision.

The law firm of Patterson, Bailey & Montgomery represented the plaintiff, and Willebrandt, Horowitz & McCloskey the defendant.

Leon Rains Says Germany Favors New Type Drama

Drama is being given precedence over the opera and motion picture in Germany at this time, according to Leon Rains, lecturer of the Opera Reading Club of Hollywood, who returned yesterday from spending the summer abroad.

LEON RAINS

"Great revolving stages, going up and down like elevators, and disappearing stages, are innovations in the theater that thrill and entertain with the immensity of the productions possible to produce with these unusual devices," Mr. Rains says.

He spoke particularly of the great dramas of Reinhardt's "Phaea," and "Christopher Columbus," a combination of drama and song.

To meet Mr. Rains at the Santa Fe station was a group of club women and friends, including Mrs. William H. Gilbert, president of the Opera Reading Club of Hollywood; L. E. Behymer, past club presidents, Mrs. Louis Jaques and Mrs. W. A. Nickell; Mrs. Lorraine Huntington Miller, president Long Beach Opera Reading Club; Mrs. J. J. Zuckerman, past president Santa Monica Bay Music Association, and Mrs. Templeton Woods, vice-president, Mr. Woods, Santa Monica; Mrs. Jacques Sindorf, Mrs. W. G. Boyer, Long Beach; Stanley Pierson. Mr. Rains was accompanied by his 11-year-old daughter, Ottelise.

Publisher Here from Australia

Representing a chain of newspapers with a combined circulation in Australia of approximately 500,000, Duncan Macpherson, general manager and treasurer of the publications, arrived in Los Angeles on his return trip to Melbourne, Australia, from the fourth imperial press conference held in London last June. Macpherson registered at the Alexandria.

Macpherson said he heard complaints of business depression in all countries which he visited.

Plea in Slaying May be Changed

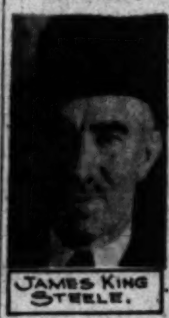
Wilbur McCabe, facing trial for murder and attempted robbery, yesterday was granted permission in Superior Judge McComb's court to amend his original plea of not guilty and add the plea of not guilty by reason of insanity.

McCabe is accused of the murder of Henry P. Miller, night clerk at the University Club, on June 15, last, during an attempted robbery. He is scheduled to go to trial before Judge McComb next Tuesday.

PHILIPPINES FISHING FOR TRAVELERS

Tourist Official Declares Islands Copy This City in Seeking Sightseers

Tourists were advised of a new objective yesterday with the arrival of James King Steele, executive secretary of the Philippine Tourist Association of Manila.



JAMES KING STEELE.

At the Biltmore, Steele declared that the Philippine Islands have unusual attractions for tourists and that private interests of the islands, with the cooperation of the insular government, have started a campaign, modeled after the publicity methods used by Los Angeles, to draw greater numbers of visitors.

Steele was host to Los Angeles transportation men last night at a dinner at the Ambassador at which he described some of the wonders of the islands.

The campaign should prove of benefit to Los Angeles, Steele commented, inasmuch as a great part of the tourist traffic unquestionably would be routed through this city, which has direct steamship service to the Philippine Islands.

Judge Orders Bonds in Theft Case Returned

Return of $30,000 worth of bonds, asserted to have been stolen, was ordered yesterday by Superior Judge Needham in giving judgment to Albert E. Brandt, intervenor in the claim and levy action instituted by Richard A. Parvin against Police Chief Steckel. The police had seized the bonds in Parvin's possession, while investigating the Los Angeles end of the robbery of Brandt's Chicago office in 1929.

Parvin, it was brought out in court, bought the bonds of a broker here, and they were traced to him and seized by police. Brandt established his ownership and received judgment.

County Gives Spring Street Project Funds

Impetus was given yesterday to the plan for the opening of Spring street from Temple street to Sunset Boulevard when the Board of Supervisors turned over to the city of Los Angeles $250,000 to aid the project. The money was authorized by the board several days ago. It will be appropriated from the county's good-road fund.

A portion of the county's appropriation will by used by the city in paying off the judgment and costs, amounting to $125,764.50 entered in the condemnation proceedings of the city against Sol Waxler and other property owners affected by the improvement.

Extension of Car Line Held Impracticable

A report of its engineers recommending against the proposed Los Angeles Railway car line extension on Figueroa street north from Alpine as impractical was approved by the Board of Public Utilities and Transportation yesterday. The extension was petitioned by J. Roy and other residents in the district.

The adverse report of the engineers pointed out that there are many other districts similarly situated which do not have good transportation because of hilly territory.

Early School's Reunion Today

School children of a half-century ago who worshipped at the "birchen altar" in Coldwater School, at the entrance to Coldwater Canyon, when Los Angeles was rich in prospects only, will exchange "do you remembers" today at a reunion in Griffith Park.

In some instances the parents of Coldwater school children still live and they'll be at the reunion, too.

Mrs. Margaret Yager with her two children, Thomas Yager and Mrs. Jennie Yager Williams, the Durfy family, the George Killians, the Charles Tullises, the Benedicts, Whitworths, Cecil Rosenthal, the Swall family and others will be there.
